SOLICITATION NO. 0900000517

This Solicitation is a Contract Document and is a request for proposal in connection with the Contract awarded by the Office of Management and Enterprise Services as more particularly described below. Any defined term used herein but not defined herein shall have the meaning ascribed in the General Terms or other Contract Document.

PURPOSE

The Contract is awarded as a non-mandatory statewide contract for creating and maintaining GIS data that will be used to provide location and routing data for Next Generation 9-1-1(NG911) services in Oklahoma. Oklahoma currently has 129 Public Safety Answering Points (PSAP) that maintain GIS based 911 data. The migration to NG911 requires that this data needs to be transferred to the new State of Oklahoma Geographic Information NG911 and Addressing Standard in section C. Not all the 129 PSAP's will require the services of this contract but should they choose to select a Supplier of this contract the Supplier will follow the mandatory minimum requirements outlined in Section C.1. of the Bidder Instruction.

Scope

OEM is looking to provide location and routing data for Next Generation 9-1-1 services in Oklahoma. The scope of this contract has been designed to meet the minimum requirements necessary for local PSAP's to transfer their existing 911 data to the State Geographic Information Standard (GIS). There may be cases where the local PSAP does not have a workable 911 GIS dataset. In that case, the Supplier will provide services under this contract to fully develop a functional, working Enhanced 911 (E911) and NG911 dataset that conforms to the State Geographic Information Standard (GIS). It is understood that each PSAP's current GIS data and capabilities vary greatly across the State of Oklahoma due to a historical lack of an E911 GIS standard. There will be three phases to the bid assessment, creation and/or remediation and validation. All services for all phases must be provided by a single provider. The pricing sheet includes the necessary maintenance tools and/or service agreements that may be needed by the local entity to maintain the remediated data. The pricing sheet also includes the cost for field work that may be needed or requested to visually confirm the work is accurate.

1. Contract Term and Renewal Options

The initial Contract term, which begins on the effective date of the Contract, is one year and there is one (1) one-year options to renew the Contract.

2. Certain Contract requirements and terms are set forth below as

Exhibit 1 (Price sheet) and

Exhibit 2 – Appendix A (GUIDELINES FOR MAINTENANCE OF MUNICIPAL BOUNDARY GIS FILES) & Appendix B (9-1-1 PSAP BOUNDARY CHANGE REQUEST).

STATE OF OKLAHOMA GENERAL TERMS

This State of Oklahoma General Terms (“General Terms”) is a Contract Document in connection with a Contract awarded by the Office of Management and Enterprise Services on behalf of the State of Oklahoma.

In addition to other terms contained in an applicable Contract Document, Supplier and State agree to the following General Terms:

1 Scope and Contract Renewal

- 1.1** Supplier may not add products or services to its offerings under the Contract without the State’s prior written approval. Such request may require a competitive bid of the additional products or services. If the need arises for goods or services outside the scope of the Contract, Supplier shall contact the State.
- 1.2** At no time during the performance of the Contract shall the Supplier have the authority to obligate any Customer for payment for any products or services (a) when a corresponding encumbering document is not signed or (b) over and above an awarded Contract amount. Likewise, Supplier is not entitled to compensation for a product or service provided by or on behalf of Supplier that is neither requested nor accepted as satisfactory.
- 1.3** If applicable, prior to any Contract renewal, the State shall subjectively consider the value of the Contract to the State, the Supplier’s performance under the Contract, and shall review certain other factors, including but not limited to the: a) terms and conditions of Contract Documents to determine validity with current State and other applicable statutes and rules; b) current pricing and discounts offered by Supplier; and c) current products, services and support offered by Supplier. If the State determines changes to the Contract are required as a condition precedent to renewal, the State and Supplier will cooperate in good faith to evidence such required changes in an Addendum. Further, any request for a price increase in connection with a renewal or otherwise will be conditioned on the Supplier providing appropriate documentation supporting the request.
- 1.4** The State may extend the Contract for ninety (90) days beyond a final renewal term at the Contract compensation rate for the extended period. If the State exercises such option to extend ninety (90) days, the State shall notify the

Supplier in writing prior to Contract end date. The State, at its sole option and to the extent allowable by law, may choose to exercise subsequent ninety (90) day extensions at the Contract pricing rate, to facilitate the finalization of related terms and conditions of a new award or as needed for transition to a new Supplier.

- 1.5** Supplier understands that supplier registration expires annually and, pursuant to OAC 260:115-3-3, Supplier shall maintain its supplier registration with the State as a precondition to a renewal of the Contract.

2 Contract Effectiveness and Order of Priority

- 2.1** Unless specifically agreed in writing otherwise, the Contract is effective upon the date last signed by the parties. Supplier shall not commence work, commit funds, incur costs, or in any way act to obligate the State until the Contract is effective.

- 2.2** Contract Documents shall be read to be consistent and complementary. Any conflict among the Contract Documents shall be resolved by giving priority to Contract Documents in the following order of precedence:

- A.** any Addendum;
- B.** any applicable Solicitation;
- C.** any Contract-specific terms contained in a Contract Document including, without limitation, information technology terms and terms specific to a statewide Contract or a State agency Contract;
- D.** the terms contained in this Contract Document;
- E.** any successful Bid as may be amended through negotiation and to the extent the Bid does not otherwise conflict with the Solicitation or applicable law;
- F.** any statement of work, work order, or other similar ordering document as applicable; and
- G.** other mutually agreed Contract Documents.

- 2.3** If there is a conflict between the terms contained in this Contract Document or in Contract-specific terms and an agreement provided by or on behalf of Supplier including but not limited to linked or supplemental documents which alter or diminish the rights of Customer or the State, the conflicting terms provided by Supplier shall not take priority over this Contract Document or

Acquisition-specific terms. In no event will any linked document alter or override such referenced terms except as specifically agreed in an Addendum.

- 2.4 Any Contract Document shall be legibly written in ink or typed. All Contract transactions, and any Contract Document related thereto, may be conducted by electronic means pursuant to the Oklahoma Uniform Electronic Transactions Act.

3 **Modification of Contract Terms and Contract Documents**

- 3.1 The Contract may only be modified, amended, or expanded by an Addendum. Any change to the Contract, including the addition of work or materials, the revision of payment terms, or the substitution of work or materials made unilaterally by the Supplier, is a material breach of the Contract. Unless otherwise specified by applicable law or rules, such changes, including without limitation, any unauthorized written Contract modification, shall be void and without effect and the Supplier shall not be entitled to any claim under the Contract based on those changes. No oral statement of any person shall modify or otherwise affect the terms, conditions, or specifications stated in the Contract.
- 3.2 Any additional terms on an ordering document provided by Supplier are of no effect and are void unless mutually executed. OMES bears no liability for performance, payment or failure thereof by the Supplier or by a Customer other than OMES in connection with an Acquisition.

- 11.2** Supplier shall establish, maintain and enforce agreements with all such persons and entities that have access to State and citizen data and records to fulfill Supplier's duties and obligations under the Contract and to specifically prohibit any sale, assignment, conveyance, provision, release, dissemination or other disclosure of any State or citizen data or records except as required by law or allowed by written prior approval of the Customer.
- 11.3** Supplier shall immediately report to the Customer any and all unauthorized use, appropriation, sale, assignment, conveyance, provision, release, access, acquisition, disclosure or other dissemination of any State or citizen data or records of which it or its parent company, subsidiaries, affiliates, employees, officers, directors, assignees, agents, representatives, independent contractors, and subcontractors is aware or have knowledge or reasonable should have knowledge. The Supplier shall also promptly furnish to Customer full details of the unauthorized use, appropriation, sale, assignment, conveyance, provision, release, access, acquisition, disclosure or other dissemination, or attempt thereof, and use its best efforts to assist the Customer in investigating or preventing the reoccurrence of such event in the future. The Supplier shall cooperate with the Customer in connection with any litigation and investigation deemed necessary by the Customer to protect any State or citizen data and records and shall bear all costs associated with the investigation, response and recovery in connection with any breach of State or citizen data or records including but not limited to credit monitoring services with a term of at least three (3) years, all notice-related costs and toll free telephone call center services.
- 11.4** Supplier further agrees to promptly prevent a reoccurrence of any unauthorized use, appropriation, sale, assignment, conveyance, provision, release, access, acquisition, disclosure or other dissemination of State or citizen data and records.
- 11.5** Supplier acknowledges that any improper use, appropriation, sale, assignment, conveyance, provision, release, access, acquisition, disclosure or other dissemination of any State data or records to others may cause immediate and irreparable harm to the Customer and certain beneficiaries and may violate state or federal laws and regulations. If the Supplier or its affiliates, parent company, subsidiaries, employees, officers, directors, assignees, agents,

representatives, independent contractors, and subcontractors improperly use, appropriate, sell, assign, convey, provide, release, access, acquire, disclose or otherwise disseminate such confidential information to any person or entity in violation of the Contract, the Customer will immediately be entitled to injunctive relief and/or any other rights or remedies available under this Contract, at equity or pursuant to applicable statutory, regulatory, and common law without a cure period.

