STATE OF OKLAHOMA STATEWIDE CONTRACT WITH SYSCO OKLAHOMA

This State of Oklahoma Statewide Contract (“Contract”) is entered into between the state of Oklahoma by and through the Office of Management and Enterprise Services and Sysco Oklahoma (“Supplier”) and is effective April 5, 2020 or as of the date of last signature to this Contract.

Purpose

The State is awarding this Contract to Supplier for the provision of a term contract for the purchase of frozen, perishable, staple food items, and related goods and services to the many agencies and entities of the State, more particularly described in certain Contract Documents. Supplier submitted a proposal which contained exceptions to the Solicitation. This Contract memorializes the agreement of the parties with respect to negotiated terms of the Contract that is being awarded to Supplier.

Now, therefore, in consideration of the foregoing and the mutual promises set forth herein, the receipt and sufficiency of which are hereby acknowledged the parties agree as follows:

1. The parties agree that Supplier has not yet begun performance of work under this Contract. Upon full execution of this Contract, Supplier may begin work. Issuance of a purchase order is required prior to payment to a Supplier.
2. The following Contract Documents are attached hereto and incorporated herein:
 - 2.1. Solicitation, Attachment A;
 - 2.2. Pricing, Attachment E
 - 2.3. Negotiated Exceptions to Contract, Attachment F;

For Clarity, Attachment B – D are intentionally omitted.

3. The parties additionally agree:
 - 3.1. Revisions to terms and documents initially proposed in the Bid are contained in Exhibit E-2 titled Additional Contract Award Documents.

Attachments referenced in this section are attached hereto and incorporated herein.

4. Any reference to a Contract Document refers to such Contract Document as it may have been amended. If and to the extent any provision is in multiple documents and addresses the same or substantially the same subject matter but does not create an actual conflict, the more recent provision is deemed to supersede earlier versions.

ATTACHMENT F
NEGOTIATED EXCEPTIONS TO CONTRACT
STATE OF OKLAHOMA CONTRACT WITH SYSCO
RESULTING FROM SOLICITATION NO. 0900000394

This Contract Award Document ("Contract Award") is the document awarding the Contract to Sysco Oklahoma, a division of Sysco USA II LLC ("Sysco") by State of Oklahoma ("State") in connection with Solicitation 0900000394 ("Solicitation") subject to the following terms set out below and is effective upon the date of the last signature below.

Recitals

Whereas, the State issued a Solicitation for proposals to provide frozen, perishable staple food items, and related goods and services, as more particularly described in the Solicitation;

Whereas, Sysco submitted a proposals which contained exceptions to the Solicitation terms; and

Whereas, the State and Sysco have negotiated the final terms under which Sysco will provide the products and related services under the Contract.

Now, therefore, in consideration of the foregoing and the mutual promises set forth herein, the receipt and sufficiency of which are hereby acknowledged the parties agree as follows:

1. Contract Award Purpose.

This Contract Award memorializes the agreement of the parties with respect to negotiated terms of the contract that is being awarded to Sysco as of even date with execution of this Contract Award. The parties agree that Sysco has not yet begun performance of work contemplated by the Solicitation. The parties agree that any and all exceptions to the Solicitation in Sysco's response that are not memorialized in this Contract Award are not accepted by State and will not become part of the Contract. All exceptions to the Solicitation included in Sysco's response are superseded and replaced in entirety by this Contract Award.

2. Negotiated Terms of the Contract.

2.1 The parties agree that Section A.20., titled Audit and Records Clause is here by replaced with the following provision:

2.1.1 As used in this clause, "records" includes books, documents, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form. In accepting any Contract with the State, the successful bidder(s) agree any pertinent State or Federal agency will have the right to examine and audit all records relevant to execution and performance of the resultant Contract.

2.1.2 The successful bidder(s) awarded the Contract(s) is required to retain records relative to the Contract for the duration of the Contract and for a period of seven (7) years following completion and/or termination of the Contract. If litigation, or other action involving such records is started before the end of the seven (7) year period,

the records are required to be maintained for two (2) years from the date that all issues arising out of the action are resolved, or until the end of the seven (7) year retention period, whichever is later.

2.2 The parties agree that Section A.29., titled Compliance with Applicable Laws is hereby replaced with the following provision: Sysco Oklahoma shall comply with all applicable Federal, state, and local laws, and shall maintain all applicable licenses and permit requirements.

2.3 The parties agree that Section B.18., titled Warranty is hereby replaced with the following provision:

2.3.1. General Warranties: Sysco warrants that each article contained in each shipment or other delivery hereafter made by contractor to any purchasing entity other than Customer Directed Product (defined below), is guaranteed by Contractor, as of the date of such shipment or delivery: (i) to meet the specifications for such product contained within the order guide and other written specifications for such product provided by Suppliers, (ii) subject to the statutory trust authorized by the Perishable Agricultural Commodities Act, to be free and clear of any adverse lien or security interest, and (iii) to the extent the product is subject to the Federal Food, Drug and Cosmetic Act, as amended from time to time (the "FDC Act") to not be adulterated or misbranded within the meaning of the FDC Act,

2.3.2. Warranties – Customer Directed Product. In connection with all Contracted Products, Proprietary Products or Special Order Products (as such terms are defined below) which are not SYSCO Brand Products ("Customer Directed Products"), OMES acknowledges that Contractor does not manufacture or product any products other than certain further processed products sourced from specialty companies. With regard to Customer Directed Products, Purchasing entities agrees that it has selected the Customer Directed Products based upon its own knowledge and judgement. Other than warranty of title, CONTRACTOR MAKE NO WARRANTIES, EXPRESS OR IMPLIED, and INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE WITH REGARD TO CUSTOMER DIRECTED PRODUCTS.

2.4 The parties agree that Section B.20 titled Contract Management Fee shall include the following:

Along with this CMS is offering an additional \$15,000 management fee payable at the beginning of each new contract period.

2.5 The parties agree that Section B.23., titled Patents and Royalties is hereby replaced with the following provision: Sysco will indemnify and hold any purchasing entity harmless from and against any claims brought by a third party to the extent arising out of or in connection with any allegation that Sysco trademarks or trade dress contained on any Sysco Brand products purchased by a purchasing entity under the Contract infringe or violate such third party's trademark or trade dress. Sysco will indemnify and hold any purchasing entity from liability of any nature or kind, including costs and expenses for or on account of any copyrighted, patented or unpatented invention, process, or article manufactured used in the process of developing Sysco Brand Products. If Sysco uses any designed, device or materials covered by letter, patent, or copyright, it is mutually agreed and understood without exception that the prices for Sysco Brand Products shall include royalties or costs arising from the use of such design, device, or materials in any way involved in the work.

2.6 The parties agree to add the following to Section C.3., titled General Information:

The State of Oklahoma will earn CSM rebates which:

- (1) Will be paid directly from CSM to each of the facilities unless otherwise directed by The State of Oklahoma. Sysco will report all The State of Oklahoma's purchases to CSM for their reconciliation and payment. Rebates typically average between 1-3% of gross purchases through Sysco. CSM and Sysco understand that The State of Oklahoma has and will negotiate more favorable pricing with some suppliers. Please be aware that in some cases the manufacturer(s) will discontinue rebates when a better program is negotiated directly with them.

As a part of our service to The State of Oklahoma, CSM and Sysco will conduct regular reviews of purchases at all facility locations to maximize participation in the CSM program and bring the most value to The State of Oklahoma for dollars spent with Sysco.

- (2) CSM will provide reporting regularly to The State of Oklahoma and build any necessary custom reports as needed.
- (3) Upon agreement and approval between the State of Oklahoma, Sysco and CSM with this RFP process, CSM can work to align The State of Oklahoma with our organization and platform. (4)The agreement remains in place until you decided to end our agreement by sending a Letter of Termination providing 30 days' notice or the end of the contract resulting from Solicitation 0900000394.

