**STATE OF OKLAHOMA – OMES Solicitation# 0900000263**

**1. INTRODUCTION**

The following SLA is provided to outline the minimum service that a customer may expect for services, warranties, and support. SLA's is in Word or a machine editable format". It has been Objectstream's experience that Service Level Agreements are negotiated agreements between clients and service providers to ensure that service expectations are met and with the understanding that service level expectations and credits may differ from client to client.

**2. GENERAL**

This Service Level Agreement (SLA), effective as of [DATE], (Effective Date) is made by and between State of Oklahoma by and through Office of Management and Enterprise Services an Oklahoma State agency, with office located at Oklahoma City location: 5005 North Lincoln Blvd., Suite 300, Oklahoma City, Oklahoma 73105, and Objectstream, Inc., a company organized and existing in Oklahoma, with offices located at 7725 West Reno Avenue, Suite 307, Oklahoma City, Oklahoma 73127 (Service Provider).

WHEREAS, the Parties have entered into a contract resulting from Solicitation No. 0900000263 (Contract) for the provision by Service Provider of the services as defined therein (Services); NOW, THEREFORE, in consideration of the foregoing, and of the terms and conditions and the Service Levels, the parties hereby agree as follows:

SLA is applicable to service described in the aforementioned solicitation provided by the Service Provider. When signed, this SLA will be assumed to have been incorporated in the Contract. In the event of conflict between this SLA and the contract, the terms of the Contract will take precedence.

**SERVICE LEVEL INDICATORS (SLI) AND MEASURES**

ID	Indicator	Definition	Calculation	Threshold
<b>Project Management</b>				
This includes any system supporting production services				
SLI -1	No project to start without authorized Project Charter.	Ensuring every project is authorized with project initiation details for all the projects.	Number of Projects started without authorization /Total number of projects on monthly basis	0
SLI -2	On time	Ensuring every project is delivered on time per the schedule approved	Number of days delivered after the due date.	0
SLI -3	On Budget	Ensuring every project has incurred no more than the approved authorization budget.	Over the budgeted amount incurrent.	0

ID	Indicator	Definition	Calculation	Threshold
<b>Application Development, Business Analyst, and System Analyst/Technical Analyst</b>				
This includes any system supporting production services				
SLI -1	Development with proper testing approach	Ensure all developers follow the proper testing approaches to back the functionality written.	Test Code coverage to meet the functionality written.	80% Test coverage on functionality
SLI -2	Follow the OMES Enterprise IT standards.	Ensure our development team will follow the OMES IT standards and strictly adhered.	Number of standards broken.	0

ID	Indicator	Definition	Calculation	Threshold
<b>Application development Security Policy</b>				
This includes any system supporting production services				
SLI -1	Follow Security policies of OMES	Ensure our resources follow security policies of OMES	Number of security policies broken.	0
SLI -2	Authentication policy	Ensure the application developed follows the correct authentication of users.	Number of test cases failing user authentication	0

### 3. ACCESS & REPORTING

- Service Level performance reporting will be presented to OMES' monthly as part of the Monthly Program Review (MPR) presentation
- Reports and calculation details will be emailed to OMES before the MPR
- Ad-Hoc reporting is available on-request within 24 hours

### 4. CONFIDENTIALITY

- a. Definition of "Confidential Information". By virtue of the Agreement, Customer may be exposed to or be provided with certain confidential and proprietary information of Service Provider. Service Provider shall clearly mark any such information as confidential ("Confidential Information"). Service Provider's placement of a copyright notice on any portion of any Software will not be construed to mean that such portion has been published and will not derogate from any claim that such portion contains proprietary and confidential information of Service Provider. Customer is a state agency and subject to the Oklahoma Open Records Act and Service Provider acknowledges information marked Confidential Information will be disclosed to the extent permitted under Customer's Open Records Act and in accordance with this section. The parties acknowledge Customer Data is Confidential Information. Notwithstanding the foregoing, Confidential Information shall not include information that: (i) is or becomes generally known or available by public disclosure, commercial use or otherwise and is not in contravention of this SLA; (ii) is known and has been reduced to tangible form by the receiving party before the time of disclosure for the first time under this SLA and without other obligations of confidentiality; (iii) is independently developed by the receiving party without the use of any of the disclosing party's Confidential Information; or (iv) is lawfully obtained from a third party (without any confidentiality obligation) who has the right to make such disclosure. In addition, the obligations in

