**4.7. Privacy Terms and Conditions**

**4.7.1.** Customer represents and warrants that it has appropriate rights to provide End User data (which may include Customer Personal Data) to AT&T in connection with the Service. Customer expressly grants AT&T permission to access information contained in application layer 7 for the sole purpose of managing the performance of the Wi-Fi network. From time to time AT&T will perform real time packet capture to analyze and troubleshoot network issues and Customer grants AT&T permission to perform such operations for short intervals as necessary for network management purposes.

**4.7.2.** AT&T agrees that, in performing the network management function, it will:

- Use or monitor End User data shared with AT&T only for network management purposes and for providing metrics reports, consistent with the AT&T Privacy Policy; and
- Establish data retention protocols so that AT&T retains data shared with it for as long as reasonably necessary for network management purposes.

**4.7.3.** Customer agrees that in connection with the network management function, it will:

- Use or monitor End User data made available through the network management function of the Service only for network management purposes, unless it secures additional consent from End Users, or has another lawful basis for processing the data. Purposes beyond the network management function include, but are not limited to, marketing, advertising, and the examination of content and communications;
- Obtain and maintain any and all legally required employee or End User consents, or establish other lawful bases, for the processing, transfer, or use of End User data, and to assist with this and for guidance purposes only, the attached Exhibit A is a form for providing notice and obtaining End User consent;
- Obtain multiple consents for distinct purposes, and proposed combinations of personal data, even if supplemental software/technology is required;
- Use only Customer SSIDs;
- Present the End User with Customer's terms of service and applicable privacy policy;
- Establish data retention protocols so that data Customer processes is retained for no longer than is reasonably necessary for network management purposes;
- Not access, use, or share content of communications, content of email or texts, content of shopping carts, or search term queries, etc.; and
- Not attempt to re-identify anonymized data.

**4.7.4.** Customer is responsible for the way the data is used by Customer; and its employees, guests, and representative's access to and use of the data, content, or communications generated by this Service. AT&T disclaims all responsibility for the decision to activate Services.

**4.7.5.** To the extent that a website or online service is directed to or likely to collect personal information from children under the age of thirteen, Customer agrees to comply with the federal Children's Online Privacy Protection Act and provide parental notice and advance parental consent prior to collecting such personal information.

Commission and other industry regulators (e.g., Privacy Forum's Mobile Location Analytics Code of Conduct, NAI, GDPR, CCPA), with which Customer agrees to comply. Customer agrees not to provide or sell location data to third parties without AT&T's prior written authorization.

**4.7.6.1.** This ability to collect and use location information is different than what is done with GPS or other technologies. Because the Service collects and uses location information, AT&T is offering the following information, but such information is not intended to be legal advice. Customer should consult with an attorney for legal advice.

**4.7.6.2.** Depending on how Customer collects or uses the Service, Customer may be required to provide notice, obtain opt-in consents, or provide periodic reminders, all separate from providing terms and conditions to End Users, so that End Users will be aware that location is being tracked when visiting Customer's Sites. If Customer buys other products or services from AT&T or others that, in conjunction with Customer's business application, allows Customer to know when an End User is at Customer's Site(s), Customer may be required to provide separate notices, obtain separate opt-in consents, or provide periodic reminders (all separate from terms and conditions) so that End Users will be aware that location is being tracked in multiple ways when visiting Customer's Site(s).