2.7 The parties agree to add the following provisions to Section C.4 Definition of Cost:

Definition of Cost. For all products sold by the Contractor to the OMES on the bases of Cost plus a fee to the Contractor, the following definition of Cost shall apply. "Cost" is defined as the cost of the product as shown on the invoice to Contractor or an affiliated entity of Contractor ("Affiliate") that is controlled directly or indirectly by Sysco Corporation ("Parent") delivering the product (in either case, the "Operating Company"), plus, if the price on such invoice is not a delivered price, Applicable Freight (defined below). The invoice used to determine Cost of a product will be an invoice issued to Contractor from the seller of such product which may include suppliers, brokers, growers, packers, manufacturers, redistributors, consolidators, Affiliates, including Sysco Merchandising and Supply Chain Services, Inc. ("SMS"), or any other source of Products (collectively, "Supplier"). Suppliers including SMS and other Affiliates) set invoice prices of Products sold to the Contractor and may include an amount that reflects Earned Income for Merchandising Services (as such terms are defined below). In addition, for certain commodity products like produce, SMS and other Affiliates may use replacement cost or current market average cost as its cost to the Contractor. Cost will not be reduced by Earned Income or cash discounts.

Applicable Freight. means a per-case freight charge based on market conditions for moving products from the source to the Contractor. Applicable Freight charges may include: (i) common or contract carrier charges billed by any Supplier or a third party; (ii) common or contract carrier charges billed by a freight management service operated by Parent or Affiliates ("FMS") for third party carriage arranged by FMS; (iii) charges billed by FMS for shipments back hauled on trucks owned or leased by Parent or Affiliates; or (iv) charges such as fuel surcharges, cross-dock charges, unloading and restacking charges, container charges, air freight charges and other similar charges not included in Supplier's invoice cost that are required to bring product into the Contractor's warehouse. OMES acknowledges that Parent may manage freight (through FMS or

otherwise) and may charge Applicable Freight, which may include an amount in excess of the costs incurred in arranging the transportation that reflects compensation for managing freight; provided that Applicable Freight for any product will not exceed (i) the Supplier's normal freight charge to the Contractor to ship normal quantity requirements of such product (including a freight charge that is part of a delivered price) or (ii) if the Supplier does not provide freight service, the rate normally payable by the Contractor for inbound shipments of a similar quantity of product.

Merchandising Services. Parent and Affiliates, including SMS and Operating Companies, perform value-added services for Suppliers of SYSCO® Brand and other Products ("Merchandising Services"). These services include, but are not limited to, (i) supply chain services such as consolidation of Operating Company purchases from Suppliers, management of Supplier ordering processes, consolidation of payments by Operating Companies to Suppliers, processing claims by Operating Companies for Product loss and shortages, advanced inventory management, freight consolidation and management and other services associated with management of the total supply chain, (ii) quality assurance and (iii) regional and national marketing and performance-based product marketing. Parent and Affiliates, including SMS, may recover the costs of providing Merchandising Services, may be compensated for these services and may retain any savings they may receive throughout the supply chain by utilizing their expertise, resources and capital, a portion of which is used to offset expenses already incurred. Parent considers such cost recovery, compensation and retained savings for Merchandising Services to be earned income ("Earned Income"). Earned Income takes many forms including promotional allowances, volume discounts, growth programs, marketing programs and any other payments from Suppliers and may be provided through rebates or other payments from the Supplier or through net pricing from Suppliers that reflects such Earned Income. Parent may retain Earned Income, receipt of which does not reduce the Cost or sell price of any product. Earned Income does not include manufacturer promotional allowances for the period of the promotion that are intended to be passed along to customer (State Agencies) and are shown on the face of the invoices used to determine Cost.

Controlled Price Products. There are a limited number of Products ("Controlled Price Products") that are governed by agreements with Suppliers binding upon the Contractor which establish the ultimate price at which the Contractor must sell the Product to the customer (State Agencies) ("Controlled Price Agreements"). Controlled Price Agreements are limited to bag-in-box products from Coca Cola North America and Pepsi Cola Company, products from Ecolab, Inc. and other products expressly agreed to in writing by the Contractor and customer (State Agencies). The sell price for Controlled Price Products shall be the amount prescribed (or calculated in accordance with) the applicable Controlled Price Agreement.

Supplier Agreements; Customer Contract Pricing. Customer (State Agencies) may provide Contractor with written evidence of the existence of all agreements it has with any Supplier for the purchase of Products to be distributed under this Agreement ("Supplier Agreements"), utilizing the supplier detail form provided by the Contractor (the "Supplier Detail Form"). Supplier Agreements include agreements for which the Supplier and Customer (State Agencies) have agreed on (i) allowances for the Customer (State Agencies) ("Supplier Allowances") or (ii) the guaranteed cost Supplier will charge a distributor for Product to be resold to the Customer (State Agencies) ("Supplier Guaranteed Distributor Cost"), which cost may be either delivered at Supplier plant or to Contractor. Products subject to Supplier Agreements are referred to herein as "Contracted Products". In determining the sell price of any Product covered by a Supplier Agreement, Contractor will replace Cost with Supplier Guaranteed Distributor Cost, plus, if Supplier Guaranteed Distributor Cost is not a delivered price, Applicable Freight.

Definition of Proprietary Products. "Proprietary Products" are (i) Products bearing OMES' name or logo, (ii) Products with a unique formulation that are restricted for sale to OMES, or (iii) supplier branded products that would otherwise not be inventoried, or quantities of such supplier branded Products that exceed the amounts that Contractor would inventory, except for specific OMES requirements. Products under the SYSCO® Brand will be considered Proprietary Products when OMES requires that such Product must be procured from a specific supplier. Contracted Products may also be considered to be Proprietary Products if they are within the scope of Products described in clauses (i), (ii), or (iii) of this paragraph. Fresh produce may not be designated a Proprietary Product due to its highly perishable nature.

Definition of Special Order Products. "Special Order Products" are Products not inventoried by Contractor that O.MES requests and Contractor purchases for immediate or near-immediate distribution.

Force majeure. The duties or obligations of the parties to this agreement shall be excused during an even or events of force majeure. The term "force majeure" shall mean periods in which either party is unable or all parties are unable to perform under the terms of this agreement due to events beyond their reasonable control, including, but not limited to floods, rising waters, earthquakes, hurricanes, tornados and other inclemency's of weather or nature: acts of God;; failure of machinery, parts, including, but not limited to, scheduled or routine maintenance, supplies, or a shutdown of any utilities servicing any of the parties due to circumstances beyond the control of any of the parties: failure of transportation; labor unrest (further provided that no party shall be obliged to settle any such labor dispute merely because of or on account of this agreement, settlement of any such dispute being within the sole prerogative of the respective party}; war, terrorist attack, riot, insurrection, or civil unrest. In the case of an emergency, severe weather, strike, or an act of God, SYSCO Food Services of Oklahoma, LLC will assist the customer locations in procuring items in an effort to maintain normal delivery schedules. Prolonged failure to maintain normal deliveries during these periods may result in cancellation of the agreement. (negotiations if required}

- 2.8 The parties agree to add the following provision to C.4.3. titled Distribution Fee. Sysco will be offering the cost plus dollar amount markup formula for all grocery items. For the small wares program it will be a cost plus margin add freight for orders until \$250.00.

For small wares Sysco will be utilizing their sister company Supplies on the Fly which will include a custom site for the State of Oklahoma.

- 2.9 The parties agree to add the following provision to C.4.4 titled Cost Verification and C.4.6 Audits by OMES. OMES will be allowed four (4) annual price verifications at Contractor's location for purchases made under this Agreement. The price verification will consist of reviewing computer reports generated by Contractor documenting Contractor's calculation of OMES's invoice price and the Contractor's delivered Cost. If requested, applicable Supplier invoices and accompanying freight invoices will also be made available. Supplier invoices consist of invoices from third party suppliers or from Affiliates, SMS or a specialty company, as applicable. Price verification adjustments, if applicable, will be made utilizing the net of undercharges and overcharges to the OMES. The price verification process is subject to the following:

- 2.9.1 OMES must request a price verification in writing at least thirty (30) business days prior to the suggested date of the price verification and must

identify not more than fifty (50) items to be price verified and the period covered;

- 2.9.2 The date and time of price verification must be to the mutual agreement of the OMES and the Contractor;
- 2.9.3 The price verification will be made at the Contractor's location;
- 2.9.4 Support for the price verification may not be removed from the Contractor location where the price verification is conducted;
- 2.9.5 The period for which pricing is to be verified will not begin more than three (3) months prior to the date of the price verification, and will cover only one pricing period; and
- 2.9.6 Any price verification that results in a needed price correction will be correct to the beginning date of the error.

Due to the extensive time and complexity associated with price verification, Contractor will not accept computer generated price matching or electronic audits by or on behalf of OMES or any third party provider and any price verification adjustments will only be made following the above price verification procedures. Notwithstanding the foregoing, if OMES becomes aware of pricing discrepancies for contracted products, Contractor will investigate the purported discrepancy and make appropriate pricing adjustments, as warranted, but such procedure will not involve additional on-site visits and/or access to supplier invoices.