11.6 The Supplier shall immediately forward to the State Purchasing Director, and any other applicable person listed in the Notices section(s) of the Contract, any request by a third party for data or records in the possession of the Supplier or any subcontractor or to which the Supplier or subcontractor has access and Supplier shall fully cooperate with all efforts to protect the security and confidentiality of such data or records in response to a third party request.

11.7 Customer may be provided access to Supplier Confidential Information. State agencies are subject to the Oklahoma Open Records Act and Supplier acknowledges information marked confidential information will be disclosed to the extent permitted under the Open Records Act and in accordance with this section. Nothing herein is intended to waive the State Purchasing Director's authority under OAC 260:115-3-9 in connection with Bid information requested to be held confidential by a Bidder. Notwithstanding the foregoing, Supplier Confidential Information shall not include information that: (i) is or becomes generally known or available by public disclosure, commercial use or otherwise and is not in contravention of this Contract; (ii) is known and has been reduced to tangible form by the receiving party before the time of disclosure for the first time under this Contract and without other obligations of confidentiality; (iii) is independently developed without the use of any of Supplier Confidential Information; (iv) is lawfully obtained from a third party (without any confidentiality obligation) who has the right to make such disclosure or (v) résumé, pricing or marketing materials provided to the State. In addition, the obligations in this section shall not apply to the extent that the applicable law or regulation requires disclosure of Supplier Confidential Information, provided that the Customer provides reasonable written notice, pursuant to Contract notice provisions, to the Supplier so that the Supplier may promptly seek a protective order or other appropriate remedy.

12 Conflict of Interest

In addition to any requirement of law or of a professional code of ethics or conduct, the Supplier, its employees, agents and subcontractors are required to disclose any outside activity or interest that conflicts or may conflict with the best interest of the State. Prompt disclosure is required under this section if the activity or interest is

related, directly or indirectly, to any person or entity currently under contract with or seeking to do business with the State, its employees or any other third-party individual or entity awarded a contract with the State. Further, as long as the Supplier has an obligation under the Contract, any plan, preparation or engagement in any such activity or interest shall not occur without prior written approval of the State. Any conflict of interest shall, at the sole discretion of the State, be grounds for partial or whole termination of the Contract.

13 Assignment and Permitted Subcontractors

- 13.1** Supplier's obligations under the Contract may not be assigned or transferred to any other person or entity without the prior written consent of the State which may be withheld at the State's sole discretion. Should Supplier assign its rights to payment, in whole or in part, under the Contract, Supplier shall provide the State and all affected Customers with written notice of the assignment. Such written notice shall be delivered timely and contain details sufficient for affected Customers to perform payment obligations without any delay caused by the assignment.
- 13.2** Notwithstanding the foregoing, the Contract may be assigned by Supplier to any corporation or other entity in connection with a merger, consolidation, sale of all equity interests of the Supplier, or a sale of all or substantially all of the assets of the Supplier to which the Contract relates. In any such case, said corporation or other entity shall by operation of law or expressly in writing assume all obligations of the Supplier as fully as if it had been originally made a party to the Contract. Supplier shall give the State and all affected Customers prior written notice of said assignment. Any assignment or delegation in violation of this subsection shall be void.
- 13.3** If the Supplier is permitted to utilize subcontractors in support of the Contract, the Supplier shall remain solely responsible for its obligations under the terms of the Contract, for its actions and omissions and those of its agents, employees and subcontractors and for payments to such persons or entities. Prior to a subcontractor being utilized by the Supplier, the Supplier shall obtain written approval of the State of such subcontractor and each employee, as applicable to a particular Acquisition, of such subcontractor proposed for use by the Supplier. Such approval is within the sole discretion of the State. Any proposed subcontractor shall be identified by entity name, and by employee name, if required by the particular Acquisition, in the applicable proposal and shall include the nature of the services to be performed. As part of the approval request, the Supplier shall provide a copy of a written agreement executed by the Supplier and subcontractor setting forth that such subcontractor is bound by and agrees, as applicable, to perform the same covenants and be subject to

the same conditions and make identical certifications to the same facts and criteria, as the Supplier under the terms of all applicable Contract Documents. Supplier agrees that maintaining such agreement with any subcontractor and obtaining prior written approval by the State of any subcontractor and associated employees shall be a continuing obligation. The State further reserves the right to revoke approval of a subcontractor or an employee thereof in instances of poor performance, misconduct or for other similar reasons.

13.4 All payments under the Contract shall be made directly to the Supplier, except as provided in subsection A above regarding the Supplier's assignment of payment. No payment shall be made to the Supplier for performance by unapproved or disapproved employees of the Supplier or a subcontractor.

13.5 Rights and obligations of the State or a Customer under the terms of this Contract may be assigned or transferred, at no additional cost, to other Customer entities.

14 Background Checks and Criminal History Investigations

Prior to the commencement of any services, background checks and criminal history investigations of the Supplier's employees and subcontractors who will be providing services may be required and, if so, the required information shall be provided to the State in a timely manner. Supplier's access to facilities, data and information may be withheld prior to completion of background verification acceptable to the State. The costs of additional background checks beyond Supplier's normal hiring practices shall be the responsibility of the Customer unless such additional background checks are required solely because Supplier will not provide results of its otherwise acceptable normal background checks; in such an instance, Supplier shall pay for the additional background checks. Supplier will coordinate with the State and its employees to complete the necessary background checks and criminal history investigations. Should any employee or subcontractor of the Supplier who will be providing services under the Contract not be acceptable as a result of the background check or criminal history investigation, the Customer may require replacement of the employee or subcontractor in question and, if no suitable replacement is made within a reasonable time, terminate the purchase order or other payment mechanism associated with the project or services.

15 Patents and Copyrights

Without exception, a product or deliverable price shall include all royalties or costs owed by the Supplier to any third party arising from the use of a patent, intellectual property, copyright or other property right held by such third party. Should any third party threaten or make a claim that any portion of a product or service provided by Supplier under the Contract infringes that party's patent, intellectual property,

copyright or other property right, Supplier shall enable each affected Customer to legally continue to use, or modify for use, the portion of the product or service at issue or replace such potentially infringing product, or re-perform or redeliver in the case of a service, with at least a functional non-infringing equivalent. Supplier's duty under this section shall extend to include any other product or service rendered materially unusable as intended due to replacement or modification of the product or service at issue. If the Supplier determines that none of these alternatives are reasonably available, the State shall return such portion of the product or deliverable at issue to the Supplier, upon written request, in exchange for a refund of the price paid for such returned goods as well as a refund or reimbursement, if applicable, of the cost of any other product or deliverable rendered materially unusable as intended due to removal of the portion of product or deliverable at issue. Any remedy provided under this section is not an exclusive remedy and is not intended to operate as a waiver of legal or equitable remedies because of acceptance of relief provided by Supplier.

16 Indemnification

16.1 Acts or Omissions

- A.** Supplier shall defend and indemnify the Indemnified Parties, as applicable, for any and all liability, claims, damages, losses, costs, expenses, demands, suits and actions of third parties (including without limitation reasonable attorneys' fees and costs required to establish the right to indemnification) arising out of, or resulting from any action or claim for bodily injury, death, or property damage brought against any of the Indemnified parties to the extent arising from any negligent act or omission or willful misconduct of the Supplier or its agents, employees, or subcontractors in the execution or performance of the Contract.
- B.** To the extent Supplier is found liable for loss, damage, or destruction of any property of Customer due to negligence, misconduct, wrongful act, or omission on the part of the Supplier, its employees, agents, representatives, or subcontractors, the Supplier and Customer shall use best efforts to mutually negotiate an equitable settlement amount to repair or replace the property unless such loss, damage or destruction is of such a magnitude that repair or replacement is not a reasonable option. Such amount shall be invoiced to, and is payable by, Supplier sixty (60) calendar days after the date of Supplier's receipt of an invoice for the negotiated settlement amount.

16.2 Infringement

Supplier shall indemnify the Indemnified Parties, as applicable, for all liability, claims, damages, losses, costs, expenses, demands, suits and actions of third parties (including without limitation reasonable attorneys' fees and costs required to establish the right to indemnification) arising from or in connection with Supplier's breach of its representations and warranties in the Contract or alleged infringement of any patent, intellectual property, copyright or other property right in connection with a product or service provided under the Contract. Supplier's duty under this section is reduced to the extent a claimed infringement results from: (a) a Customer's or user's content; (b) modifications by Customer or third party to a product delivered under the Contract or combinations of the product with any non-Supplier-provided services or products unless Supplier recommended or participated in such modification or combination; (c) use of a product or service by Customer in violation of the Contract unless done so at the direction of Supplier, or (d) a non-Supplier product that has not been provided to the State by, through or on behalf of Supplier as opposed to its combination with products Supplier provides to or develops for the State or a Customer as a system.

16.3 Notice and Cooperation

In connection with indemnification obligations under the Contract, the parties agree to furnish prompt written notice to each other of any third-party claim. Any Customer affected by the claim will reasonably cooperate with Supplier and defense of the claim to the extent its interests are aligned with Supplier. Supplier shall use counsel reasonably experienced in the subject matter at issue and will not settle a claim without the written consent of the party being defended, which consent will not be unreasonably withheld or delayed, except that no consent will be required to settle a claim against Indemnified Parties that are not a State agency, where relief against the Indemnified Parties is limited to monetary damages that are paid by the defending party under indemnification provisions of the Contract.