**5. ADDITIONAL TERMS AND CONDITIONS**

**5.1** This Pricing Schedule shall be subject to all applicable Federal, State, and Local laws, ordinances, and regulations. If Federal or State law prohibits Customer from executing any agreement that extends beyond Customer's fiscal year, then the term of the Pricing Schedule shall be deemed to be through Customer's fiscal year, and automatically renewable at the beginning of each fiscal year throughout the Term. If, after the first fiscal year of Service under this Pricing Schedule, funds are not appropriated to continue paying for a particular Service in a subsequent fiscal year, then Customer may terminate that particular Service effective the last day for which funds were duly appropriated ("Date of Termination"), without being subject to termination charges; provided, however, that (i) Customer shall be obligated to pay all charges incurred through the Date of Termination, plus any unpaid, non-recurring charges that may be owed AT&T on the Date of Termination; (ii) Customer shall use its best efforts to obtain funding for that particular Service; (iii) Customer agrees not to obtain substantially similar service and/or equipment to replace those provided under this Pricing Schedule for a period equal to the remainder of the Term as of the Date of Termination; and (iv) Customer may exercise such right to terminate upon delivery to AT&T of a 30-day written notice setting forth the reason for termination and, within 30 days following the delivery of such written notice, Customer shall provide AT&T a legal opinion of Customer's counsel certifying that no funds have been appropriated or otherwise made available for payments due under the Pricing Schedule and that funds have not been made available for the acquisition of substantially similar service and/or equipment to replace those provided under this Pricing Schedule. In Oklahoma, this Pricing Schedule is subject to the provisions of the Oklahoma Constitution pertaining to public indebtedness, and Title 15 O.S. §§213, 214, and 215; and, the rates and charges, terms, and conditions of this Pricing Schedule, including form SW-4325C, are subject to the review and/or approval by the regulatory authorities of the state of Oklahoma.

**5.2** To the extent this Pricing Schedule relates to Services provided in Texas, Customer acknowledges the possibility of purchasing the Services provided hereunder from other providers.

**5.3** The prices stated in this Pricing Schedule do not include other applicable charges or taxes, including, but not limited to, Exchange Access, End User Common Line, E-911, and Dual Party Relay services. The price for any Service Component or any AT&T service not identified in this Pricing Schedule shall be set out in the Applicable Service Publication.

**5.4** Early Termination: If Customer migrates an AT&T ILEC Plexar® Custom Service SW-4325b or Service Component (the "Terminated ILEC Service") to a qualifying AT&T Business Voice over IP (BVoIP) Service (the "Replacement Service"), then AT&T will waive the Early Termination Fee directly resulting from terminating the Terminated ILEC Service if:

### 4. ADDITIONAL TERMS AND CONDITIONS

#### 4.1. Site Exclusivity

In no event is AT&T responsible for interference or service degradation caused by or to third-party Wi-Fi services at the Sites. At each Site, AT&T is the exclusive provider of the public or guest Wi-Fi Service, or similar wireless network (excluding cellular services), throughout each Site.

#### 4.2. Disclaimer of Warranty

CUSTOMER UNDERSTANDS AND ACKNOWLEDGES THAT THE AT&T BUSINESS WI-FI IS PROVIDED ON AN "AS-IS" BASIS, AND AT&T SPECIFICALLY DISCLAIMS ANY REPRESENTATIONS, WARRANTIES, AND SERVICE OR PERFORMANCE GUARANTEES OR LEVELS, EXPRESS OR IMPLIED, REGARDING THE AT&T BUSINESS WI-FI, THE ACCURACY OF ANY CONTENT PROVIDED BY AT&T FOR DISPLAY IN CONNECTION WITH THE AT&T BUSINESS WI-FI, OR THE RESULTS OBTAINED FROM ANY WEBSITE ACCESSED USING THE AT&T BUSINESS WI-FI. AT&T HAS NO DUTY TO DEFEND, INDEMNIFY, OR HOLD HARMLESS CUSTOMER FROM OR AGAINST ANY SETTLEMENTS, DAMAGES, COSTS AND OTHER AMOUNTS INCURRED BY CUSTOMER ARISING FROM THE ACTUAL OR ALLEGED INFRINGEMENT OR MISAPPROPRIATION OF INTELLECTUAL PROPERTY BASED ON THE SERVICES, SOFTWARE, OR EQUIPMENT PURCHASED OR FURNISHED PURSUANT TO THIS PRICING SCHEDULE.

#### 4.4. Sites and Equipment

Customer has provided a preliminary Site list and AT&T has projected which and how many pieces of Equipment will be used. This preliminary list is subject to modification based on the results of the AT&T Site Survey, Service Component inventory, and system design. AT&T will notify Customer of modifications to the recommended Equipment and Service Components, if any. If Customer does not agree to the modifications, AT&T may refuse to provision Services at the applicable Site. In addition, if Customer does not agree to modifications, Customer may, within thirty (30) days of receipt of written notice from AT&T describing the necessary modifications, terminate the Service Components for the applicable Site only, subject to reimbursing AT&T for time-and-materials and third-party charges, if any, incurred prior to the effective date of termination for that Site. The MPP for all other Sites is not altered by the termination of Service Components at the applicable Site.