- 2.10. The parties agree that Section B.2, titled Contract Period, is hereby replaced with following provision: Contract Period. The contract period is for a one year period, commencing April 7, 2020 through April 6, 2021. The contract may be renewed for up to five (5) one year option periods.

Customer

Credits & Returns

Sysco's approach to credits & returns remains simple and aimed at absolute customer satisfaction and ensuring a food safe supply chain. In order to maintain the highest levels of consumer food safety, we ask for your partnership in complying with this Customer Credit and Returns Policy. By working together, we can maintain the food safety and integrity of our supply chain.

Sysco Delivery Associates will return and credit any product that you do not accept at the time of delivery. Checking-in your order also provides you with an opportunity to request credit immediately if a product is invoiced but not included with your delivery. After delivery, credits and returns are limited within the parameters established within this policy.

How this policy helps our customer

Benefits of our Product Return & Credit Policy:

- Ensures product wholesomeness & quality
- Reduces product loss that ultimately impacts both Sysco and our Customer
- Speeds the processing of returns and refunds
- Assures product handling is compliant with Sysco's Food Safety Programs, USDA, FDA, OSHA and HAZMAT requirements
- Reduces the risk that a tampered, damaged or unwholesome product could be redistributed to another customer

At Time of Delivery

- Most credits and returns should happen when you are receiving your delivery.
- Your Sysco Delivery Associate will gladly help you verify the items delivered agree with your invoice.
- You may choose to return any item for credit at the time of delivery unless the item is a Special Order, Auto-Ship or Standing Order. Your Delivery Associate will make an adjustment on your invoice to keep for your records.
 - ✓ **Temperature Controlled for Safety (Refrigerated and Frozen) are only eligible for return at time of delivery.** (see attached table for listing of Time and Temperature Control for Safety)
- If a product is partially damaged, your Delivery Associate will make an immediate adjustment on your invoice.
- Once you've approved your order (less any items you return) just sign the invoice, indicating you're satisfied with the delivery.

Returning Product after Delivery & Product Integrity Requirements

Refunds or credits for these items will be determined by the Operating Company.

All other returns are accepted for a limited amount of time as long as they meet the important requirements below:

- ✓ Refrigerated foods not classified as Time and Temperature Control for Safety: within 48 hours from delivery.
- ✓ Frozen, dry and foodservice supplies: Within 14 days from delivery.

Temperature:

- ✓ All refrigerated and frozen products shall be required to be stored at proper temperature to maintain food safety, product integrity and wholesomeness.
 - Frozen items: -18°C to -9°C (0 to 15°F)
 - Refrigerated items: 0°C to 4°C (32 to 40°F)

Packaging:

Products are returnable for full credit only when they are in the original package, free of markings or damage, must be stored within the required temperature range at all times, and within the specified return timeframe.

Should a return be requested after a delivery has been made...

Additional Food Safety Guidelines

Time and Temperature Control for Safety (TCS):

Product	Refrigerated	Frozen
Deli Meats and Deli Poultry (RTE)	X	
Deli Salads (RTE)	X

Note: Ready To Eat (RTE) = Ready to Serve (RTS)

These products may be eligible for credit after confirming with the Sysco Operating Company, but are not allowed back into inventory if picked up after delivery

Chemicals

- Please treat chemical returns with extra attention. Federal HZMAT and OSHA regulations prohibit the transport of open-container chemicals, or chemical products not in the original packaging. Open/damaged chemical products or not in original packaging are non-returnable.
- A Sysco representative must inspect all chemical returns for damage and/or leakage before a pick up and return order can be processed.

Will Call

- Product picked up at Will Call can only be refused/returned at time of pick up. These items are not returnable once they have been signed for and are out of Sysco's control.

Special Order (Non-Stock) Items

- Special order items are products that we do not stock that were ordered especially for you. Because they can't be resold, they are not returnable except when damaged or of inferior quality at the time of delivery.

Drop Shipments

- Drop shipments are sent directly to you from our suppliers. Contact your Sysco representative about any unacceptable items within 48 hours of delivery.

Standing Order

- Is a pre-arranged process and agreement to always ship a defined product and quantity on every order, repetitive.

Auto-Ship

- Is a pre-arranged process and one-time agreement (customer) to ship a defined product and quantity on a defined ship date.

Restocking

- Any exceptions to these return guidelines may result in denial of credit or may be subject to a 20% restocking fee

CONTINUING PRODUCT GUARANTY AND INDEMNITY

August 19, 2019

Each of the articles comprising each shipment or other delivery of any product or products distributed by the undersigned to you or on your order is hereby guaranteed, as of the date of such shipment or delivery, to be on such date not adulterated or misbranded within and not an article which may not, under the provisions of Section 404 or Section 505 of the Federal Food, Drug and Cosmetic Act (the "Act"), be introduced into interstate commerce. In addition, on such date each of such products complies with the Federal Fair Packaging and Labeling Act, and, for meat and poultry product only, is hereby guaranteed to be on such date not adulterated or misbranded within the meaning of the Federal Meat Inspection Act and the Poultry Products Inspection Acts. This guaranty includes and is limited to those products which fall within the definitions contained in these Acts.

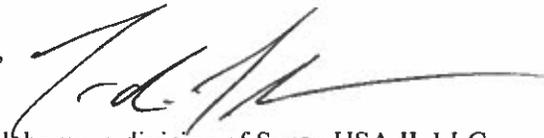

The undersigned agrees to defend, indemnify and hold you harmless from all actions, suits, claims and proceedings ("*Claims*"), and any judgments, damages fines, costs and expenses (including reasonable attorneys' fees) resulting therefrom brought or commenced by any person or entity against anyone for the recovery of damages for the injury, illness and/or death of any person or damage to property arising out of or alleged to have arisen out of the negligent acts or omissions of the undersigned; provided, however, that our indemnification obligations hereunder shall not apply to the extent that Claims are caused by your negligence or willful misconduct.

By the acceptance of this guaranty, you agree (i) to promptly notify us in writing of any Claim or any demand, complaint or proceeding within your knowledge for claimed violation of said Act as so amended including the name and address of the complainant and the name of the article involved, and (ii) to promptly furnish us with samples of the product as well as photographs of the shipping container of such product and/or package samples from such shipment.

The undersigned maintains Hazard Analysis Critical Control Points (HACCP) plans in our distribution facilities in accordance with all applicable governmental requirements as well as Standard Operating Procedures (SOPS) and Standard Sanitation Operating Procedures (SSOP). The undersigned is in compliance with the Public Health Security and Bioterrorism Preparedness Act of 2002.

The continuing guaranty and indemnity set forth in this letter will remain in force and effect until termination by at least ten (10) days' notice given you in writing by the undersigned.

Sincerely,

Sysco Oklahoma, a division of Sysco USA II, LLC

2019 Disaster Planning Policy

SYSCO Oklahoma has determined that we must have a disaster policy in order to properly service our valued customers. We have designed a two phase program that we feel will effectively fulfill your requests. Phase one begins at the customer level. At this time we asking our customers to review and satisfy the suggestions and guidelines listed below. Also, to complete and return the following enclosed forms: Account Disaster profile and Supplemental Order Form.

Phase I – Customer

1. Review current disaster stock to ensure adequate levels. If necessary, replenish stock levels to meet census needs.
2. Make arrangements for water supplies. SYSCO does not have the stock available to meet water requirements.
3. Establish and submit to SYSCO a standing disaster order to include only additional stock needed for staff and items to compliment the menu. For example, snack foods, nutritional supplements, cleaning supplies, fruit juices and paper supplies. Complete and submit your order on the Supplemental Order Form included in this packet. This is the supply order SYSCO Food Services of Oklahoma will deliver in the event of a natural disaster.
4. Make sure your emergency order is reasonable. **We cannot take product back.**

Phase one of this program becomes complete, when the Account Disaster Profile Form and Supplemental Order Form are received. It is imperative to fax all forms to our facility. You should receive a receipt of acknowledgement.

Phase II – SYSCO Oklahoma.

1. The disaster program begins when the account notifies SYSCO of a natural disaster.
2. Orders will be shipped at the time that a natural disaster is declared.
3. Customers with primary vendor relationships will receive priority service.
4. Customers will be called in advance to review their standing order for supplemental items as stated above in Point #3.
5. Customers must be available to receive orders on a 24-hour basis. This will be determined by the expected landfall.