16.4 Coordination of Defense

In connection with indemnification obligations under the Contract, when a State agency is a named defendant in any filed or threatened lawsuit, the defense of the State agency shall be coordinated by the Attorney General of Oklahoma, or the Attorney General may authorize the Supplier to control the defense and any related settlement negotiations; provided, however, Supplier shall not agree to any settlement of claims against the State without obtaining advance written concurrence from the Attorney General. If the Attorney General does not authorize sole control of the defense and settlement negotiations to Supplier, Supplier shall have authorization to equally

participate in any proceeding related to the indemnity obligation under the Contract and shall remain responsible to indemnify the applicable Indemnified Parties.

16.5 Limitation of Liability

- A.** With respect to any claim or cause of action arising under or related to the Contract, neither the State nor any Customer shall be liable to Supplier for lost profits, lost sales or business expenditures, investments, or commitments in connection with any business, loss of any goodwill, or for any other indirect, incidental, punitive, special or consequential damages, even if advised of the possibility of such damages.
- B.** Notwithstanding anything to the contrary in the Contract, no provision shall limit damages, expenses, costs, actions, claims, and liabilities arising from or related to property damage, bodily injury or death caused by Supplier or its employees, agents or subcontractors; indemnity, security or confidentiality obligations under the Contract; the bad faith, negligence, intentional misconduct or other acts for which applicable law does not allow exemption from liability of Supplier or its employees, agents or subcontractors.
- C.** The limitation of liability and disclaimers set forth in the Contract will apply regardless of whether Customer has accepted a product or service. The parties agree that Supplier has set its fees and entered into the Contract in reliance on the disclaimers and limitations set forth herein, that the same reflect an allocation of risk between the parties and form an essential basis of the bargain between the parties. These limitations shall apply notwithstanding any failure of essential purpose of any limited remedy.

17 Termination for Funding Insufficiency

- 17.1** Notwithstanding anything to the contrary in any Contract Document, the State may terminate the Contract in whole or in part if funds sufficient to pay obligations under the Contract are not appropriated or received from an intended third-party funding source. In the event of such insufficiency, Supplier will be provided at least fifteen (15) calendar days' written notice of termination. Any partial termination of the Contract under this section shall not be construed as a waiver of, and shall not affect, the rights and obligations of any party regarding portions of the Contract that are not terminated. The determination by the State of insufficient funding shall be accepted by, and shall be final and binding on, the Supplier.

- 17.2** Upon receipt of notice of a termination, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to the effective date of termination, the termination does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract or for any damages or other amounts caused by or associated with such termination. Any amount paid to Supplier in the form of prepaid fees that are unused when the Contractor certain obligations are terminated shall be refunded.
- 17.3** The State's exercise of its right to terminate the Contract under this section shall not be considered a default or breach under the Contract or relieve the Supplier of any liability for claims arising under the Contract.

18 Termination for Cause

- 18.1** Supplier may terminate the Contract if (i) it has provided the State with written notice of material breach and (ii) the State fails to cure such material breach within thirty (30) days of receipt of written notice. If there is more than one Customer, material breach by a Customer does not give rise to a claim of material breach as grounds for termination by Supplier of the Contract as a whole. The State may terminate the Contract in whole or in part if (i) it has provided Supplier with written notice of material breach, and (ii) Supplier fails to cure such material breach within thirty (30) days of receipt of written notice. Any partial termination of the Contract under this section shall not be construed as a waiver of, and shall not affect, the rights and obligations of any party regarding portions of the Contract that are not terminated.
- 18.2** The State may terminate the Contract in whole or in part immediately without a thirty (30) day written notice to Supplier if (i) Supplier fails to comply with confidentiality, privacy, security, environmental or safety requirements applicable to Supplier's performance or obligations under the Contract; (ii) Supplier's material breach is reasonably determined to be an impediment to the function of the State and detrimental to the State or to cause a condition precluding the thirty (30) day notice or (iii) when the State determines that an administrative error in connection with award of the Contract occurred prior to Contract performance.
- 18.3** Upon receipt of notice of a termination, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence

of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to the effective date of termination, the termination does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract or for any damages or other amounts caused by or associated with such termination. Such termination is not an exclusive remedy but is in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees that are unused when the Contract or certain obligations are terminated shall be refunded. Termination of the Contract under this section, in whole or in part, shall not relieve the Supplier of liability for claims arising under the Contract.

- 18.4** The Supplier's repeated failure to provide an acceptable product or service; Supplier's unilateral revision of linked or supplemental terms that have a materially adverse impact on a Customer's rights or obligations under the Contract (except as required by a governmental authority); actual or anticipated failure of Supplier to perform its obligations under the Contract; Supplier's inability to pay its debts when due; assignment for the benefit of Supplier's creditors; or voluntary or involuntary appointment of a receiver or filing of bankruptcy of Supplier shall constitute a material breach of the Supplier's obligations, which may result in partial or whole termination of the Contract. This subsection is not intended as an exhaustive list of material breach conditions. Termination may also result from other instances of failure to adhere to the Contract provisions and for other reasons provided for by applicable law, rules or regulations; without limitation, OAC 260:115-9-9 is an example.

19 Termination for Convenience

- 19.1** The State may terminate the Contract, in whole or in part, for convenience if it is determined that termination is in the State's best interest. In the event of a termination for convenience, Supplier will be provided at least thirty (30) days' written notice of termination. Any partial termination of the Contract shall not be construed as a waiver of, and shall not affect, the rights and obligations of any party regarding portions of the Contract that remain in effect.
- 19.2** Upon receipt of notice of such termination, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to the effective date of termination, the termination does not relieve an obligation to pay for the product or service but

there shall not be any liability for further payments ordinarily due under the Contract or for any damages or other amounts caused by or associated with such termination. Such termination shall not be an exclusive remedy but shall be in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees that are unused when the Contract or certain obligations are terminated shall be refunded. Termination of the Contract under this section, in whole or in part, shall not relieve the Supplier of liability for claims arising under the Contract.

20 Suspension of Supplier

- 20.1** Supplier may be subject to Suspension without advance notice and may additionally be suspended from activities under the Contract if Supplier fails to comply with confidentiality, privacy, security, environmental or safety requirements applicable to Supplier's performance or obligations under the Contract.
- 20.2** Upon receipt of a notice pursuant to this section, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to receipt of notice by Supplier, the Suspension does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract during a period of Suspension or suspended activity or for any damages or other amounts caused by or associated with such Suspension or suspended activity. A right exercised under this section shall not be an exclusive remedy but shall be in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees attributable to a period of Suspension or suspended activity shall be refunded.
- 20.3** Such Suspension may be removed, or suspended activity may resume, at the earlier of such time as a formal notice is issued that authorizes the resumption of performance under the Contract or at such time as a purchase order or other appropriate encumbrance document is issued. This subsection is not intended to operate as an affirmative statement that such resumption will occur.

21 Certification Regarding Debarment, Suspension, and Other Responsibility Matters

The certification made by Supplier with respect to Debarment, Suspension, certain indictments, convictions, civil judgments and terminated public contracts is a material representation of fact upon which reliance was placed when entering into the Contract.

A determination that Supplier knowingly rendered an erroneous certification, in addition to other available remedies, may result in whole or partial termination of the Contract for Supplier's default. Additionally, Supplier shall promptly provide written notice to the State Purchasing Director if the certification becomes erroneous due to changed circumstances.

22 Certification Regarding State Employees Prohibition From Fulfilling Services

Pursuant to 74 O.S. § 85.42, the Supplier certifies that no person involved in any manner in development of the Contract employed by the State shall be employed to fulfill any services provided under the Contract.

23 Force Majeure

23.1 Either party shall be temporarily excused from performance to the extent delayed as a result of unforeseen causes beyond its reasonable control including fire or other similar casualty, act of God, strike or labor dispute, war or other violence, or any law, order or requirement of any governmental agency or authority provided the party experiencing the force majeure event has prudently and promptly acted to take any and all steps within the party's control to ensure continued performance and to shorten duration of the event. If a party's performance of its obligations is materially hindered as a result of a force majeure event, such party shall promptly notify the other party of its best reasonable assessment of the nature and duration of the force majeure event and steps it is taking, and plans to take, to mitigate the effects of the force majeure event. The party shall use commercially reasonable best efforts to continue performance to the extent possible during such event and resume full performance as soon as reasonably practicable.

23.2 Subject to the conditions set forth above, non-performance as a result of a force majeure event shall not be deemed a default. However, a purchase order or other payment mechanism may be terminated if Supplier cannot cause delivery of a product or service in a timely manner to meet the business needs of Customer. Supplier is not entitled to payment for products or services not received and, therefore, amounts payable to Supplier during the force majeure event shall be equitably adjusted downward.

23.3 Notwithstanding the foregoing or any other provision in the Contract, (i) the following are not a force majeure event under the Contract: (a) shutdowns, disruptions or malfunctions in Supplier's system or any of Supplier's telecommunication or internet services other than as a result of general and widespread internet or telecommunications failures that are not limited to Supplier's systems or (b) the delay or failure of Supplier or subcontractor personnel to perform any obligation of Supplier hereunder unless such delay

or failure to perform is itself by reason of a force majeure event and (ii) no force majeure event modifies or excuses Supplier's obligations related to confidentiality, indemnification, data security or breach notification obligations set forth herein.

