**HOSTING AGREEMENT**

This Hosting Agreement (“Hosting Agreement”) is a Contract Document in connection with the Contract issued as a result of Solicitation No. 1034 (the “Contract”) and entered into between HP, Inc. (“Vendor”) and the State of Oklahoma by and through the Office of Management and Enterprise Services (“State” or “Customer”), the terms of which are incorporated herein. This Hosting Agreement is applicable to any Customer Data stored or hosted by Vendor in connection with the Contract. Unless otherwise indicated herein, capitalized terms used in this Hosting Agreement without definition shall have the respective meanings specified in the Contract.

**I. Definitions**

- a. “Customer Data” shall mean all data supplied by or on behalf of Customer in connection with the Contract, excluding any confidential information of Vendor.
- b. “Data Breach” shall mean the unauthorized access by an unauthorized person that results in the access, use, disclosure or theft of Customer Data.
- c. “Non-Public Data” shall mean Customer Data, other than Personal Data, that is not subject to distribution to the public as public information. It is deemed to be sensitive and confidential by Customer because it contains information that is exempt by statute, ordinance or administrative rule from access by the general public as public information. Non-Public Data includes any data deemed confidential pursuant to the Contract, otherwise identified by Customer as Non-Public Data, or that a reasonable person would deem confidential.
- d. “Personal Data” shall mean Customer Data that contains 1) any combination of an individual’s name, social security numbers, driver’s license, state/federal identification number, account number, credit or debit card number and/or 2) contains electronic protected health information that is subject to the Health Insurance Portability and Accountability Act of 1996, as amended.
- e. “Security Incident” shall mean the attempted or successful unauthorized access, use, disclosure, modification, or destruction of information or interference with the hosted environment used to perform the services.

**II. Customer Data**

- a. Customer will be responsible for the accuracy and completeness of all Customer Data provided to Vendor by Customer. Customer shall retain exclusive ownership of all Customer Data. Non-Public Data and Personal Data shall be deemed to be Customer's confidential information. Vendor shall restrict access to Customer Data to their employees with a need to know (and advise such employees of the confidentiality and non-disclosure obligations assumed herein).
- b. Vendor shall promptly notify the Customer upon receipt of any requests from unauthorized third parties which in any way might reasonably require access to Customer Data or Customer's use of the hosted environment. Vendor shall notify the Customer by the fastest means available and also in writing pursuant to Contract notice provisions and the notice provision herein. Except to the extent required by law, Vendor shall not respond to subpoenas, service or process, FOIA requests, and other legal request related to Customer without first notifying the Customer and obtaining the Customer's prior approval, which shall not be unreasonably withheld, of Vendor's proposed responses. Vendor agrees to provide its completed responses to the Customer with adequate time for Customer review, revision and approval.
- c. Vendor will use commercially reasonable efforts to prevent the loss of or damage to Customer Data in its possession and will maintain commercially reasonable back-up procedures and copies to facilitate the reconstruction of any Customer Data that may be lost or damaged by Vendor. Vendor will promptly notify Customer of any loss, damage to, or unauthorized access of Customer Data. Vendor will use commercially reasonable efforts to reconstruct any Customer Data that has been lost or damaged by Vendor as a result of its negligence or willful misconduct. If Customer Data is lost or damaged for reasons other than as a result of Vendor's negligence or willful misconduct, Vendor, at the Customer's expense, will, at the request of the State, use commercially reasonable efforts to reconstruct any Customer Data lost or damaged.

### **III. Data Security**

- a. Vendor will use commercially reasonable efforts, consistent with industry standards, to provide security for the hosted environment and Customer Data and to protect against both unauthorized access to the hosting environment, and unauthorized communications between the hosting environment and the Customer's browser. Vendor shall implement and maintain appropriate administrative, technical and organizational security measures to safeguard against unauthorized access, disclosure or theft of Personal Data and Non-Public Data. Such security measures shall be in accordance with recognized industry practice and not less stringent than the measures the Vendor applies to its own personal data and non-public data of similar kind.