Please be advised that in the aftermath of a natural disaster, SYSCO Oklahoma will be communicating with you to inform you of any changes that may alter routine scheduled deliveries.

Your cooperation in the most important preparedness process is greatly appreciated. We look forward to assisting you but hopefully this will be an exercise of good faith.

Disaster Recommendations

- Develop a disaster plan that is clear and easy to read.
- Keep the Disaster Plan in a designated place where employees can locate it.
- Keep a list of phone numbers, emergency phone numbers, and addresses for your employees, and other essential people in the community. Keep this list with the disaster plan, as well as other locations in the facility and at home.
- Map out where your employees live so that you have an idea of when or if they will be able to arrive.
- Contact resources that will be able to assist you during an emergency, (e.g. primary vendor, grocery stores and drug stores nearby, restaurants, and any other facilities that may provide assistance). Keep a list of contact names and telephone numbers for those resources.
- When prioritizing work, think of patients or residents first. Hydration is most important. Consider how much bottled water and distilled water will be needed and keep a supply on hand.
- Meal Preparation needs to be simple.
Keep the following items on hand:
 - Convenience items (canned chili, soups, fruits, vegetables, meats and bread, etc)
 - Ready to use items (juice, pudding, gravy, etc)
 - Individually wrapped items (portion pac condiments, granola bars, cookies, etc.)
 - Nutritional products (high calorie, high protein, snacks, and shakes)
 - Food items for pureed diets (canned puree meats, fruits, and vegetables, shelf stable thickened liquids, food thickener, and nutritional supplements)Remember to:
 - First – Use all of the edible foods in your refrigerator
 - Second – Use as many freezer foods as possible, before spoilage sets in.
 - Third- Start on your supply of non-perishable foods.
- Remember you may not have power.
 - Make sure you have manual can openers.
 - Make a plan for transporting meals to floors without the use of elevators.
 - Have flashlights and batteries available throughout the facility.
 - An outside grill with charcoal and lighter fluid may be necessary.
 - Have at least two or three chaffers available and a supply of Sterno.
- Keep a supply of paper and disposables:
 - Foam laminated plates, bowls, and cups.
 - Plastic forks, spoons, and knives.
 - Napkins, moist towelettes, etc.
- Keep on hand a supply of janitorial products such as, trash liners, bleach, disinfectant and hand sanitizers.
- Bolt chemical storage shelves to the wall
- Do not store ammonia and bleach in the same area. Do not store chemicals near or around food items.
- Remember, you will be managing people's feelings. Be sensitive, understanding, and try to remain calm.

Recommended Replacement Periods for Stored Foods Suitable For Emergency Use

FOOD	MONTHS
Milk:	
Evaporated -----	6
Nonfat dry or whole make, in metal container-----	6
Canned Meat, Poultry, Fish:	
Meat, Poultry-----	18
Fish-----	12
Mixtures of meat, vegetables, cereal products-----	18
Nuts:	
Canned-----	12
Fruits and Vegetables:	
Berries and sour cherries, canned-----	12
Citrus fruit juices, canned-----	12
Other fruits and juices, canned-----	18
Dried fruit, in metal container-----	12
Tomatoes, sauerkraut, canned-----	12
Potatoes, instant-----	18
Other vegetables, canned (including dry beans and dry peas)-----	18
Cereals and Baked Goods:	
Ready to eat cereals in metal container-----	12
Ready to eat cereals kept covered and dry in original package-----	4
Uncooked cereal (quick-cooking or instant) in metal container-----	24
Uncooked cereal in original paper package-----	12
Pancake mix in airtight container-----	6
Shortening and Oils:	
Hydrogenated solid shortening-----	12
Vegetables oils-----	3
Sugars and Sweets:	
Sugar, granulated-----	24
Sugar, brown or powered-----	4
Hard candy, gum-----	18
Honey, jams, syrups kept tightly covered-----	12
Pudding mixes, kept in original packets-----	12
Miscellaneous:	
Coffee, tea, cocoa (instant)-----	18
Dry cream product (instant)-----	12
Bouillon products, kept covered and dry-----	12
Flavored beverage powders-----	24
Flour, all types, put into airtight containers-----	12
Pasta kept tightly closed-----	24
Rice, white kept tightly closed-----	24
Rice mixes-----	6
Instant breakfast, liquid and bars in original packaging or cans-----	6
Peanut butter, unopened-----	9
Salt-----	24
Soda, baking powder-----	12

SUGGESTIONS FOR PREPARING MENU ITEMS

1. Blended Juice: Reserve liquid from juice packed fruits and combine with canned juices.
2. Soups: Reserve liquid from canned vegetables (peas, corn, beans) to reconstitute canned soups.
3. Apple Raisin Salad: Use sliced apples and raisins for basic recipe. Optional ingredients: chopped nuts, crushed pineapple, fruit juice, mayonnaise, cinnamon.
4. Four Bean Salad: Use canned three bean salad and add garbanzo, lima, or light kidney beans.
5. Citrus Cup: Assorted citrus fruits such as mandarin oranges, grapefruit sections. May add pineapple.

Please be advised that our facility has enough inventory on hand that in the event of a natural disaster, we are only in need of supplemental items which are included on the enclosed form from SYSCO Oklahoma.

However, in the aftermath of a natural disaster, we understand that SYSCO Oklahoma will resume routine, scheduled distribution to the best of its ability,

I understand and agree to the above statement.

PURPOSE

In the event of a supplier initiated recall or withdrawal, these guidelines are intended to facilitate prompt (i) management of in-house inventory, (ii) communication to customers and (iii) retrieval of product from the field. A recall (a term used in this document to indicate both recalls and withdrawals unless the context clearly demonstrates otherwise) can be disruptive to Sysco [Operating Company's] operations and business. This plan should minimize disruption and describe the procedures to follow in the event of a recall. If a recalling firm fails to act in a manner appropriate to the situation, Sysco [Operating Company] may determine that product be held from further distribution. This plan envisions close cooperation with Sysco Corporation's Quality Assurance Department in connection with any recall.

RECALL COMMUNICATION

The Sysco Quality Assurance Department is responsible for all Sysco intra-company communications regarding a recall and its progress. All media communications must be cleared through the Vice President-Corporate Communications. All inquiries from regulatory agencies must be directed to the CFO/Recall Coordinator of Sysco [Operating Company].

RESPONSIBILITIES

CFO/Recall Coordinator

The CFO at each location maintains the ultimate responsibility for each recall action involving the operating company. Therefore the CFO is included in the distribution list for recall communications. In the event that recall information is communicated via telephone the CFO is the individual that Sysco Quality Assurance will initially make contact with. It is common practice for Operating Companies to assign an individual, other than the CFO, as the recall coordinator.

The CFO and / or recall coordinator will have the following responsibilities related to recalls:

- Ensure that the direction provided in the recall notice is acted upon in a timely manner.
- Utilize the forms provided to ensure that all recall actions are properly documented.
- Carefully identify and document all costs associated with the recall.
- Refer calls from the media or the general public to the Vice President-Corporate Communications.
- Update Sysco Quality Assurance upon any change to the recall coordinator's contact information.
- In the event that the operating company has been contacted by the recalling firm in advance of receiving notice from Sysco Corporate, notify Sysco Corporate Quality Assurance of the recall action.

Instant Recall Contact

- Run the Recall Report (Information Central #1859 for US Broadline Operating Companies. See Appendix I for detailed information.)
- Provide the Recall Report to CFO/Recall Coordinator
- Respond to Instant Recall e-mail indicating affected status. (ALL OPERATING COMPANIES)
- Load Information Central Recall Report #1859 to Instant Recall website. (ALL AFFECTED OPERATING COMPANIES MUST UPLOAD)

Inventory Control (Operations/Distribution Services designee]

- Review all suspect product(s) in-house.
- Place affected product on hold.
- Report findings, including case quantities on hold, to the CFO/Recall Coordinator.

Customer Service [or specific designee for customer contact]

- For Operating Companies not on Instant Recall: Contact all affected customers.
For Operating Companies on Instant Recall: Contact customers that were not reached using Instant Recall.
- Arrange for product pick-up and credits.

Sales / Marketing Associates

- Responsible for ensuring customer contact information is valid and current in Sysco's computer systems.
- Facilitate communication of recall to customers and answer questions customer may have regarding specific recalls.