## Service Level Agreement

this Section 14 shall not apply to the extent that the receiving party is required by law or regulation to disclose the Confidential Information of the disclosing party, provided that the receiving party required to disclose such information provides reasonable written notice pursuant to Section 12 to the disclosing party so that the disclosing party may seek a protective order or other appropriate remedy.

- b. Non-Disclosure Obligations. Each party, will protect the other's Confidential Information from unauthorized dissemination and use with the same degree of care that each such party uses to protect its own Confidential Information and, in any event will use no less than a reasonable degree of care in protecting such Confidential Information. Neither party will use the other's Confidential Information for purposes other than those necessary to directly further the purposes of this SLA. Except as otherwise set forth in this Section 14, neither party will disclose to third parties the other's Confidential Information without the prior written consent of the other party.
- c. Remedies for Breach of Confidentiality Obligations. Each party acknowledges that the disclosure of any aspect of any of the Confidential Information of the other may give rise to irreparable injury and may not be adequately be compensated by an award of money damages. Accordingly, either party may seek injunctive relief against the breach or threatened breach of any of the foregoing undertakings by the other, in addition to any other legal remedies which may be available.

Web-Based Internet  
Information and Applications  
VPAT

The following VPAT provides a sample format used to evaluate IT Standards applicable to Web-Based Internet Information and Applications established in Section 4.3 of the official IT Standards. The standards are based on the Federal Section 508 Electronic and Information Technology Accessibility Standards developed by the Access Board as well as the access guidelines, version 1.0, developed by the Web Accessibility Initiative of the World Wide Web Consortium. These provisions ensure access for people with visual, hearing, motor and cognitive disabilities who rely on various assistive products to access computer-based information, such as screen readers. Screen readers translate the computer screen display into automated audible output and refreshable Braille displays. Certain conventions, such as verbal tags or identification of graphics and format devices, such as frames, are necessary so that these devices can "read" them for the user in a sensible way. The standards do not prohibit the use of Web site graphics or animation. Instead, the standards help ensure that such information is also available in an accessible format. Generally, this means use of text labels or descriptors for graphics and certain format

Responses to "Meet Standard and How" and "Not Applicable and Why" should be completed in detail. Simple "yes" or "comply" answers provide insufficient information necessary to conduct an informed assessment.

Product Name/Description: Objectstream Custom Solution WCC Case Management

Date VPAT Completed: December 22, 2016

Supplier Name: Objectstream

Name of Person Completing Form: Biju Kurian

Telephone Number: (405)942-4477

Web-based Internet information and applications - IT Standards Section 4.3 Voluntary Product Accessibility Template
<b>Criteria:</b> (a) A meaningful text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content) except for captioning of audio information which shall comply with (b) of this section.
<b>Supporting Features:</b> Supports
<b>Remarks and explanations:</b> Text Alternative will be provided for every non-text element. For Image/graphics, "alt" descriptor will be used for alternate text. 'Alt' descriptors are easy to implement and audit. Icons and decorative images that do not provide any information value will not need alt descriptors. The "alt" descriptor will still be provided, however value will be kept null. Each url will be tested and audited using open source web accessibility audit tools such as <a href="http://www.cynthiasays.com/">http://www.cynthiasays.com/</a>
<b>Criteria:</b> (b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.
<b>Supporting Features:</b> Not Applicable
<b>Remarks and explanations:</b>

**Criteria:** (c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup. Ensure that foreground and background color combinations provide sufficient contrast when viewed by someone having color deficits or when viewed on a black and white screen.