### 4.7. Privacy Terms and Conditions

**4.7.1.** Customer represents and warrants that it has appropriate rights to provide End User data (which may include Customer Personal Data) to AT&T in connection with the Service. Customer expressly grants AT&T permission to access information contained in application layer 7 for the sole purpose of managing the performance of the Wi-Fi network. From time to time AT&T will perform real time packet capture to analyze and troubleshoot network issues and Customer grants AT&T permission to perform such operations for short intervals as necessary for network management purposes.

**4.7.2.** AT&T agrees that, in performing the network management function, it will:

- Use or monitor End User data shared with AT&T only for network management purposes and for providing metrics reports, consistent with AT&T Privacy Policy; and
- Establish data retention protocols, so that AT&T retains data shared with it for as long as reasonably necessary for network management purposes.

**4.7.3.** Customer agrees that in connection with the network management function, it will:

- Use or monitor End User data made available through the network management function of the Service only for network management purposes, unless it secures additional consent from End Users, or has another lawful basis for processing the data. Purposes beyond the network management function include, but are not limited to, marketing, advertising, and the examination of content and communications;
- Obtain and maintain any and all legally required employee or End User consents, or establish other lawful bases, for the processing, transfer, or use of End User data; and to assist with this and for guidance purposes only, the attached Exhibit A is a form for providing notice and obtaining End User consent;
- Obtain multiple consents for distinct purposes, and proposed combinations of personal data, even if supplemental software/technology is required;
- Use only Customer SSIDs;
- Present the End User with Customer's terms of service and applicable privacy policy;
- Establish data retention protocols so that data Customer processes is retained for no longer than is reasonably necessary for network management purposes;
- Not access, use, or share content of communications, content of email or texts, content of shopping carts, or search term queries, etc.; and
- Not attempt to re-identify anonymized data.

**4.7.4.** Customer is responsible for the way the data is used by Customer and its employees, guests, and representatives' access to and use of the data, content, or communications generated by this Service. AT&T disclaims all responsibility for the decision to activate Services.

**4.7.5.** To the extent that a website or online service is directed to or likely to collect personal information from children under the age of thirteen, Customer agrees to comply with the federal Children's Online Privacy Protection Act and provide parental notice and advance parental consent prior to collecting such personal information.

**4.7.6.** The Service allows Customer to collect and use an End User's location through Bluetooth Low Energy (BLE) and Wi-Fi based location technologies. Such use may be subject to various U.S. and international laws and regulations, including those promulgated by the Federal Trade Commission and other industry regulators (e.g., Privacy Forum's Mobile Location Analytics Code of Conduct, NAI, GDPR, CPA), with which Customer agrees to comply. Customer agrees not to provide or sell location data to third parties without AT&T's prior written authorization.

**AT&T BUSINESS WI-FI  
PRICING SCHEDULE**

**4.7.6.1.** This ability to collect and use location information is different than what is done with GPS or other technologies. Because the Service collects and uses location information, AT&T is offering the following information, but such information is not intended to be legal advice. Customer should consult with an attorney for legal advice.

**4.7.6.2.** Depending on how Customer collects or uses the Service, Customer may be required to provide notice, obtain opt-in consents, or provide periodic reminders, all separate from providing terms and conditions to End Users, so that End Users will be aware that location is being tracked when visiting Customer's Sites. If Customer buys other products or services from AT&T or others that, in conjunction with Customer's business application, allows Customer to know when an End User is at Customer's Site(s), Customer may be required to provide separate notices, obtain separate opt-in consents, or provide periodic reminders (all separate from terms and conditions) so that End Users will be aware that location is being tracked in multiple ways when visiting Customer's Site(s).

**4.7.7.** Customer may not use AT&T's name, brand, or mark, with third-parties or End Users in connection with the Service without AT&T's written consent.