Merchandising

- Assist with confirmation of recall information with the recalling firm.
- Secure replacement product.

RECEIPT OF RECALL NOTIFICATION

Sysco [Operating Company] is alerted to potential recalls. Sources of alert may be the supplier, Sysco Merchandising and Supply Chain Services (SMS), Customers, USDA or FDA Press Release or other news source. Under no circumstances should Sysco [Operating Company] initiate recall activities solely based on a phone call or a verbal request from a brokerage firm, street customer, or multi-unit account customer.

Recall communications are directed to various individuals at Sysco [Operating Company] and may be delivered in person, via fax, mail or e-mail. An Official Recall Notification either will consist of a notice from a Regulatory Agency or be on recalling firm's company letterhead from a senior management level employee.

The Operating Company can act on an Official Recall Notification before they have received communication from Sysco Quality Assurance.

If an **Operating Company is aware of a recall action and has not received an Official Sysco Recall Notification they must notify Sysco Quality Assurance.** Sysco Quality Assurance will work with the recalling firm to obtain appropriate written recall notification and confirm the extent of the impact on Sysco Operating Companies.

INTERNAL RECALL COMMUNICATION

E-mail from Sysco QA to Operating Companies

Sysco Quality Assurance will send a broadcast e-mail from "Sysco Regulatory Communications" to "000-Quality Ctrl Prdct Recall-DL" when a recall involves three or more Operating Companies. See Appendix II for details of the "000-Quality Ctrl Prdct Recall-DL" recall distribution list. The recall communication to the Operating Companies follows a general outline that is used to effectively communicate all pertinent information for proper resolution and will reiterate the recalling firm's instructions.

1. Confirmation on whether or not the product is reportable under the FDA's Reportable Food Registry Act
2. Class of recall or withdrawal (if available)
3. Reason for recall or withdrawal
4. Product(s) involved including: brand, product name, UPC number or GTIN, SUPC, pack size, lot or date code, and code date interpretation
5. Sysco Operating Companies involved
6. Purchase order number(s) affected & date shipped
7. Number of affected cases by item shipped to company
8. Specific instructions: (product hold, process for product disposition, completion and return of forms, whether customers need to be contacted (Y/N), etc.)
9. Contact information for manufacturer recall coordinator (name, e-mail address, and telephone numbers, including a cell phone number)
10. If the recalling has notified a regulatory agency

E-mail from Supply Chain Inventory Management (SCIM) to Operating Companies:

If affected product is shipped through an RDC, the SCIM group is responsible for sending an e-mail announcement identifying the operating companies affected by the RDC shipments.

If the event does not involve a food safety issue the e-mail can be sent during normal business hours. If the event involves a food safety issue then the e-mail must be sent as soon as possible including evening, weekends and holidays. The

Electronic Data Warehouse (EDW) maintenance window is Saturday at 12 pm Central to Sunday at 5 am Central. If a recall occurs during this time frame reports will be delayed.

CONVENE RECALL TEAM

Each Operating Company must establish a multi-disciplinary Recall Team. The team must include representatives from sales, accounting, inventory control, merchandising and operations. Each member of the team should have a trained back-up. Recalls do happen outside normal business hours. The members of the recall team must be provided the resources to complete the necessary tasks associated with a recall. Resources include but are not limited to cell phones, laptops and access to Sysco inventory control, the internet and SharePoint sites.

Once the Operating Company has received an Official Recall Notification, the CFO/Recall Coordinator must be notified immediately. The CFO/Recall Coordinator will convene the Recall Team and they will review the Official Recall Notification to ensure that the directions provided are clear and to determine the next steps to be taken.

DETERMINING "AFFECTED" STATUS

An operating company is AFFECTED by a recall if:

- The operating company has **NO remaining inventory**, but did receive inventory at one point in the past and shipped out all the affected inventory to customers (even if the product has all been consumed, Sysco has a legal obligation to notify its customers of a recall\withdrawal);
- The operating company **currently has SOME** of the affected product in the warehouse and **has shipped some** of the product;
- The operating company **currently has ALL** of the product at the warehouse on HOLD
- If the product sold through ChefEx, Supplies on the Fly or other program where product is drop shipped to customers and the Operating Company receives credit for the sale then the Operating Company is "affected".

If product is in transit and the shipment is REJECTED (the Operating Company never took possession of the affected product) the operating company is considered to be NOT AFFECTED by the recall\withdrawal

If the Operating Company is involved in the recall, the [CFO/Recall Coordinator/designee] must initialize a recall log and file. All information regarding the recall must be recorded in this log. All recall documentation should be stored in one location/file. This will include but not be limited to date, time, contact name and content of pertinent phone calls, and communications with the recalling firm, customers and any regulatory agencies.

INVENTORY ASSESSMENT

The [CFO/Recall Coordinator/designee] will provide information on the product(s) being recalled, including code date information and when possible case quantities, to the [Operating Company specific Operations/Distribution Services designee].

The [Operating Company specific Operations/Distribution Services designee] will pull the Purchase Orders associated with the supplier to confirm the products received. The [Operating Company specific Operations/Distribution Services designee] will review all suspect product(s) in-house, place affected product on hold, and report findings, including case quantities by lot code on hold to the [CFO/Recall Coordinator/designee]. For instructions to place product on hold in SWMS please refer to the section on Adjusting Inventory Status in the current SWMS User Guide.

Sysco Operating Companies that stock the affected product in inventory must inspect their inventory, whether or not they are listed as one of the affected Operating Companies in recall communications. This practice is

strongly recommended as Operating Companies may receive affected product through intercompany shipments, from secondary distributors or from supply chain partners other than the primary recalling firm. If an Operating Company, that was not included in the list of affected companies in the Sysco Quality Assurance recall communication, has documented, either through confirmation of affected inventory or through notification from a supplier that they are involved in recall, they must notify Sysco Quality Assurance immediately. The report must include information on how the product was obtained.

Isolation of affected product: It is strongly recommend that when product is placed on hold it is physically isolated from active inventory and the pallet is marked with a sign or sticker indicating the product is on hold due to a recall.

CUSTOMER ASSESSMENT / RECALL REPORTS

If notification of customers is indicated in the Official Recall Notification (or if the Recall Team determines that it is in their customers' best interest to be notified) the [CFO/Recall Coordinator/designee] will provide information on the product(s) being recalled to the [Operating Company specific Merchandising/Sales/Customer Service designee]. Information includes code date, case quantities and purchase order information when possible. The [Operating Company specific designee for generating recall report] must run a Recall Report to identify the customers that may have received affected product. Following are the required recall report formats

- Specialty Companies: Must run their current Recall Report
- Canadian Companies: Must run their current Recall Report
- SUS and SAP Broad line Companies: Must run Information Central Recall Report (#1859)

The recall report must be provided to:

- The Recall Team

- Uploaded to the Quality Assurance SharePoint site for the Reportable Food Registry (if required)
- Uploaded to the Instant Recall Website. The report MUST be uploaded. If Instant Recall will NOT be used to make customer contacts the Instant Recall contact must mark the "All customers on the provided list have already been contacted by the Operating Company" check box.

CUSTOMER NOTIFICATION

Recall communication to customers can be accomplished by automated telephone call, manual telephone call, facsimile transmission, e-mail, or special delivery letters. If letters are sent, the recall notice must be sent on Sysco letterhead and conspicuously marked in bold red type on the letter and envelope: "URGENT - FOOD RECALL."

It is important that the Sales / Marketing Associates are informed of recalls as they are Sysco's direct line of communication with customers.

The Recall Team will establish a specified timeframe for the communications to be completed. The timeframe will be based on the particular situation (e.g., a Class I recall would receive priority). The recall communication must be developed utilizing the guidelines provided in the Sysco Recall Policy.

Instant Recall System

Instant Recall is an automated calling system to facilitate rapid contact of affected Operating Company customers. Instant Recall is currently used by US Broad Line Operating Companies, SYGMA, and Sysco Canada. The system will be phased in with the Specialty Companies.

If the Instant Recall is not used or if contact is not successful via the automated system, Operating Companies are responsible for communication directly to their customers. Depending on the urgency of the recall action this may be done either via manual telephone call or written communication via fax, US post, or an expedited delivery service. In addition, BellTower offers human call service on request of the operating company for an additional fee.