24 Security of Property and Personnel

In connection with Supplier's performance under the Contract, Supplier may have access to Customer personnel, premises, data, records, equipment and other property. Supplier shall use commercially reasonable best efforts to preserve the safety and security of such personnel, premises, data, records, equipment, and other property of Customer. Supplier shall be responsible for damage to such property to the extent such damage is caused by its employees or subcontractors and shall be responsible for loss of Customer property in its possession, regardless of cause. If Supplier fails to comply with Customer's security requirements, Supplier is subject to immediate suspension of work as well as termination of the associated purchase order or other payment mechanism.

25 Notices

All notices, approvals or requests allowed or required by the terms of any Contract Document shall be in writing, reference the Contract with specificity and deemed delivered upon receipt or upon refusal of the intended party to accept receipt of the notice. In addition to other notice requirements in the Contract and the designated Supplier contact provided in a successful Bid, notices shall be sent to the State at the physical address set forth below. Notice information may be updated in writing to the other party as necessary. Notwithstanding any other provision of the Contract, confidentiality, breach and termination-related notices shall not be delivered solely via e-mail.

If sent to the State:

26 Miscellaneous

26.1 Choice of Law and Venue

Any claim, dispute, or litigation relating to the Contract Documents, in the singular or in the aggregate, shall be governed by the laws of the State without regard to application of choice of law principles. Pursuant to 74 O.S. §85.14, where federal granted funds are involved, applicable federal laws, rules and regulations shall govern to the extent necessary to insure benefit of such federal funds to the State. Venue for any action, claim, dispute, or litigation relating in any way to the Contract Documents, shall be in Oklahoma County, Oklahoma.

26.2 No Guarantee of Products or Services Required

The State shall not guarantee any minimum or maximum amount of Supplier products or services required under the Contract.

26.3 Employment Relationship

The Contract does not create an employment relationship. Individuals providing products or performing services pursuant to the Contract are not employees of the State or Customer and, accordingly are not eligible for any rights or benefits whatsoever accruing to such employees.

26.4 Transition Services

If transition services are needed at the time of Contract expiration or termination, Supplier shall provide such services on a month-to-month basis, at the contract rate or other mutually agreed rate. Supplier shall provide a proposed transition plan, upon request, and cooperate with any successor supplier and with establishing a mutually agreeable transition plan. Failure to cooperate may be documented as poor performance of Supplier.

26.5 Publicity

The existence of the Contract or any Acquisition is in no way an endorsement of Supplier, the products or services and shall not be so construed by Supplier in any advertising or publicity materials. Supplier agrees to submit to the State all advertising, sales, promotion, and other publicity matters relating to the Contract wherein the name of the State or any Customer is mentioned or language used from which, in the State's judgment, an endorsement may be inferred or implied. Supplier further agrees not to publish or use such advertising, sales promotion, or publicity matter or release any informational pamphlets, notices, press releases, research reports, or similar public notices concerning the Contract or any Acquisition hereunder without obtaining the prior written approval of the State.

26.6 Open Records Act

Supplier acknowledges that all State agencies and certain other Customers are subject to the Oklahoma Open Records Act set forth at 51 O.S. §24A-1 *et seq.* Supplier also acknowledges that compliance with the Oklahoma Open Records Act and all opinions of the Oklahoma Attorney General concerning the Act is required.

26.7 Failure to Enforce

Failure by the State or a Customer at any time to enforce a provision of, or exercise a right under, the Contract shall not be construed as a waiver of any such provision. Such failure to enforce or exercise shall not affect the validity of any Contract Document, or any part thereof, or the right of the State or a Customer to enforce any provision of, or exercise any right under, the Contract at any time in accordance with its terms. Likewise, a waiver of a breach of any provision of a Contract Document shall not affect or waive a subsequent breach of the same provision or a breach of any other provision in the Contract.

26.8 Mutual Responsibilities

- A.** No party to the Contract grants the other the right to use any trademarks, trade names, other designations in any promotion or publication without the express written consent by the other party.
- B.** The Contract is a non-exclusive contract and each party is free to enter into similar agreements with others.
- C.** The Customer and Supplier each grant the other only the licenses and rights specified in the Contract and all other rights and interests are expressly reserved.
- D.** The Customer and Supplier shall reasonably cooperate with each other and any Supplier to which the provision of a product and/or service under the Contract may be transitioned after termination or expiration of the Contract.
- E.** Except as otherwise set forth herein, where approval, acceptance, consent, or similar action by a party is required under the Contract, such action shall not be unreasonably delayed or withheld.

26.9 Invalid Term or Condition

To the extent any term or condition in the Contract conflicts with a compulsory applicable State or United States law or regulation, such Contract term or

condition is void and unenforceable. By executing any Contract Document which contains a conflicting term or condition, no representation or warranty is made regarding the enforceability of such term or condition. Likewise, any applicable State or federal law or regulation which conflicts with the Contract or any non-conflicting applicable State or federal law or regulation is not waived.

26.10 Severability

If any provision of a Contract Document, or the application of any term or condition to any party or circumstances, is held invalid or unenforceable for any reason, the remaining provisions shall continue to be valid and enforceable and the application of such provision to other parties or circumstances shall remain valid and in full force and effect. If a court finds that any provision of this contract is invalid or unenforceable, but that by limiting such provision it would become valid and enforceable, then such provision shall be deemed to be written, construed, and enforced as so limited.

26.11 Section Headings

The headings used in any Contract Document are for convenience only and do not constitute terms of the Contract.

26.12 Sovereign Immunity

Notwithstanding any provision in the Contract, the Contract is entered into subject to the State's Constitution, statutes, common law, regulations, and the doctrine of sovereign immunity, none of which are waived by the State nor any other right or defense available to the State.

26.13 Survival

As applicable, performance under all license, subscription, service agreements, statements of work, transition plans and other similar Contract Documents entered into between the parties under the terms of the Contract shall survive Contract expiration. Additionally, rights and obligations under the Contract which by their nature should survive including, without limitation, certain payment obligations invoiced prior to expiration or termination; confidentiality obligations; security incident and data breach obligations and indemnification obligations, remain in effect after expiration or termination of the Contract.

26.14 Entire Agreement

The Contract Documents taken together as a whole constitute the entire agreement between the parties. No statement, promise, condition,

understanding, inducement or representation, oral or written, expressed or implied, which is not contained in a Contract Document shall be binding or valid. The Supplier's representations and certifications, including any completed electronically, are incorporated by reference into the Contract.

26.15 Gratuities

The Contract may be immediately terminated, in whole or in part, by written notice if it is determined that the Supplier, its employee, agent, or another representative violated any federal, State or local law, rule or ordinance by offering or giving a gratuity to any State employee directly involved in the Contract. In addition, Suspension or Debarment of the Supplier may result from such a violation.

26.16 Import/Export Controls

Neither party will use, distribute, transfer or transmit any equipment, services, software or technical information provided under the Contract (even if incorporated into other products) except in compliance with all applicable import and export laws, conventions and regulations.

The Customer may also terminate a purchase order or other payment mechanism or Supplier's activities under the Contract immediately without a thirty (30) day written notice to Supplier, if Supplier fails to comply with confidentiality, privacy, security, environmental or safety requirements if such non-compliance relates or may relate to Supplier provision of products or services to the Customer or if Supplier's material breach is reasonably determined (i) to be an impediment to the function of the Customer and detrimental to the Customer, or (ii) when conditions preclude the thirty (30) day notice.

Reports shall include usage of the statewide contract by every Customer during the applicable quarter. A singular report provided late will not be considered a breach of the statewide contract; provided, however, repeated failure to submit accurate quarterly usage reports and submit timely payments may result in suspension or termination, in whole or in part, of the Contract.

6.3 All Contract Usage Reports shall meet the following criteria:

- i.** Electronic submission in Microsoft Excel format to strategic.sourcing@omes.ok.gov;
- ii.** Quarterly submission regardless of whether there were transactions under the Contract during the applicable quarterly reporting period;

11 Ownership Rights

Any software developed by the Supplier under the terms of the Contract is for the sole and exclusive use of the State including but not limited to the right to use, reproduce, re-use, alter, modify, edit, or change the software as it sees fit and for any purpose. Moreover, except with regard to any deliverable based on Supplier Intellectual Property, the State shall be deemed the sole and exclusive owner of all right, title, and interest therein, including but not limited to all source data, information and materials furnished to the State, together with all plans, system analysis, and design specifications and drawings, completed programs and documentation thereof, reports and listing, all data and test procedures and all other items pertaining to the work and services to be performed pursuant to this Contract including all copyright and proprietary rights relating thereto. With respect to Supplier Intellectual Property, the Supplier grants the State, for no additional consideration, a perpetual, irrevocable, royalty-free license, solely for the internal business use of the State, to use, copy, modify, display, perform, transmit and prepare derivative works of Supplier Intellectual Property embodied in or delivered to the State in conjunction with the products.

