	Pay Items							Unit of Measure	Cost		
1	Cell Phone (Monitoring System for Short Anti-icing system-less than 2,000 lane-feet)							EA	10000		
	Cell Phone (Monitoring System for Long Anti-icing system-between 2,000 and 4,000 feet)							EA	13000		
	System-electronics, Anti-icing system							EA	7000		
	Solar Power Supply for Short System							EA	5000		
	Solar Power Supply for Long System							EA	6500		
	Additional hose							Linear Foot	5		
	Oversight Inspection by vendor							Hourly	150		
	Mobilization of Oversight Inspection by vendor							EA	see tables		
	Mobilization of System Maintenance by vendor							EA	see tables		
	Replacement Remote Unit							EA	4000		

	Pay Items							Unit of Measure	Cost		
	Miscellaneous parts, including delivery plus 20% for overhead							EA	cost + 20%		
	Chemicals (Apex 30%)							Gallon	1.81		
	Chemicals (Meltdown 20)							Short Ton	600		
	System Maintenance Consultation by vendor							Hourly	60		
	System Maintenance Repair Service							Hourly	150		

Training will be incorporated into any consultation to enable repairs on all system checks to be done by state forces. This will make possible more expeditious repairs to be made by state personnel on site. Consultation initiated by agency personnel is encouraged in order to reduce costs and train personnel.