- All Operating Companies will receive an "ACTION REQUIRED" recall notification e-mail sent from "Sysco Quality Assurance".
- The list of suspected affected Operating Companies will be provided on the notification email based on the information Sysco QA possesses at the time of notification.
- Response is required from Operating Companies that are listed as suspected to be affected by the recall, **or otherwise find that they are affected by the recall.**
- Only Operating Companies that are suspected to have the affected product are subject to the text message and phone call reminders if the deadline to respond on the e-mail is not met.

- Once automated calls are completed, the Instant Recall Coordinator will receive an e-mail indicating that the call report is available for follow-up.

The progress of the calls can be monitored real-time via the Instant Recall website. When the calling campaigns are completed if contact is not successful via the automated system, Operating Companies are responsible for follow-up communication directly to their customers. When necessary, follow-up communications should be sent to those customers who fail to respond to the initial product removal communication within a specified timeframe. Once contact has been made with all customers the staff charged with this responsibility will provide documentation of these contacts (e.g. call logs, fax logs, recall return information forms signed by customers, or mail confirmation slips) to the Recall Team. This status report must be issued within the time frame specified by the Recall Team.

CMU Customer Notification

Sysco Quality Assurance will communicate recalls, when appropriate, via e-mail to corporate contacts at Corporate Multi-Unit (CMU) Account Customers advising them of Sysco's involvement in a recall activity. Receipt of this communication is not necessarily indicative that the customer has received the affected product but rather serves as an advanced notice to inform customers that Sysco is involved in the recall action. It remains the Operating Company's responsibility to follow-up with their individual customers that may have received product affected by a recall.

The Multi-unit Account Customer Development Coordinator is responsible for maintaining the CMU Recall public distribution list.

Template Documents

To facilitate accurate communication and documentation of recall events template documents have been developed for use by Sysco Operating Companies. Template documents to be used in the event of a recall are as follows:

RECALL NOTICE TO CUSTOMERS

The operating company utilizes this document to provide written instructions to their customer regarding the recall action. It provides information regarding the product that is being recalled, the reason for the recall, and the specific steps that the customer should take regarding the disposition of the product. The recall notice should be sent on operating company letterhead and signed by the recall coordinator or an executive of the company. (See Appendix III.)

RECALL RETURN INFORMATION FORM

This document should be included with recall notice to the customer. When completed and returned to the operating company by the customer, this serves as acknowledgement by the customer that they were informed about the recall. It also serves as documentation of the quantity of product on hand at the time of the recall announcement as well as the disposition of the affected product (on hold, returned to operating company, destroyed, etc.). (See Appendix IV.)

RECALL RECONCILIATION FORM

This form can be used by the Operating Company to summarize the information received from customers including customer name, date they responded, number of cases they received, and number of cases recovered. (See Appendix V.)

VERIFICATION

The Recall Coordinator will check on progress of the recall communication with those customers that have purchased the recalled product within two (2) business days of the initiation of the recall communications to those customers. The Recall Coordinator will take appropriate steps to be sure the customer communications relating to the recall are completed promptly, and will enlist the help of the President of Sysco [Operating Company] as needed.

Once all communication efforts have been completed the Recall Coordinator is responsible for reviewing the original recall report (consignee list) to ensure 100% of the customers on the list have been contacted. The Recall Coordinator must sign and date the list to indicate verification was completed.

PRODUCT RETURNS

The [Operating Company specific Operations/Distribution Services designee] will notify driver check-in that there will be recall product returns. Driver-check in is responsible for placing all recall returns on hold, documenting case quantity and lot code, and reporting this information to The [Operating Company specific Operations/Distribution Services designee]

DISPOSITION

The disposition of any affected product must be provided in writing by the supplier conducting the recall and may include return to the supplier, re-labeling or destroying the product. If the recalled product is USDA regulated do not re-label the product unless you have received approval by Sysco Corporate Quality Assurance as there are regulatory requirements for this product.

The [Operating Company specific Operations/Distribution Services designee] must ensure that the appropriate action is taken with all recalled product on hold per the recalling firm's instructions. The SUPC, Brand, description, case quantity, lot codes and final status for these products must be documented.

SUPPLIER NOTIFICATION

The recall coordinator must acknowledge receipt of the recall communication to the supplier (recalling firm) on behalf of the operating company.

Once all affected product in inventory is on hold and all customers have been notified (if required) the [CFO/Recall Coordinator/designee] will provide a written summary report to the supplier (recalling firm) indicating the number of cases that have been accounted for, by SUPC and lot code, and confirmation of product disposition.

CUSTOMER CREDIT

Using information provided by the customer and verified either through driver check-in for returns or against invoices for product destroyed at the customer location; the [insert job title] will issue customer credit.

Customers can request recall credit through various means including their Marketing Associate, by calling customer service or via the Instant Recall Hotline (credit requests will appear on the Instant Recall Call Report available at the completion of the calling campaign). The [Operating Company specific Customer Service designee] must verify that the credit request against the customers' purchases to ensure the credit request is valid. Once verified, the [Operating Company specific Customer Service designee] will provide information to the [Accounting designee] regarding customers that require credit as a result of the recall. The [Accounting designee] is responsible for issuing credit to the customer.

It is possible that customers will use recalled product as an ingredient in a further processed product. In that case, a customer may request reimbursement for additional product affected by the recall, including other raw materials, packaging, and labor. If these fees are reimbursed by Sysco, Sysco must seek reimbursement from the recalling firm for these costs by including them in the Instant Recall Billing Form.

RECALL FEE & PRODUCT COST RECOVERY

The CFO is responsible to ensure that recall fees are submitted via the Instant Recall Billing Form which uses the Sysco Corporate Recall Fee Schedule (Appendix VI). Corporate Accounts Receivable will credit recall fees to the Operating Companies. The CFO is responsible for ensuring the recall fees recovered are credited to the proper account using the Recall Fee Accounting Schedule (Appendix VII).

Cost Recovery Campaign

For recall activities involving US Operating Companies (including SYGMA and Specialty Companies), recall fees will be consolidated into a single invoice on the Instant Recall website and billed to the recalling firm by Sysco Corporate. Following are the process steps:

INITIATION OF THE COST RECOVERY CAMPAIGN

Upon completion of a recall or withdrawal communication campaign, Instant Recall Contacts at Operating Companies involved in a recall event will receive an e-mail from Instant Recall with a link to the Cost Recovery webpage. If the recall or withdrawal does not involve a customer communication campaign, email with a link to the Cost Recovery webpage will be sent 7 days after the Recall/Withdrawal initiation.

ENTERING INFORMATION

Using their Instant Recall sign-on, Instant Recall Contact must upload supporting documentation and enter information regarding the fees associated with the specific recall.

The information required for billing is listed below (see detailed descriptions on the attached Recall Fee Sheet). Please note: some of the fees are calculated automatically by the system. Others will require your Operating Company Instant Recall Contact to enter data.

- a) Operating Company Administrative Fee (calculated by the system)
- b) Customer Notification Fee (calculated by the system based on the number of customers uploaded for the recall. Additional information can be entered)
- c) Product Handling Fee (Operating Company enters case counts)
- d) Customer Returns/Credit Fees (Operating Company enters case counts)
- e) Dump/Disposal Fee (Operating Company enters fee)
- f) Special Handling Fees (Operating Company enters number of hours)
- g) Miscellaneous Fees (Operating Company enters fee(s))

DEADLINES

The standard deadline for entering information is 30 days, following the initiation of the cost recovery campaign. This deadline may be modified if necessary, depending on the situation. All deadlines will be noted in the correspondence to the Operating Companies.

REMINDERS

Instant Recall Contacts at Operating Companies will receive reminders to enter the recall fee information. Following the initial e-mail, an e-mail reminder is sent to the Instant Recall Contacts two weeks prior to the deadline. Another reminder will be sent via e-mail and SMS Text 3 days before the deadline.