If any Acquisition pursuant to this Contract is funded wholly or in part with federal funds, the source code and all associated software and related documentation owned by the State may be

shared with other publicly funded agencies at the discretion of the State without permission from or additional compensation to the Supplier.

12 Intellectual Property Ownership

The following terms apply to ownership and rights related to Intellectual Property:

- 12.1** As between Supplier and Customer, the Work Product and Intellectual Property Rights therein are and shall be owned exclusively by Customer, and not Supplier. Supplier specifically agrees that the Work Product shall be considered “works made for hire” and that the Work Product shall, upon creation, be owned exclusively by Customer. To the extent that the Work Product, under applicable law, may not be considered works made for hire, Supplier hereby agrees that all right, title and interest in and to all ownership rights and all Intellectual Property Rights in the Work Product is hereby effectively transferred, granted, conveyed, assigned and relinquished exclusively to Customer, without the necessity of any further consideration, and Customer shall be entitled to obtain and hold in its own name all Intellectual Property Rights in and to the Work Product. Supplier acknowledges that Supplier and Customer do not intend Supplier to be a joint author of the Work Product within the meaning of the Copyright Act of 1976. Customer shall have access, during normal business hours (Monday through Friday, 8:00 a.m. to 5:00 p.m.) and upon reasonable prior notice to Supplier, to all Supplier materials, premises and computer files containing the Work Product. Supplier and Customer, as appropriate, will cooperate with one another and execute such other documents as may be reasonably appropriate to achieve the objectives herein. No license or other right is granted under the Contract to any Third Party Intellectual Property, except as may be incorporated in the Work Product by Supplier.
- 12.2** Supplier, upon request and without further consideration, shall perform any acts that may be deemed reasonably necessary or desirable by Customer to evidence more fully the transfer of ownership and/or registration of all Intellectual Property Rights in all Work Product to Customer to the fullest extent possible including, but not limited to, the execution, acknowledgement and delivery of such further documents in a form determined by Customer. In the event Customer shall be unable to obtain Supplier’s signature due to the dissolution of Supplier or Supplier’s failure to respond to Customer’s repeated requests for such signature on any document reasonably necessary for any purpose set forth in the foregoing sentence, Supplier hereby irrevocably designates and appoints Customer and its duly authorized officers and agents as Supplier’s agent and Supplier’s attorney-in-fact to act for and in Supplier’s behalf and stead to execute and file any such document and to do all other lawfully permitted acts to further any such purpose with the same force and effect as if executed and delivered by Supplier, provided however that no such grant of right to Customer is applicable if Supplier fails to execute any document due to a good faith dispute by Supplier with respect to such document. It is understood that such power is coupled with an interest and is therefore irrevocable. Customer shall have the full and sole power to prosecute such applications and to take all other action concerning the Work Product, and Supplier shall cooperate, at Customer’s sole expense, in the preparation and

prosecution of all such applications and in any legal actions and proceedings concerning the Work Product.

- 12.3** Supplier hereby irrevocably and forever waives, and agrees never to assert, any Moral Rights in or to the Work Product which Supplier may now have or which may accrue to Supplier's benefit under U.S. or foreign copyright or other laws and any and all other residual rights and benefits which arise under any other applicable law now in force or hereafter enacted. Supplier acknowledges the receipt of equitable compensation for its assignment and waiver of such Moral Rights.
- 12.4** All documents, information and materials forwarded to Supplier by Customer for use in and preparation of the Work Product shall be deemed the confidential information of Customer, subject to the license granted by Customer to Supplier hereunder. Supplier shall not otherwise use, disclose, or permit any third party to use or obtain the Work Product, or any portion thereof, in any manner without the prior written approval of Customer.
- 12.5** These provisions are intended to protect Customer's proprietary rights pertaining to the Work Product and the Intellectual Property Rights therein and any misuse of such rights would cause substantial and irreparable harm to Customer's business. Therefore, Supplier acknowledges and stipulates that a court of competent jurisdiction may immediately enjoin a material breach of the Supplier's obligations with respect to confidentiality provisions of the Contract and the Work Product and a Customer's Intellectual Property Rights, upon a request by Customer, without requiring proof of irreparable injury, as same is presumed.
- 12.6** Upon the request of Customer, but in any event upon termination or expiration of this Contract or a statement of work, Supplier shall surrender to Customer all documents and things pertaining to the Work Product, generated or developed by Supplier or furnished by Customer to Supplier, including all materials embodying the Work Product, any Customer confidential information and Intellectual Property Rights in such Work Product, regardless of whether complete or incomplete. This section is intended to apply to all Work Product as well as to all documents and things furnished to Supplier by Customer or by anyone else that pertains to the Work Product.
- 12.7** Customer hereby grants to Supplier a non-transferable, non-exclusive, royalty-free, fully paid license to use any Work Product solely as necessary to provide services to Customer. Except as provided in this section, neither Supplier nor any subcontractor shall have the right to use the Work Product in connection with the provision of services to its other customers without the prior written consent of Customer, which consent may be withheld in Customer's sole discretion.
- 12.8** To the extent that any Third Party Intellectual Property is embodied or reflected in the Work Product or is necessary to provide services, Supplier shall obtain from the applicable third party for the Customer's benefit, an irrevocable, perpetual, non-exclusive, worldwide, royalty-free license, solely for Customer's internal business purposes; likewise, with respect to any Supplier Intellectual Property embodied or reflected in the Work Product or

necessary to provide services, Supplier grants to Customer an irrevocable, perpetual, non-exclusive, worldwide, royalty-free license, solely for the Customer's internal business purposes. Each such license shall allow the applicable Customer to (i) use, copy, modify, display, perform (by any means), transmit and prepare derivative works of any Third Party Intellectual Property or Supplier Intellectual Property embodied in or delivered to Customer in conjunction with the Work Product and (ii) authorize others to do any or all of the foregoing. Supplier agrees to notify Customer on delivery of the Work Product or services if such materials include any Third Party Intellectual Property. The foregoing license includes the right to sublicense third parties, solely for the purpose of engaging such third parties to assist or carry out Customer's internal business use of the Work Product. Except for the preceding license, all rights in Supplier Intellectual Property remain in Supplier. On request, Supplier shall provide Customer with documentation indicating a third party's written approval for Supplier to use any Third Party Intellectual Property that may be embodied or reflected in the Work Product.

- 12.9** Supplier agrees that it shall have written agreement(s) that are consistent with the provisions hereof related to Work Product and Intellectual Property Rights with any employees, agents, consultants, contractors or subcontractors providing services or Work Product pursuant to the Contract, prior to the provision of such services or Work Product and that it shall maintain such written agreements at all times during performance of this Contract which are sufficient to support all performance and grants of rights by Supplier. Copies of such agreements shall be provided to the Customer promptly upon request.
- 12.10** To the extent not inconsistent with Customer's rights in the Work Product or other provisions, nothing in this Contract shall preclude Supplier from developing for itself, or for others, materials which are competitive with those produced as a result of the services provided under the Contract, provided that no Work Product is utilized, and no Intellectual Property Rights of Customer therein are infringed by such competitive materials. To the extent that Supplier wishes to use the Work Product or acquire licensed rights in certain Intellectual Property Rights of Customer therein in order to offer competitive goods or services to third parties, Supplier and Customer agree to negotiate in good faith regarding an appropriate license and royalty agreement to allow for such.
- 12.11** If any Acquisition pursuant to the Contract is funded wholly or in part with federal funds, the source code and all associated software and related documentation and materials owned by a Customer may be shared with other publicly funded agencies at the discretion of such Customer without permission from or additional compensation to the Supplier.

13 Hosting Services

- 13.1** If Supplier or its subcontractor, affiliate or any other person or entity providing products or services under the Contract Hosts Customer Data in connection with an Acquisition, the provisions of Appendix 1, attached hereto and incorporated herein, apply to such Acquisition.

13.2 If the Hosting of Customer Data by Supplier or its subcontractor, affiliate or any other person or entity providing products or services under the Contract contributes to or directly causes a Data Breach, Supplier shall be responsible for the obligations set forth in Appendix 1 related to breach reporting requirements and associated costs. Likewise if such Hosting contributes to or directly causes a Security Incident, Supplier shall be responsible for the obligations set forth in Appendix 1, as applicable.

14 Change Management

When a scheduled change is made to products or services provided to a Customer that impacts the Customer's system related to such product or service, Supplier shall provide two (2) weeks' prior written notice of such change. When the change is an emergency change, Supplier shall provide twenty-four (24) hours' prior written notice of the change. Repeated failure to provide such notice may be an evaluation factor (as indicative of Supplier's past performance) upon renewal or if future bids submitted by Supplier are evaluated by the State.

15 Service Level Deficiency

In addition to other terms of the Contract, in instances of the Supplier's repeated failure to provide an acceptable level of service or meet service level agreement metrics, service credits shall be provided by Supplier and may be used as an offset to payment due.