- b. All Personal Data and Non-public Data shall be encrypted at rest and in transit with controlled access. Unless otherwise stipulated, the Vendor is responsible for encryption of Personal Data.
- c. Vendor represents and warrants to the Customer that the hosting equipment will be routinely checked with a commercially available, industry standard software application with up-to-date virus definitions. Vendor will regularly update the virus definitions to ensure that the definitions are as up-to-date as is commercially reasonable. Vendor will promptly purge all viruses discovered during virus checks. If there is a reasonable basis to believe that a virus may have been transmitted to Customer by Vendor, Vendor will promptly notify Customer of such possibility in a writing that states the nature of the virus, the date on which transmission may have occurred, and the means Vendor has used to remediate the virus.
- d. Vendor shall provide its services to Customer and its users solely from data centers in the U.S. Storage of Customer Data at rest shall be located solely in data centers in the U.S. Vendor shall not allow its personnel or contractors to store Customer Data on portable devices, including personal computers, except for devices that are used and kept only at its U.S. data centers. Vendor shall permit its personnel and contractors to access Customer Data remotely only as required to fulfill Vendor's obligations under the Contract.
- e. Vendor shall allow the Customer to audit conformance to the Contract terms. The Customer may perform this audit or contract with a third party at its discretion and at Customer's expense.
- f. Vendor shall perform an independent audit of its data centers at least annually at its expense, and provide a redacted version of the audit report upon request. Vendor may remove its proprietary information from the redacted version. A Service Organization Control (SOC) 2 audit report or approved equivalent sets the minimum level of a third-party audit.

#### **IV. Security Assessment**

- a. The State requires any entity or third-party vendor hosting Oklahoma Customer Data to submit to a State Certification and Accreditation Review process to assess initial security risk. Vendor submitted to the review and met the State's minimum security standards at time the Contract was executed. Failure to maintain the State's minimum security standards during the term of the Contract, including renewals, constitutes a material breach.
- b. To the extent Vendor requests a different sub-contractor than the third-party hosting vendor already approved by the State, the different sub-contractor is subject to the

State's approval. Vendor agrees not to migrate State's data or otherwise utilize a different third-party hosting vendor in connection with key business functions that are Vendor's obligations under the Contract until the State approves the third-party hosting vendor's State Certification and Accreditation Review, which approval shall not be unreasonably withheld or delayed. In the event the third-party hosting vendor does not meet the State's requirements under the State Certification and Accreditation Review, Vendor acknowledges and agrees it may not utilize such third-party vendor in connection with key business functions that are Vendor's obligations under the Contract, until such third party meets such requirements.

**V. Security Incident or Data Breach Notification:** Vendor shall inform Customer of any Security Incident or Data Breach

- a. Vendor may need to communicate with outside parties regarding a Security Incident, which may include contacting law enforcement, fielding media inquiries and seeking external expertise as mutually agreed upon, defined by law or contained in the Contract. If a Security Incident involves Customer Data, Vendor will coordinate with Customer prior to making any such communication unless prohibited by applicable law.
- b. Vendor shall report a Security Incident to the Customer identified contact set forth herein within five (5) days of discovery of the Security Incident or within a shorter notice period required by applicable law or regulation (i.e. HIPAA requires notice to be provided within 24 hours).
- c. Vendor shall: (i) maintain processes and procedures to identify, respond to and analyze Security Incidents; (ii) make summary information regarding such procedures available to Customer at Customer's request, (iii) mitigate, to the extent practicable, harmful effects of Security Incidents that are known to Vendor; and (iv) documents all Security Incidents and their outcomes.
- d. If Vendor has reasonable belief or actual knowledge of a Data Breach, Vendor shall (1) promptly notify the appropriate Customer identified contact set forth herein within 24 hours or sooner, unless shorter time is required by applicable law, and (2) take commercially reasonable measures to address the Data Breach in a timely manner.

**VI. Breach Responsibilities:** This section only applies when a Data Breach occurs with respect to Personal Data or Non-Public Data within the possession or control of Vendor.

- a. Vendor, unless stipulated otherwise, shall promptly notify the Customer identified contact within 24 hours or sooner, unless shorter time is required by applicable law,

if it confirms that there is, or reasonably believes that there has been a Data Breach. Vendor shall (1) cooperate with Customer as reasonably requested by Customer to investigate and resolve the Data Breach, (2) promptly implement necessary remedial measures, if necessary and as permitted by law, and (3) document responsive actions taken related to the Data Breach, including any post-incident review of events and actions taken to make changes in business practices in providing the services, if necessary.

- b. Unless otherwise stipulated, if a Data Breach is a direct result of Vendor's breach of its obligation to encrypt Personal Data and Non-Public Data or otherwise prevent its release, Vendor shall bear the costs associated with (1) the investigation and resolution of the Data Breach; (2) notifications to individuals, regulators or others required by state law; (3) credit monitoring services required by state or federal law; (4) a website or toll-free numbers and call center for affected individuals required by state law – (2), (3) and (4) not to exceed the agency per record per person cost calculated for data breaches in the United States on the most recent Cost of Data Breach Study: Global Analysis published by the Ponemon Institute at the time of the Data Breach; and (5) complete all corrective actions as reasonably determined by Vendor based on root cause.
- c. If a Data Breach is a direct result of Vendor's breach of its obligations to encrypt Personal Data and Non-Public Data or otherwise prevent its release, Vendor shall pay for all penalties assessed to Customer by governmental authorities in connection with the Data Breach to the extent that the Data Breach was the result of a vulnerability in the Vendor's system.
