EQUIPMENT TRAINING

Here at Stewart Martin Equipment, we offer a training session for each piece of equipment sold to our customers.

Expert advice on Farm and Agricultural equipment, Construction equipment, and attachments will be available to you at the time of purchase. Our Sales team member, Parts or Service team, will do a full hands on training session at each of our store locations. We want to make sure you have all of your questions answered and have the knowledge you need to fully operate your equipment.

If your equipment will be delivered to your home or place of business, our delivery driver, who is also a dealership trained employee, will perform a walk-around and a full hands equipment training session at the time of delivery.

We ask for our customers to set a side extra time for this training, and any questions or concerns, please have them ready during this training session.