Appendix 1 to State of Oklahoma Information Technology Terms

The parties agree to the following provisions in connection with any Customer Data accessed, processed or stored by or on behalf of the Supplier and the obligations, representations and warranties set forth below shall continue as long as the Supplier has an obligation under the Contract

A. Customer Data

1. Customer will be responsible for the accuracy and completeness of all Customer Data provided to Supplier by Customer. Customer shall retain exclusive ownership of all Customer Data. Non-Public Data and Personal Data shall be deemed to be Customer's confidential information. Supplier shall restrict access to Customer Data to their employees with a need to know (and advise such employees of the confidentiality and non-disclosure obligations assumed herein).
2. Supplier shall promptly notify the Customer upon receipt of any requests from unauthorized third parties which in any way might reasonably require access to Customer Data or Customer's use of the Hosted environment. Supplier shall notify the Customer by the fastest means available and also in writing pursuant to Contract notice provisions and the notice provision herein. Except to the extent required by law, Supplier shall not respond to subpoenas, service or process, Freedom of Information Act or other open records requests, and other legal request related to Customer without first notifying the Customer and obtaining the Customer's prior approval, which shall not be unreasonably withheld, of Supplier's proposed responses. Supplier agrees to provide its completed responses to the Customer with adequate time for Customer review, revision and approval.
3. Supplier will use commercially reasonable efforts to prevent the loss of or damage to Customer Data in its possession and will maintain commercially reasonable back-up procedures and copies to facilitate the reconstruction of any Customer Data that may be lost or damaged by Supplier. Supplier will promptly notify Customer of any loss, damage to, or unauthorized access of Customer Data. Supplier will use commercially reasonable efforts to reconstruct any Customer Data that has been lost or damaged by Supplier as a result of its negligence or willful misconduct. If Customer Data is lost or damaged for reasons other than as a result of Supplier's negligence or willful misconduct, Supplier, at the Customer's expense, will, at the request of the State, use commercially reasonable efforts to reconstruct any Customer Data lost or damaged.

B. Data Security

1. Supplier will use commercially reasonable efforts, consistent with industry standards, to provide security for the Hosted environment and Customer Data and to protect against both unauthorized access to the Hosting environment, and unauthorized communications between the Hosting environment and the Customer's browser. Supplier shall implement and maintain appropriate administrative, technical and organizational security measures to safeguard against unauthorized access, disclosure or theft of Personal Data and Non-Public

Data. Such security measures shall be in accordance with recognized industry practice and not less stringent than the measures the service provider applies to its own personal data and non-public data of similar kind.

2. All Personal Data and Non-public Data shall be encrypted at rest and in transit with controlled access. Unless otherwise stipulated, the service provider is responsible for encryption of Personal Data.
3. Supplier represents and warrants to the Customer that the Hosting equipment and environment will be routinely checked with a commercially available, industry standard software application with up-to-date virus definitions. Supplier will regularly update the virus definitions to ensure that the definitions are as up-to-date as is commercially reasonable. Supplier will promptly purge all viruses discovered during virus checks. If there is a reasonable basis to believe that a virus may have been transmitted to Customer by Supplier, Supplier will promptly notify Customer of such possibility in a writing that states the nature of the virus, the date on which transmission may have occurred, and the means Supplier has used to remediate the virus. Should the virus propagate to Customer's IT infrastructure, Supplier is responsible for costs incurred by Customer for Customer to remediate the virus.
4. Supplier shall provide its services to Customer and its users solely from data centers in the U.S. Storage of Customer Data at rest shall be located solely in data centers in the U.S. Supplier shall not allow its personnel or contractors to store Customer Data on portable devices, including personal computers, except for devices that are used and kept only at its U.S. data centers. Supplier shall permit its personnel and contractors to access Customer Data remotely only as required to fulfill Supplier's obligations under the Contract.
5. Supplier shall allow the Customer to audit conformance to the Contract terms. The Customer may perform this audit or contract with a third party at its discretion and at Customer's expense.
6. Supplier shall perform an independent audit of its data centers at least annually at its expense and provide a redacted version of the audit report upon request. Supplier may remove its proprietary information from the redacted version. A Service Organization Control (SOC) 2 audit report or approved equivalent sets the minimum level of a third-party audit.
7. Any remedies provided in this Appendix are not exclusive and are in addition to other rights and remedies available under the terms of the Contract, at law or in equity.

C. Security Assessment

1. The State requires any entity or third-party Supplier Hosting Oklahoma Customer Data to submit to a State Certification and Accreditation Review process to assess initial security risk. Supplier submitted to the review and met the State's minimum security standards at time the Contract was executed. Failure to maintain the State's minimum security standards

during the term of the contract, including renewals, constitutes a material breach. Upon request, the Supplier shall provide updated data security information in connection with a potential renewal. If information provided in the security risk assessment changes, Supplier shall promptly notify the State and include in such notification the updated information; provided, however, Supplier shall make no change that results in lessened data protection or increased data security risk. Failure to provide the notice required by this section or maintain the level of security required in the Contract constitutes a material breach by Supplier and may result in a whole or partial termination of the Contract.

2. Any Hosting entity change must be approved in writing prior to such change. To the extent Supplier requests a different sub-contractor than the third-party Hosting Supplier already approved by the State, the different sub-contractor is subject to the State's approval. Supplier agrees not to migrate State's data or otherwise utilize the different third-party Hosting Supplier in connection with key business functions that are Supplier's obligations under the contract until the State approves the third-party Hosting Supplier's State Certification and Accreditation Review, which approval shall not be unreasonably withheld or delayed. In the event the third-party Hosting Supplier does not meet the State's requirements under the State Certification and Accreditation Review, Supplier acknowledges and agrees it will not utilize the third-party Supplier in connection with key business functions that are Supplier's obligations under the contract, until such third party meets such requirements.

D. Security Incident or Data Breach Notification: Supplier shall inform Customer of any Security Incident or Data Breach.

1. Supplier may need to communicate with outside parties regarding a Security Incident, which may include contacting law enforcement, fielding media inquiries and seeking external expertise as mutually agreed upon, defined by law or contained in the Contract. If a Security Incident involves Customer Data, Supplier will coordinate with Customer prior to any such communication.
2. Supplier shall report a Security Incident to the Customer identified contact set forth herein within five (5) days of discovery of the Security Incident or within a shorter notice period required by applicable law or regulation (i.e. HIPAA requires notice to be provided within 24 hours).
3. Supplier shall:
 - a. Maintain processes and procedures to identify, respond to and analyze Security Incidents;
 - b. Make summary information regarding such procedures available to Customer at Customer's request;
 - c. Mitigate, to the extent practicable, harmful effects of Security Incidents that are known to Supplier; and

d. Document all Security Incidents and their outcomes.

4. If Supplier has reasonable belief or actual knowledge of a Data Breach, Supplier shall (1) promptly notify the appropriate Customer identified contact set forth herein within 24 hours or sooner, unless shorter time is required by applicable law, and (2) take commercially reasonable measures to address the Data Breach in a timely manner.

E. **Breach Responsibilities:** This section only applies when a Data Breach occurs with respect to Personal Data or Non-Public Data within the possession or control of Supplier.

1. Supplier shall (1) cooperate with Customer as reasonably requested by Customer to investigate and resolve the Data Breach, (2) promptly implement necessary remedial measures, if necessary, and (3) document responsive actions taken related to the Data Breach, including any post-incident review of events and actions taken to make changes in business practices in providing the services, if necessary.
2. Unless otherwise stipulated, if a Data Breach is a direct result of Supplier's breach of its obligation to encrypt Personal Data and Non-Public Data or otherwise prevent its release, Supplier shall bear the costs associated with (1) the investigation and resolution of the Data Breach; (2) notifications to individuals, regulators or others required by state law; (3) credit monitoring services required by state or federal law; (4) a website or toll-free numbers and call center for affected individuals required by state law – all not to exceed the agency per record per person cost calculated for data breaches in the United States on the most recent Cost of Data breach Study: Global Analysis published by the Ponemon Institute at the time of the data breach; and (5) complete all corrective actions as reasonably determined by Supplier based on root cause.
3. If a Data Breach is a direct result of Supplier's breach of its obligations to encrypt Personal Data and Non-Public Data or otherwise prevent its release, Supplier shall indemnify and hold harmless the Customer against all penalties assessed to Indemnified Parties by governmental authorities in connection with the Data Breach.

F. **Notices**

In addition to notice requirements under the terms of the Contract and those set forth above, a request, an approval or a notice in connection with this Appendix provided by Supplier shall be provided to:

Chief Information Security Officer

3115 N. Lincoln Blvd

Oklahoma City, OK 73105

and

servicedesk@omes.ok.gov.

G. Supplier Representations and Warranties

Supplier represents and warrants the following:

1. The product and services provided in connection with Hosting services do not infringe a third party's patent or copyright or other intellectual property rights.
2. Supplier will protect Customer's Non-Public Data and Personal Data from unauthorized dissemination and use with the same degree of care that each such party uses to protect its own confidential information and, in any event, will use no less than a reasonable degree of care in protecting such confidential information.
3. The execution, delivery and performance of the Contract and any ancillary documents and the consummation of the transactions contemplated by the Contract or any ancillary documents by Supplier will not violate, conflict with, or result in a breach of any provision of, or constitute a default (or an event which, with notice or lapse of time or both, would constitute a default) under, or result in the termination of, any written contract or other instrument between Supplier and any third parties retained or utilized by Supplier to provide goods or services for the benefit of the Customer.
4. Supplier shall not knowingly upload, store, post, e-mail or otherwise transmit, distribute, publish or disseminate to or through the Hosting environment any material that contains software viruses, malware or other surreptitious code designed to interrupt, destroy or limit the functionality of any computer software or hardware or telecommunications equipment or circumvent any "copy-protected" devices, or any other harmful or disruptive program.

