**Purpose-Built, Maneuverable,
 Powerful, Quiet and Simple**

GLOBAL R3AIR

PERFORMANCE

- ▶ The high-performance **Global R3AIR** has unsurpassed pick-up ability across its full 125" sweeping path, even when faced with the heaviest workloads.
- ▶ The performance matched 32" Suction Fan and 72" wide Recirculating Pick Up Hood provide superior sweeping of heavy debris quickly and efficiently.
- ▶ In-cab gutterbroom down pressure controls combined with a self-adjusting Pick-up Hood provide for superior sweeping ability.
- ▶ The large 5.8 cubic yard hopper's ribbed design eliminates rust traps and is mid-mounted for balanced weight distribution and superior loading.

ENGINE

- ▶ The **Global R3AIR** comes standard with a fuel-efficient Final Tier 4 4-cylinder, turbocharged 178-horsepower Isuzu diesel engine, largest in its class, delivering outstanding performance and reliability.
- ▶ Low-maintenance Hydrostatic drive system with two-speed variable displacement wheel motors and engine mounted variable displacement pump reaches road speeds up to 23 mph and handles steep grades up to 21 degrees.

HOPPER

- ▶ 5.8 cu/yd Hopper includes Stainless Steel Floor and front Aperture at no additional cost. **Global R3AIR** Sweeper is designed to last.
- ▶ Optional stainless steel is covered by a Lifetime Warranty, ensuring the lowest Cost of Ownership with a greater re-sale value.
- ▶ The extra large hopper can be discharged into roll-off containers or dump trucks with heights up to 9' 6" (114").
- ▶ Dumping the large 12,000 lb payload is effortless and accomplished from within the cab for increased operator safety and efficiency.

A BALANCED SWEEPING SYSTEM

- ▶ The 72-inch wide Pick-Up Hood features Carbide Dirt Shoes, 12" suction hoses and a large 32" Suction Fan creates a very powerful sweeping system.
- ▶ Double-Sealed Fan Housing Silence Package combined with a very powerful engine equal to a street sweeper that is not only efficient but quiet and powerful.
- ▶ Standard Dust Suppression System includes 2 Electrical Diaphragm 3.5 GPM Water Pumps, 230 Gallon Water Tank, water nozzles at Gutterbrooms, Suction Hood, Impeller and inside Dust Separator and Hopper. **290 Gal. Water Tank Available upon Request**
- ▶ In-cab operated Pick-Up Hood front Curtain Lifter allows for more efficient pick up of leaves and bulkier materials.

▶ PERFORMANCE. SAFETY. RELIABILITY.

The Global M3AIR is a street sweeper designed for all your needs. Its purpose-built design offers reliability, safety, low maintenance, and ease of use, resulting in the lowest operating cost per swept mile.

▶ THE BEST TURNING RADIUS

With the center mounted cab/forward layout the operator has unsurpassed visibility of the road surface as well as pedestrians and surrounding traffic. The 116-inch wheel-base allows for the sweeper to reach a turning radius of 12 1/2 feet, wall-to-wall. With the pickup Head in the center you don't have to worry about what is happening behind you.

▶ EXCEPTIONAL VISIBILITY

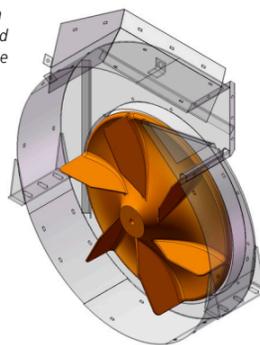

The **Global R3AIR's** exceptional visibility increases operator and pedestrian safety.

The Sweeping system consists of 72" Wide Pick-Up Hood with Carbide Dirt Shoes, and Large 47" Digger-Type Gutterbrooms. Combining both with a Large 32" Suction fan equals to one of the most powerful AIR Street Sweepers available today.

Hydraulically-Driven Fan sealed loop Air is blasted down a 12" vertical tube (Pressure Side) on the left side of the Pick Up Hood. Debris and Air then travels to the right and Up 12" Hose (vacuum side), Enter Dust Separator, which filters fine particles from Air Stream before it reaches the blower again. Water system keeps the debris from returning to the impeller.

Rear view camera with In-Cab 7" LCD Monitor is standard on every Global Street Sweeper.