Invoice Process

- Approval: If the invoice involves FreshPoint, SYGMA or Sysco Produce, BellTower will forward to the corresponding CFO for review before approval by Sysco QA. BellTower will forward all invoices to Sysco QA for review and approval.
- Sysco QA will send a copy of the invoice to the recalling firm either via e-mail or postal service and will send as an e-mail attachment to Accounts Receivable at [440-SBS SMS Accounts Receivable](#).
- Accounts Receivable will generate a "payable" for the operating companies on listed on the invoice and a "receivable" for the supplier on the AR Trial.
- When the Operating Company receive recall funds they must be credited to the following accounts:

For Legacy Companies:

XXX-30-39-1681-300-ADMIN-MISC INC.-RECALL FEES

For SAP Companies:

63913005 Miscellaneous Income-Recall Fees

Recalled Product Cost: Bill Backs to Suppliers

In the event of a product recall the Operating Company should make every effort possible to ensure that the supplier is billed back for all impacted product. There is a trend within the industry that suppliers are allowing Sysco customers to destroy the product and no pickup is required. The Operating Company must have a process in place when this happens to capture and ensure that the supplier is billed back for that product. Following is a method that may be used:

- 1 When Customer Service confirms that a customer has destroyed the product, Customer Service enters a pick up document and notifies Inventory Control. This prints out in the Will Call office and Inventory Control receives this return Pick up. Inventory control creates a tracking report in Excel to keep a record of the total number of cases returned under the recall and the total cases of product the customers has destroyed. The Pickup documents are process as returns in SWMS generating the customer credit and charges spoilage.
- 2 Inventory Control shrinks the total cases of customer destroyed recall product back into inventory through spoilage using RE adjustment. (RE) is an adjustment in SWMS that flows through spoilage. This product is immediately put on hold by inventory control.
- 3 When the Vendor Return (VRT) for the recall product is created it will include the total number of cases on hold at the Warehouse and the number of cases that the customers have destroyed.

The pickup up document(s) should support the billback and be included with the recall file. The recall file should reflect how many actual cases were returned to the vendor and how many were disposed of at the customer.

REPORTABLE FOOD REGISTRY

The Reportable Food Registry (RFR) requirement has been added to the Food Drug and Cosmetic Act. The RFR creates additional reporting obligations for distributors of food products. The broadcast e-mail from Sysco Regulatory Communications to "000-Quality Ctrl Prdct Recall-DL" will clearly identify whether or not the recall involves a reportable food. If the recall is Reportable, the affected Sysco Companies must run the Recall Report identifying any customers who may have received the reportable food. ***The Recall Report must be submitted to Sysco QA SharePoint website within 24 hours of receiving notification of the recall.*** Sysco Quality Assurance will file reports required by this rule with the FDA

on behalf of ALL Sysco Companies. See "Instructions for Submitting Reportable Food Registry (RFR) Information to Sysco Quality Assurance" (Appendix VIII). Sysco Quality Assurance will file reports, required by this rule, with the FDA on behalf of ALL Sysco Companies within 24 hours of the recall initiation.

REGULATORY INSPECTIONS

Regulatory agencies may conduct effectiveness checks on recalls and therefore, Operating Companies may be contacted as part of the effectiveness check program. All inquiries from regulatory agencies must be directed to the CFO/Recall Coordinator of Sysco [Operating Company]. A Regulatory Visit Report must be completed if your company is contacted by a Regulatory Agency regarding a recall. The form is available at:

<http://mysysco/sites/QA/regulatory/RVR/Regulatory%20Visit%20Reports/Forms/AllItems.aspx>

MOCK RECALL / TRACEABILITY EXERCISE

Recall/traceability is verified twice annually through mock recalls if an actual recall has not occurred within the previous 6 months. See Mock Recall Standard Operating Procedure for details.

APPENDIX I:

APPENDIX II
RECALL E-MAIL DISTRIBUTION LISTS

Sysco Quality Assurance sends e-mail communication regarding Recall, Withdrawals and other important Food Safety related events from “*Sysco Regulatory Communications*” to the **000-Quality Ctrl Prdct Recall-DL**. This distribution list consists of many sub-lists managed by the list owners.

1. The Corporate Associates appear on the **240-Quality Ctrl Prdct Recall-DL**. This sub-list also includes the following distribution lists.

000-CFO Controllers - Meat Cos
000-CFO Controllers-Specialty Cos
000-CFO-CONTROLLERS
000-CFO-CONTROLLERS-CANADIAN
000-FP-CONTROLLERS
000-FP-PRESIDENTS
000-Merch-VP-DL
000-MUA.RECALL
000-NSCM-S.C.Inv Mgmt
000-PRES EVP-Other SpecCO
000-PRES+EVP'S
000-QA-DEPT
000-QA-FP-FORWARD
000-SCS.SITE.MGRS
000-SR.VP_S.OPERATIONS
000-V.P.OPERATIONS
000-V.P.OPERATIONS-Canada
000-V.P.OPERATIONS-Specialty
000-V.P.SALES

2. Each Operating Company has a recall distribution list in the Outlook Global Address Book. An example of such a list is **xxx-Quality Ctrl Prdct Recall-DL** (xxx represents the Operating Company number). Operating Companies manage their recall distribution list at the local level. Sysco Quality Assurance does not have permission to modify these lists.

The operating company must include individuals that are involved in recall activities and do not appear on the public distribution lists identified above. Such individuals would include but not be limited to customer service and inventory control personnel. The list can include as many or as few names as necessary for each company to ensure an adequate response to a recall action.

APPENDIX III
RECALL NOTICE TO CUSTOMERS

URGENT! CLASS ___ RECALL

Customer: _____

RE:

<u>SUPC</u>	<u>Brand</u>	<u>Product Description</u>	<u>Case Qty</u>	<u>Code Date</u>

AFFECTED LOT/CODE DATES:

SYSCO <OPERATING COMPANY NAME> requests <CUSTOMER NAME> to immediately examine existing inventory, segregate and hold the above-mentioned product.

The product is being recalled because <insert reason for recall here>.

To fulfill our mutual responsibility to provide a safe and wholesome food product, we require your assistance in the removal of the subject product. This is a Class ___ Recall. The <FDA, USDA, CFIA> <has been / will be> notified.

- First, identify, segregate and hold all products matching the information included in this notice.
- Second, complete the attached Recall Return Information Form to provide the requested information. Fax a copy of the completed form to (____)_____-____ or e-mail it to: <insert return e-mail address here>.
- Third, <convey specific instructions on what should be done with the product (i.e destroy or return to operating company)>.
- Fourth, <a representative will contact you to arrange for retrieval of the products. **AND/OR** Arrangements will be made to ship replacement product as soon as possible.>

If you have any question regarding this recall please contact: < insert contact information here>

Thank you for your cooperation.

Sincerely,

Enclosure

APPENDIX VI:
SYSCO CORPORATE RECALL FEE SCHEDULE

November 2012

In order to recoup Sysco's administrative and physical handling costs associated with product recalls, or any other similar action whereby product is held or brought backwards through the system, due to quality or food safety / security reasons the following schedule of fees and charges will be instituted. Note that this policy covers both Sysco operating companies and any Sysco re-distribution centers that carry recalled products.

- 1) **Operating Company Administrative Fee.** There will be a charge to the supplier of \$1,000** for each operating company or re-distribution center involved in a product recall. This charge includes time/cost involved with receiving the withdrawal/recall, researching purchases, checking inventory, handling incoming shipments, running custom reports, notifying internal sales/warehousing and front desk personnel, coding and processing customer credits, completing government reporting, satisfying government effectiveness checks etc. The maximum Operating Company administrative fee that will be charged by Sysco for Operating Company Administrative Fees for any one incident is \$10,000 regardless of the number of Operating Companies or re-distribution centers involved.
- 2) **Customer Notification Fee.** There will be a charge to the supplier of \$25** per customer for every customer notified, even if the customer has no product to return or destroy. This fee covers, amongst other things, the establishment of the affected customer list, phone contact, faxes, and/or priority/registered mail costs.
- 3) **Product Handling Fee.** There will be a charge to the supplier of Sysco's AP cost plus \$7.50** per case for any product in inventory at the operating company or re-distribution center. If product is shipped back to the supplier, the supplier is responsible for the freight charges, inbound and outbound, associated with these returns.
- 4) **Customer Returns/Credit Fees**
 - a. Sysco will charge suppliers for product returned or destroyed by customers based upon AP cost plus \$7.50 per case handling fee.
 - b. Any cases returned to the operating company will be subject to a charge of AP cost plus \$15** per case Product Handling fee.
- 5) **Dump/Disposal Fee.** There will be a charge to the supplier for any costs associated with disposing of affected product. This would include but not be limited to costs such as rendering the product inedible, disposal fees for hazardous waste, taking the product to a landfill, obtaining extra onsite dumpsters, etc.
- 6) **Special Handling Fees.** There will be a charge to the supplier for any fees resulting from supplier or regulator decisions related to recall/withdrawal such as fees for longer term storage of product (> 2 weeks), a \$60**/warehouse man hour charge will be assessed for product handling requested after routine business hours.
- 7) **Miscellaneous Fees.** It is possible that customers will use recalled product as an ingredient in a further processed product. In that case, a customer may request reimbursement for additional product affected by the recall, packaging costs, labor costs, and other associated costs. If these fees are reimbursed by Sysco, Sysco must seek reimbursement from the recalling firm for these costs.