H. Indemnity

Supplier agrees to defend, indemnify and hold the State, its officers, directors, employees, and agents harmless from all liabilities, claims, damages, losses, costs, expenses, demands, suits and actions (including without limitation reasonable attorneys' fees and costs required to establish the right to indemnification), excluding damages that are the sole fault of Customer, arising from or in connection with Supplier's breach of its express representations and warranties in these Information Technology Terms and the Contract. If a third party claims that any portion of the products or services provided by Supplier under the terms of another Contract Document or these Information Technology Terms infringes that party's patent or copyright, Supplier shall defend, indemnify and hold harmless the State and Customer against the claim at Supplier's expense and pay all related costs, damages, and attorney's fees incurred by or assessed to, the State and/or Customer. The State and/or Customer shall promptly notify Supplier of any third party claims and to the extent authorized by the Attorney General of the State, allow Supplier to control the defense and any related settlement negotiations. If the Attorney General of the State does not authorize sole control of the defense and settlement negotiations to Supplier, Supplier shall be granted authorization to equally participate in any proceeding related to this section but Supplier shall remain responsible to indemnify Customer and the State for all associated costs, damages and fees incurred by or assessed to the State and/or Customer. Should the software become, or in Supplier's

opinion, be likely to become the subject of a claim or an injunction preventing its use as contemplated in connection with Hosting services, Supplier may, at its option (i) procure for the State the right to continue using the software or (ii) replace or modify the software with a like or similar product so that it becomes non-infringing.

I. Termination, Expiration and Suspension of Service

1. During any period of service suspension, Supplier shall not take any action to intentionally disclose, alter or erase any Customer Data.

2. In the event of a termination or expiration of the Contract, the parties further agree:

Supplier shall implement an orderly return of Customer Data in a format specified by the Customer and, as determined by the Customer:

a. return the Customer Data to Customer at no additional cost, at a time agreed to by the parties and the subsequent secure disposal of State Data;

b. transitioned to a different Supplier at a mutually agreed cost and in accordance with a mutually agreed data transition plan and the subsequent secure disposal of State Data or

c. a combination of the two immediately preceding options.

3. Supplier shall not take any action to intentionally erase any Customer Data for a period of:

a. 10 days after the effective date of termination, if the termination is in accordance with the contract period;

b. 30 days after the effective date of termination, if the termination is for convenience; or

c. 60 days after the effective date of termination, if the termination is for cause.

After such period, Supplier shall, unless legally prohibited or otherwise stipulated, delete all Customer Data in its systems or otherwise in its possession or under its control.

4. The State shall be entitled to any post termination or expiration assistance generally made available with respect to the services.

5. Disposal by Supplier of Customer Data in all of its forms, such as disk, CD/DVD, backup tape and paper, when requested by the Customer, shall be performed in a secure manner. Data shall be permanently deleted and shall not be recoverable, according to National Institute of Standards and Technology (NIST)-approved methods. Certificates of destruction shall be provided to Customer within thirty (30) calendar day of its request for disposal of data.

Appendix 2 to State of Oklahoma Information Technology Terms

INTRODUCTION

The use and maintenance of all items of software or equipment offered for purchase herein must be in compliance with the most current version of the U.S. Department of Justice, Federal Bureau of Investigation (“FBI”), Criminal Justice Information Services (CJIS) Division’s CJIS Security Policy (“CJIS Security Policy” or “Security Policy” herein).

The Entity or Affiliate acquiring the data or system is hereby ultimately responsible for compliance with the CJIS Security Policy and will be subject to an audit by the State of Oklahoma CJIS Systems Officer (“CSO”) and the FBI CJIS Division’s Audit Staff.

CJIS SECURITY POLICY REQUIREMENTS GENERALLY

The CJIS Security Policy outlines a number of administrative, procedural, and technical controls agencies must have in place to protect Criminal Justice Information (“CJI”). Our experience is that agencies will generally have many of the administrative and procedural controls in place but will need to implement additional technical safeguards in order to be in complete compliance with the mandate. A Criminal Justice Agency (“CJA”) and certain other governmental agencies procuring technology equipment and services that could be used in hosting or connecting or transmitting or receiving CJI data may need to use the check list herein to make sure that the software, equipment, location, security, and persons having the ability to access CJI will meet the CJIS requirements per the then current CJIS Security Policy. A completed Appendix H to said Security Policy will need to be signed by Vendor or a 3rd party if it has access to CJI, such as incident to the maintenance or support of the purchased hardware or software within which resides CJI. **Per Appendix “A” to said Security Policy, “access to CJI is the physical or logical (electronic) ability, right or privilege to view, modify or make use of CJI.”**

DIRECTIVE CONCERNING ACCESS TO CRIMINAL JUSTICE INFORMATION AND TO HARDWARE OR SOFTWARE WHICH INTERACTS WITH CJI and CERTIFICATION

The FBI CJIS Division provides state-of-the-art identification and information services to the local, state, tribal, federal, and international criminal justice communities for criminal justice purposes, as well as the noncriminal justice communities for noncriminal justice purposes.

This Directive primarily concerns access to CJI and access to hardware and software in the use, retention, transmission, reception, and hosting of CJI for criminal justice purposes and not for noncriminal justice purposes. In that regard, this Directive is not only applicable to such data, but also to the hardware and software interacting with such data, their location(s), and persons having the ability to access such data. The CJIS data applicable to the Security Policy is the data described as such in said Policy **plus all data transmitted over the Oklahoma Law Enforcement Telecommunications System (“OLETS”) which is operated by DPS.**

In order to have access to CJI or to the aforesaid hardware or software, the vendor must be familiar with the FBI CJIS Security Policy, including but not limited to the following portions of said Security Policy:

1. the Definitions and Acronyms in §3 & Appendices “A” & “B”;

2. the general policies in §4;
3. the Policies in §5;
4. the appropriate forms in Appendices “D”, “E”, “F” & “H”; and
5. the Supplemental Guidance in Appendices “J” & “K”.

This FBI Security Policy is located and may be downloaded at: <https://www.fbi.gov/services/cjis/cjis-security-policy-resource-center>.

By executing the Contract to which this Directive is attached, the vendor hereby CERTIFIES that the foregoing directive has and will be followed, including but not limited to full compliance with the FBI CJIS Security Policy, as amended and as applicable.

SECTION TEN: OFFER OF VALUE-ADDED PRODUCTS AND SERVICES

Intrado Response:

- Intrado offers several value-added products and services to help meet the diverse needs of 9-1-1 authorities when preparing GIS data for NG911. Intrado's GIS data management solutions enable 9-1-1 authorities of varying degrees of GIS proficiency to view, inspect, validate and correct data errors related to preparing GIS data for NG9-1-1.
- This section includes the following optional products and services which add substantial value to NG9-1-1 GIS data preparation, data management, and ongoing maintenance of established NG9-1-1 GIS data operations but are outside the scope of this RFP. Intrado would be pleased to discuss these additional solutions with each PSAP, municipality, county, or organization within Oklahoma responsible for creating, managing, and maintaining NG9-1-1 GIS data.
- Enterprise Geospatial Database Management System (EGDMS)
- NG9-1-1 GIS Life Cycle System Support Services
- Spatial Pro Data Management Solution
- Spatial Manager Data Management Solution
- Transitional Data Management Services (TDMS)

Pricing for each of these solutions depends on multiple factors, including GIS jurisdiction population and solution configuration requirements for software systems. As Intrado would contract separately with the end-user customer agency/location, we would be pleased to develop custom price quotes for each solution separately, configured to provide the best combination of value and performance for each individual Oklahoma GIS authority.

Enterprise Geospatial Database Management System

The Enterprise Geospatial Database Management System (EGDMS) is Intrado's GIS Data interrogation and integration system serving as the nexus for all of Intrado's GIS data processing, seamlessly manages data between other Intrado GIS products and is what enables Intrado to provide a comprehensive set of Spatial Data Solutions-specifically designed for Public Safety.

The EGDMS is a secure, cloud-based service used by local, regional, or state-level GIS data sources for ongoing QA/QC validation and reporting, coalescing and provisioning of GIS data. It provides automated GIS data format standardization and data aggregation between regional or state-level and individual participating agencies.

When using Intrado's NENA i3 compliant NGCS, the EGDMS serves as the NENA Spatial Interface (SI), provisioning the NGCS functional elements the Emergency Call Routing Function (ECRF) and the Location Validation Function (LVF).

The EGDMS provides a secure GIS data upload portal, automated GIS data QA/QC validation and reporting, and provisioning to a coalesced database. In areas where Intrado manages the ALI database directly or on behalf of the Local Exchange Carrier (LEC), the EGDMS provides the ability for users to initiate ALI to Road Centerline (RCL) and/or ALI to address point GIS data

comparisons and match rate reports. This capability allows the GIS Authority to know if a GIS change or omission may cause an ALI to GIS comparison error or fallout. To support this feature, Intrado requires permission/access to the underlying ALI and MSAG databases of the applicable LEC. Intrado will coordinate with the 9-1-1 Authority and the LEC to get permission for this access.