The **Global R3AIR** offers the best maneuverability in its class with its tight turning radius that allows the operator to maneuver easily in cul-de-sacs and close quarters.

The Ultimate Air Sweeping System: Large 32" Diameter Impeller includes wear resistance coating. The Internal Impeller Housing components includes Rubber Lining. Driven Hydraulically, Impeller will reach speed of 3,200 RPM independent of Engine RPM or Sweeping Speed.

- Designed to prevent sand-blasting
- Designed for durability, easy access, long service life.

▶ THE PERFORMANCE YOU NEED

The performance matched 32" Suction Fan and 72" Wide Pick Up Head provide superior sweeping of all heavy debris quickly and efficiently. The purpose-built chassis is based on four decades of experience designing the most effective, and safe, street sweepers in the industry. Global R3 AIR can sweep gravel, sand, and road millings as well as light debris such as leaves without the need of removing skirts or adjusting the Pick up Head.

▶ CAB/FORWARD DESIGN

Cab/Forward design offers exceptional visibility, comfortable and quiet work environment, incredible turning radius, low center of gravity, and rear-engine design provides greater stability, safety, and lower maintenance costs compared to other chassis type mechanical street sweepers.

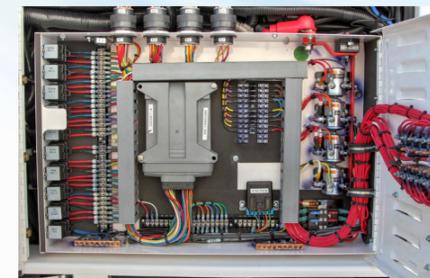

▶ EASY TO MAINTAIN

DUST SUPPRESSION SYSTEM consists of 230 Gallon Water tank & (2) Two Water Pumps rated at 3.5GPM @ 45Psi.

The **Global R3AIR** is designed to make routine maintenance easy, so your sweeper spends more time on the street and less time in the garage. Two swing-out center body panels provide unrestricted access to Fan Housing, maintenance and daily cleaning. A centralized, weather-proof systems locker fully protects electrical components from the elements while fender located Hydraulic system allows for easy maintenance, accessibility and inspection. Troubleshooting is now a breeze.

The **Global R3AIR** features many maintenance-friendly attributes, such as a rear swing-out radiator, easy-access front mounted AC condenser, brake and windshield washer fluid reservoirs, and cab fresh air filter.

OUTSTANDING AGILITY

- ▶ **Global R3AIR** features front wheel steering and handles like a car, moving in, out and around parked vehicles with ease and agility.
- ▶ The **Global R3AIR's** low center of gravity and front - wheel design provides greater stability than rear steer 3 - wheel sweepers that have been prone to roll-over accidents.

EXCEPTIONAL VISIBILITY

- ▶ Increases operator and pedestrian safety. The **Global R3AIR** offers the best operator visibility of any three-wheel street sweeper on the market.
- ▶ Front-and-center cab location provides unobstructed views of the street, curb and gutter brooms at all times.
- ▶ Maximum visibility means increased sweeping efficiency, better operator effectiveness and faster, safer sweeping performance.

COMFORT AND CONVENIENCE TO REDUCE OPERATOR FATIGUE

- ▶ Inside the **Global R3AIR**, the operator is afforded every comfort and convenience to reduce fatigue and increase productivity.
- ▶ An ergonomically designed instrument panel and suspension seat provide superior ride comfort, resulting in reduced operator fatigue.
- ▶ The forward control cab, with over 4,000 square inches of tinted safety glass, provides operator with superior visibility.
- ▶ Fingertip controls activate climate zone features such as heater, defroster and air conditioning. Ergo Switch allows for ONE-Button operation.
- ▶ Parabolic mirrors and side window defrosters make it easy for the operator to monitor the gutterbrooms in any weather.
- ▶ Plush interior is finished with sound absorbing upholstery and door trim keeping the operator comfortable and alert.

Global R3AIR Available Options

- ▶ AM/FM/CD Stereo AUX & USB
- ▶ Air-Ride Seat
- ▶ In/Cab Gutterbroom Tilt
- ▶ Stainless Steel Hopper
- ▶ Hopper and Hopper Screen Wash-Out System