** U.S. Dollars

APPENDIX VII:
RECALL FEE ACCOUNTING

This document provides guidance to Operating Companies in the proper accounting of SYSCO's administrative and physical handling costs associated with product recalls.

The accounting for Product Recall Fees has been changed. Previous communication instructed the Recall Fees & Charges to be expensed\allocated between the Administrative, Warehouse and Delivery departments. **As of October 29, 2012 all Product Recall Fees & Charges as well as any additional expenses involved with Product Recalls should be expensed to a newly created account in the Administrative department.** The new account number is:

For Legacy Companies the account number is:

XXX-30-39-1681-300-ADMIN-MISC INC.-RECALL FEES

For SAP Companies the account number is:

63913005 Miscellaneous Income-Recall Fees

All expenses associated with a Product Recall should be tracked and consolidated into this account. The new procedure will utilize a billing tool that will result in a single consolidated billing to the vendor from the Corporate Office. When the Product Recall Fees & Charges are recovered from the vendor by the Corporate Office they will be disbursed to the Operating Companies through the intercompany process. The recovered funds should be credited to this same account (XXX-30-39-1681-300-ADMIN-MISC INC.-RECALL FEES).

APPENDIX VIII
INSTRUCTIONS FOR SUBMITTING
REPORTABLE FOOD REGISTRY (RFR) INFORMATION

For instructions, please click on the following link or paste it in your browser:

<http://mysysco/sites/QA/regulatory/RVR/Instructions/Forms/AllItems.aspx>

Sysco Market Express Ordering Getting Started Guide

Good things
come from
Sysco[®]

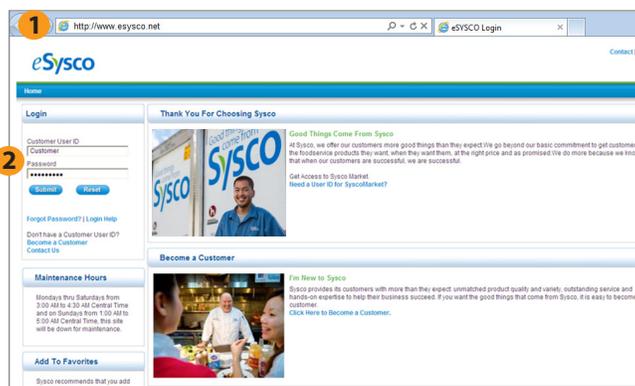

The information in this document will help you get a jump start on using Sysco Market Express Ordering. It provides instructions on how to:

- ▶ Access Sysco Market Express Ordering
- ▶ Create an order

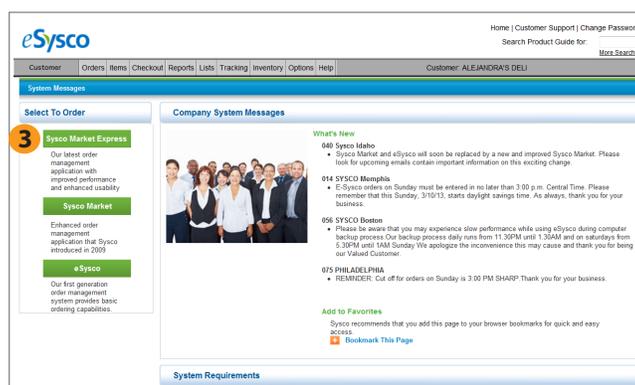

Let's get started!

ACCESSING SYSCO MARKET EXPRESS ORDERING

Sysco Market Express Ordering can be accessed at www.esysco.net. This is the same, familiar URL that you used to access eSysco or Sysco Market. While the URL address is the same, the look and feel of the landing page was recently updated to provide you with a brighter and more updated experience.

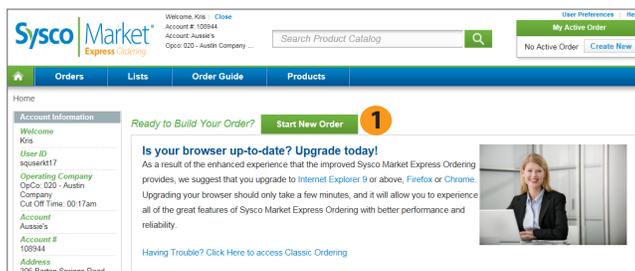

- 1 To begin, access www.esysco.net from your Internet browser.
- 2 Enter the **Customer User ID** and **Password** that you used to access eSysco or Sysco Market. *You will use the same credentials for Sysco Market Express Ordering.*

- 3 On the decision page, click Sysco Market Express to proceed to the new application.

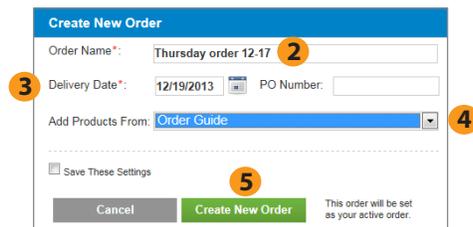

CREATING AN ORDER

Once you have logged in, it's time to create an order.

1 From the *Sysco Market Express Ordering Home* page, click the green **Start New Order** button.

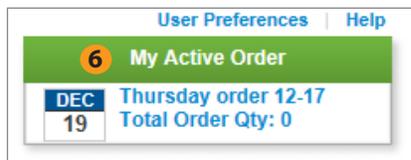

2 A *Create New Order* window will open. In the **Order Name** field, you can name your order in a way that will help you keep track of it, such as "Thursday order 12-17." It is not required that you change your order name.

3 The **Delivery Date** field will default to the next available delivery date, but you can change it if needed. To do this, use the **Delivery Date** calendar icon to select a different delivery date for your order. You will only be able to select valid delivery dates. You may also enter a PO number for your reference, if needed.

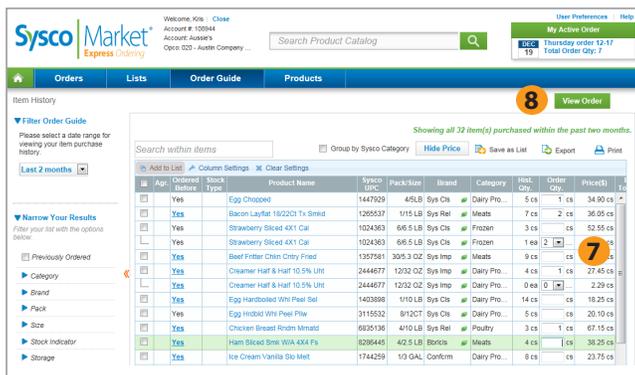

4 In the **Add Products From** drop-down menu, select where you would like to begin your order from.

5 Once you have completed the necessary fields, click the **Create New Order** button.

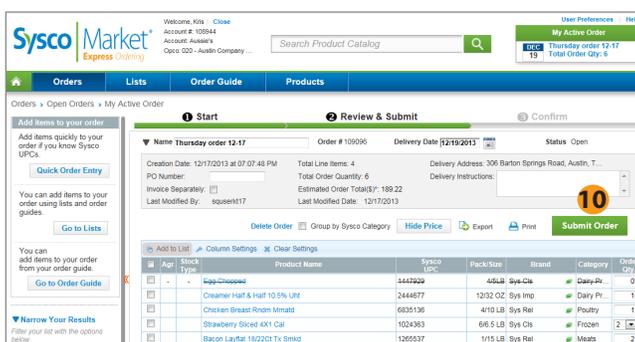

6 In the upper right-hand corner of the screen, your active order displays. The title and delivery date of the order you just created now appears in this area. It's your online "shopping cart."

7 Using the **Tab** key, **Enter** key or the arrow keys on your keyboard, you can navigate between lines in the grid and enter desired quantities for items you would like to add to your order. Use your mouse to select splittable quantities in the drop-down lists.

8 Once you have finished adding items to your order, click the green **View Order** button.

9 You can adjust your order quantities or remove items completely by changing the order quantities to zero or by clicking the red "X." Items that have been removed will appear with a strike through.

10 When you are ready to submit your order, click the green **Submit Order** button.