**Supporting Features:** Supported

**Remarks and explanations:** As part of the User Experience Design, the chosen color scheme will adhere to OK State's desired color scheme that has a contrast combination suitable for viewers with color deficits. Color will have no other purpose outside design.

**Criteria:** (d) Documents shall be organized so they are readable without requiring an associated style sheet.

**Supporting Features:** Supports

**Remarks and explanations:** Will avoid the use of implicit headings and will avoid use of the before, after, pseudo classes for non-decorative content

**Criteria:** (e) Redundant text links shall be provided for each active region of a server-side image map.

**Supporting Features:** Supports

**Remarks and explanations:** For Image map we will add equivalent text links on the page for all hotspots of the server-side image. Our approach will be to use client-side image map as much as possible since it brings lot of benefits over server-side image.

**Criteria:** (f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.

**Supporting Features:** Supports

**Remarks and explanations:** We will run the client-side image map where it can't be defined with an available geometric shape. The image-map runs on the browser and it figures out how to handle the request to a click on the image.

**Criteria:** (g) Row and column headers shall be identified for data tables.

**Supporting Features:** Supports

**Remarks and explanations:** We will have clear row and column headers identified for data tables. Use of <th> tag with the scope attribute to label the row and column header is recommended. This approach allows the screen reader to recognize the headers and content section separately.

**Criteria:** (h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.

**Supporting Features:** Supports

**Remarks and explanations:** Tables especially complex tables where row headers and columns have two or more structural levels. Using a proper table mark up, a screen reader will correctly associate header and row. This is very important for section 508 compliance.

<b>Criteria:</b> (i) Frames shall be titled with text that facilitates frame identification and navigation
<b>Supporting Features:</b> Supports
<b>Remarks and explanations:</b> If we must use frames, a unique title for each frame page is created. Our approach will be to avoid using frames as much but in the event if we must use we will follow with adding unique text to the title. Untitled frames are not navigable by the assistive technologies.
<b>Criteria:</b> (j) Pages and elements shall be designed so that screen flicker does not occur between frequencies 2 Hz and 55 Hz.
<b>Supporting Features:</b> Supports
<b>Remarks and explanations:</b> Will not use animated features. OR .Pages and elements will not use frequencies between 2 Hz and 55 Hz so reduce the chances of inducing seizures. Any animations that is again UI/UX experience will not be introduced. All the style controls will be easily configurable through CSS3 configuration files.
<b>Criteria:</b> (k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of these standards when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes. The non-accessible version must be as accessible as possible.
<b>Supporting Features:</b> Alt support
<b>Remarks and explanations:</b> Text only page will not be needed since text or text alt means will be used for all content of webpage.
<b>Criteria:</b> (l) When pages utilize scripting or other programmatic elements to display content, the information provided by the script shall also be provided in an equivalent text format that can be processed and interpreted by assistive technology. When pages utilize scripting or other programmatic elements to create user interfaces, user interaction shall be input device independent.
<b>Supporting Features:</b> Supports
<b>Remarks and explanations:</b> Alt text used to describe pictures and features of the web site will be able to be read by TTY and other standard technology and our solution will not restrict input from specific input iterfaces.
<b>Criteria:</b> (m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with Oklahoma Software Applications and Operating Systems standards (a) through (l).
<b>Supporting Features:</b> Supports
<b>Remarks and explanations:</b> Our solution will detect the absence of required plug-ins and provide link to authoritative sources for installation of the pplug-in, and we will be limiting the use of plug-ins and applets.

**Criteria:** (n) When electronic forms are designed to be completed on-line, the form shall allow people using assistive technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.

**Supporting Features:** Supports

**Remarks and explanations:** Our solution will be providing tool tips and assistive technology with readable help texts for filling out forms and related field elements including submission requirements. Our solution will provide component hierarchy in text.

