Re: TVM DBE Goal Concurrence – Fiscal Year 2014

Dear Mr. Snyder:

This letter is to inform you that the Federal Transit Administration's (FTA) Office of Civil Rights has received Goshen Coach, Inc.'s Disadvantaged Business Enterprise (DBE) goal and methodology for FY 2014 for the period of October 1, 2013–September 30, 2014. This goal submission is required by the U.S. Department of Transportation's DBE regulations at 49 CFR Part 26 and must be implemented in good faith.

We have reviewed your FY 2014 DBE goal and determined that it is compliant with DOT's DBE regulations. You are eligible to bid on FTA funded transit contracts. This letter or a copy of the TVM listing on FTA's website is documentation that may be used to demonstrate your compliance with DBE requirements when bidding on future contracts.

FTA reserves the right to remove/suspend this concurrence if your DBE program or FY 2014 DBE goal is not implemented in good faith. In accordance with this good faith requirement, you must submit your DBE Uniform Report in the DOORS system by December 1, 2013. This report should reflect all FTA funded contracting activity for the second period of FY 2013 (i.e., from April 1 to September 30).

Please also be mindful that your FY 2015 DBE goal methodology must be submitted to FTA by August 1, 2014. Therefore, you should publish your goal on or before June 17, 2014. Thank you for your cooperation. If you have any questions regarding this approval, please contact Britney Berry at (202) 366-1065 or via e-mail britney.berry@dot.gov.

49 CFR Part 661 Buy America Requirements

Description of Final Assembly Operations

Goshen Coach fabricates all the structural elements of the bus, other than the chassis, and installs them onto a commercially produced heavy-duty chassis. The bus body is fabricated by welding structural steel members together to form floor, walls, and roof sub assemblies. These sub assemblies are then vacuum laminated to form the basic components of a steel cage. The laminated components are then welded together to form the steel cage bus body.

The heating and air conditioning components for the bus are installed as part of the final assembly process. All the wiring harnesses and electrical components are installed as well as the passenger seats, passenger grab rails, wheelchair lifts, and destination signs (if specified).

All buses are water and road tested, as well as inspected for compliance to specifications prior to delivery. All buses meet 2014 model year Buy America Requirements.

Final Assembly Location

All bus assembly operations will take place at 25161 Leer Drive, Elkhart, Indiana, 46514
