Roofing Program Requirements
Approved Manufacturers

The State of Oklahoma approves the installation of low slope asphalt and coal tar built-up roofing (BUR) systems, both hot applied and cold process systems, of the Roofing Manufacturers listed below. This categorization includes multi-ply modified bitumen roofing systems. This categorization does not include shingles and metal roofing systems. These categories of roofing will be as specified by the Consultant of Record for each specific DCAM Project. The categories of single-ply and spray polyurethane roofing systems are not approved unless granted approval by waiver on a job by job basis in writing by the State Construction Administrator of the Division of Capital Assets Management, Construction and Properties Department. The department reserves the right to drop any manufacturer that does not verify and update their contact information on an annual basis