**Criteria:** (o) A method shall be provided that permits users to skip repetitive navigation links.

**Supporting Features:** Supports

**Remarks and explanations:** Repetitive navigation can be skipped or jumped

**Criteria:** (p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.

**Supporting Features:** Supports

**Remarks and explanations:** We will have the progress bar or other visual indicators for the users when a time response is required. In the past we have shown the clock indicator as visual indicator for the user to understand how long is left for the user to finish

**Criteria:** (q) Use valid, industry recognized web programming standards including a document type definition or the equivalent.

**Supporting Features:** Supports

**Remarks and explanations:** Standard html 5 guidelines will be followed. For Stylesheet CSS3 will be used.

**Criteria:** (r) Identify the primary natural language of the document.

**Supporting Features:** Supported

**Remarks and explanations:** Language will either be identified or set for all website, documents, and applications.

**Criteria:** (s) A link to the agency's Web site accessibility policy (if existing) and contact information for compliance issues related to the accessibility of electronic and information technology shall be included on home pages and other key pages.

**Supporting Features:** Supported

**Remarks and explanations:** Our web base solutions footer section shall contain link to the agencies website accessibility policy.

Information,  
Documentation and Support  
VPAT

The following VPAT provides a sample format used to evaluate IT Standards applicable to Information, Documentation and Support established in Section 4.7 of the official IT Standards. These standards address access to all information, documentation and support provided to end users (e.g., state employees) for covered technologies. This includes user guides, installation guides for end-user installable devices, customer support and technical support communications. Such information must be available in alternate formats upon request at no additional charge. Alternate formats or methods of communication, can include Braille, cassette recordings, large print, electronic text, Internet postings, TTY access and captioning and audio description for video materials.

Responses to "Meet Standard and How" and "Not Applicable and Why" should be completed in detail. Simple "yes" or "comply" answers provide insufficient information necessary to conduct an informed assessment.

2	PRICE AND COST (RFP G).....	4

## 1 LETTER OF INTRODUCTION

Objectstream proudly submits our proposal for the solicitation 0900000263 in support of the Office of Management and Enterprise Services (OMES) as the sole prime bidder. Objectstream is submitting a fully compliant proposal that addresses all requirements included in the solicitation.

Objectstream is a boutique software development firm specializing in Open Systems solutions. We have provided information technology services to the FAA, the GSA, state governments, and private industry for over 10 years. We are a local SBA-certified 8(a) disadvantaged small business and are committed to “Excellence in Everything We Do,” as demonstrated by our investments to practice and develop processes that meet industry standards. We are International Organization for Standardization (ISO) 9001:2015 accredited and Capability Maturity Model Integration (CMMI©) Level 3 Dev rated for our processes and approach to systems engineering. We also are subject matter experts in AGILE with multiple CSMs (Certified Scrum Master) on staff. We are customer focused, quality minded, and proven on federal, state, and commercial contracts.

After review of the solicitation, Objectstream developed a rate structure using our proven approach based on 10+ years of success on commercial and government projects with high client satisfaction and talent retention exceeding 95% and well above industry standards:

- Government provided information at the time of proposal development
- Our understanding of the solicitation documentation
- Experience delivering Open Systems custom software solutions
- Knowledge of the Oklahoma City market and talent pool
- Assumptions based on experience and best practices

The bill rates offered on this proposal will ensure talent stability throughout the contract and retention of knowledge post-implementation. Objectstream achieves an impressive 95%+ Talent Retention due to our market competitive compensation plan that includes comprehensive benefits. Retaining talent is a key factor to the success of any contract as the impact of uncontrolled attrition will be felt through additional costs and delays by all stakeholders. Objectstream’s approach uses experienced resources that have a proven history of working together delivering solutions always on-time and on-budget and with the highest quality standards.

***We are local and proven where it counts, right here in OKC.***

## 2 PRICE AND COST (RFP G)

Objectstream provides the completed pricing table from Section G of the solicitation.

Category	Hourly NTE Rate
Application Development	\$81
Project Manager	\$89
Business Analyst	\$74
Systems / Technical Analyst	\$78

Objectstream understands and acknowledge all stipulation in section A.6 of the solicitation including that our pricing will remain firm for a minimum of one-twenty (120) days after the Closing Date and Time

As stipulated in section E.3.4 of the solicitation, pricing and all information relating to costs is sent in a separate binder/envelope, on a separate CD, DVD, or thumb drive clearly marked as "Price/Cost."

Objectstream appreciates the opportunity granted by State of Oklahoma/OMES to provide the best and final offer on our bid for solicitation #0900000263. We looked at our rates and re-visited the job market numbers to see if we can afford to provide better rates than what we submitted with our proposal. We found that the job market has been on a slow and steady trend of increased competition and better salaries for the potential candidates. In the context of this trend of warming job market, we find our No-To-Exceed (NTE) rates (as proposed) to be highly competitive.

We have already discounted our rates when compared to our published rates for State of Oklahoma SW1025 Information Technology Staff Augmentation Services. Here is the comparison:

<b>#0900000263 Labor Category</b>	<b>Mapping SW1025 Labor Category</b>	<b>#0900000263 NTE Hourly Rate</b>	<b>Mapping SW1025 NTE Hourly Rate</b>	<b>% Discount</b>
Application Development	Programmer / Developer Analyst 2 - Core	\$81.00	\$85.00	4.7%
Project Manager	Project Manager 2 - Core	\$89.00	\$95.00	6.3%
Business Analyst	Business Analyst 2 - Core	\$74.00	\$80.00	7.5%
System/Technical Analyst	System Analyst 2 - Core	\$78.00	\$85.00	8.2%

Attached is the Best and Final Offer form completed for your records. We hope that State of Oklahoma/OMES will award us this contract and give an opportunity to serve our home state.

Please feel free to reach out to us if you have any question.

**AMENDMENT 1 TO  
STATE OF OKLAHOMA CONTRACT WITH OBJECT STREAM  
RESULTING FROM SOLICITATION NO. 0900000263**

This Amendment 1 ("Amendment") is an Amendment to the Contract awarded to Object Stream, Inc. ("Supplier") in connection with Solicitation No. 0900000263 ("Solicitation") and is effective April 01, 2018.

**Recitals**

Whereas, the State issued a solicitation for proposals from world-class service providers to help execute the State's long term strategy and mission, as more particularly described in the Solicitation;

Whereas, Supplier submitted a proposal to the solicitation;

Whereas, the State and Supplier finalized terms under which Owill perform services under the Contract; and

State and Supplier wish to amend the Contract to include the ability for affiliates to make purchases under the Contract.

**Now, therefore, in consideration of the foregoing and the mutual promises set forth herein, the receipt and sufficiency of which are hereby acknowledged the parties agree as follows:**

1. Section A.1 of the Solicitation is hereby amended to include the following definition:

- 1.1. "Affiliate" means any governmental entity specified as a political subdivision of the State pursuant to the Governmental Tort Claims Act including any associated institution, instrumentality, board, commission, committee department or other entity designated to act on behalf of the political subdivision; a state county or local governmental entity in its state of origin; and entities authorized to utilize contracts awarded by the State via a multistate or multi-governmental contract.

2. Section B.5 of the Solicitation is hereby amended to state:

- 2.1. Authorized Users - During the term of this contract, any Affiliate, as defined herein, may utilize this contract. Under this contract, the State of Oklahoma bears no liability for the Affiliate actions and the privies of contract exist solely between the Supplier and the Affiliate.

The undersigned represent and warrant that they are authorized, as representatives of the Party on whose behalf they are signing, to sign this Amendment and to bind their respective Party thereto.