The EGDMS GIS data validation services include critical error detection and reporting in an automated fashion, so GIS Authorities can have immediate feedback and shorten the error correction processing timeframes. The EGDMS portal provides:

- Secure file transfer via secure two-factor authentication
- Support for file geodatabase and shape file
- Automated schema change detection and error notification
- Browser-based attribute field mapping configuration driven by the GIS Authority
- Automated email notifications for upload and processing status
- NG9-1-1 GIS data compliancy checks
- Address Point, Road Centerline, and boundary layer validation checks
- Streamlined ALI to RCL and ALI to address point comparisons and reporting
- Validation report retrieval
- Ability for GIS Authority's data to be maintained in its native format and schema

NG9-1-1 GIS Life Cycle System Support Services

Intrado's NG9-1-1 GIS Life-Cycle System Support provides NG9-1-1 GIS managed services that support the implementation and ongoing support of NG9-1-1 geospatial location validation and call routing. Life-Cycle System Support is tailored to deliver essential GIS data onboarding services and provide ongoing GIS data management support services to the Customer/GIS Authority. Life-Cycle System Support is scalable to support individual PSAP or local authority deployments up to the largest regional and state NG9-1-1 implementations.

Life-Cycle System Support is powered by coupling the EGDMS with an assigned Intrado i3 GIS Coach. The EGDMS serves as Intrado's NG9-1-1 Spatial Interface portal, and enables the GIS Authority to upload GIS data, which starts automated GIS data validations, notifications, and reporting on that data. The Intrado i3 GIS Coach is not only an expert with GIS data and technology but also possesses a deep understanding of E9-1-1 and NG9-1-1 data structures and how they must work in unison with the Spatial Interface and other downstream systems in order to drive successful NG9-1-1 geospatial call routing. An i3 GIS coach is assigned to each GIS Authority, or EGDMS GIS data submitting agency, and is available to help manage the project, provide system access and training, GIS data upload assistance, error report interpretation, go-live support and ongoing consultation and support.

i3 GIS Life-Cycle System Support services are provided in two stages, Onboarding and Ongoing Support. The Life-Cycle System Support Onboarding stage delivers services, training, and support needed to successfully deploy NG9-1-1 GIS data within Intrado's EGDMS prior to NG9-1-1 go-live. The Ongoing stage of Life-Cycle System Support provides continued support of the Customer's NG9-1-1 GIS data following the successful completion of the Onboarding

stage. Intrado's Life-Cycle System Support provides support throughout all phases of deployment on the EGDMS.

These initial project start-up services establish communication between the GIS Authority, the Intrado i3 GIS coach, and the NG9 1 1 service provider. Intrado will provide the EGDMS system access, account creation, remote training, and assistance with the initial GIS data upload and field mapping configuration.

Project start up services include:

- Assignment of an i3 GIS Coach
- NG9-1-1 GIS Project Kick Off meeting
- EGDMS overview, and field mapping training (web-based)
- EGDMS report interpretation and error correction training (web-based)
- ALI to GIS reporting
- ALI to GIS report review and error correction training (web-based)
- GIS data testing and remediation
- General NG9-1-1 GIS Q&A support
- NG9-1-1 Geospatial Routing go-live support

After the initial implementation within the NG9-1-1 system, Ongoing Life-cycle System Support continues and maintains the lines of communication between Intrado, the 9-1-1 Authority and the NG9 1 1 service provider. End users will continue to receive i3 GIS coaching and support along with periodic system refresher training services.

Ongoing Life-cycle System Support includes the following services provided by an assigned i3 GIS Coach including:

- GIS data layer and schema mapping help
- GIS data troubleshooting for geospatial call routing issues
- EGDMS report interpretation and error resolution help
- Provisioning Boundary management and conflict remediation
- Refresher training courses

Life-cycle System Support billing is based on the population serviced by the GIS Authority. In the event Intrado is contracted to provide these services to multiple GIS Authorities billed to a single entity, pricing is not based on the aggregate population of the entity to be billed, but will be calculated for each individual GIS Authority submitting data through EGDMS based on the population serviced by each GIS Authority.

Intrado also offers Advanced NG9-1-1 GIS Managed Services for 9-1-1 and GIS Authorities that require additional assistance beyond what is covered by Ongoing Life-cycle System Support.

Spatial Pro Data Management Solution

Spatial Pro integrates closely with Esri ArcGIS® for Desktop to streamline GIS data maintenance and accuracy and is designed for the GIS professional requiring total control over their data.

Spatial Pro enables the synchronization of MSAG and GIS data. Spatial Pro delivers GIS data maintenance tools, including:

- Street and structure editing
- Street, structure, and response boundary validations
- MSAG/ALI to GIS compare and synchronization tools
- Easy to use reporting tools

Street and structure editing tools simplify common tasks by pre-populating attributes, accelerating the data management process, and reducing the potential for errors. Spatial Pro validations use over 30 proprietary algorithms to analyze GIS data and locate errors. Spatial Pro then presents the errors in an easy-to-use format, which enables the streamlined correction of the errors through tools specifically designed for the error type being corrected. Reports are generated on feature validations and MSAG/ALI compares. Users may customize reports by adding specific elements, such as an agency logo, custom titles, and customized headers and footers. Reports are generated in Adobe PDF format. Spatial Pro is installed locally, at Customer's location, and operates through an interface within Esri's ArcGIS Desktop (ArcView®, ArcEditor, or ArcInfo®) product. Various toolbars are available for accessing the tools and features. The functionality within the ArcGIS Desktop framework remains available while using Spatial Pro, including editing, drawing, layouts, and/or spatial queries. Using Spatial Pro and ArcGIS Desktop, new GIS data records (streets, structures, polygons, etc.) can be input into Customer's GIS data through multiple methods, including field GPS, on-screen digitizing, import, and auto-generation. Spatial Pro supports ArcGIS Desktop 10.1 through 10.7 and requires a file geodatabase or an Enterprise Geodatabase through ArcGIS Server ("ArcSDE"®).

End Customer Responsibilities

Each Customer deploying Spatial Pro will provide the hardware and additional software necessary for Spatial Pro installation and operation, including the proper ArcGIS license(s).

Spatial Pro is an add-on to Esri ArcGIS for Desktop and requires an active ArcGIS for Desktop license at each Spatial Pro-enabled workstation. End customer acquires and maintains the necessary Esri licensing. At the customer's request, Intrado can facilitate gaining the necessary Esri licensing.

Each Customer requiring Spatial Pro training will provide a suitable training facility and the equipment required for delivering Spatial Pro training.

Spatial Manager Data Management Solution

Spatial manager is a cloud-based application built on the Esri ArcGIS platform that helps local jurisdictions build, validate, and manage GIS data for seamless use within NG9-1-1 systems. With Spatial Manager, you can login from anywhere to collaborate, make edits, perform validations, merge and analyzing your GIS data.

Transitional Data Management Services

When Intrado is contracted as the ALI database provider, Transitional Data Management Service (TDMS) provides services and tools which enable locally sourced GIS data to serve as the authoritative source for 9-1-1 address validation by supporting legacy Originating Service Provider (“OSP”) subscriber provisioning and Automatic Location Information (“ALI”) database management.

TDMS significantly reduces the amount of work performed by 9-1-1 coordinators and GIS Authorities that make frequent edits to its GIS data by automatically updating the Master Street Address Guide (MSAG) using the provided GIS data as the source. TDMS enables the end user to upload GIS Road Centerline (RCL) GIS datasets into a web portal and changes within the RCL data are identified automatically and applicable updates to the MSAG are made.

TDMS can include an initial replacement of the customer MSAG with a GIS-based MSAG (“geoMSAG”), ongoing MSAG synchronization and maintenance as changes to the GIS data are made and received from the end user, and NG9-1-1 GIS Managed Services required to successfully onboard and manage GIS data within the NG9-1-1 environment before and after deployment.

TDMS delivers the following benefits:

- Operational Efficiency - TDMS provides 9-1-1 address management using GIS road centerline (RCL) data instead of traditional MSAG data, eliminating the need to synchronize and maintain synchronization between disparate GIS and MSAG databases
- Improved Data Accuracy - TDMS uses GIS data, which typically is more precise than the traditional MSAG and provides continuous GIS to MSAG and ALI synchronization
- No Changes Required for OSPs (Carriers) - TDMS supports legacy OSP provisioning and ALI database management and is fully transparent to OSPs
- Improved i3 Readiness - TDMS helps facilitate the transition to NG9-1-1 by keeping the GIS data synchronized with the MSAG and ALI until fully transitioned to NG9-1-1 and the MSAG / ALI are replaced by the geoMSAG
- Support for i3 Interim Routing - TDMS significantly streamlines deployment to Intrado’s or a partner / reseller’s i3 core routing services

geoMSAG Replacement Services

The geoMSAG Replacement Services described in this section can be provided on a one-time basis to prepare for the deployment of TDMS or are included in the Initial TDMS services performed when TDMS is deployed separately or as part of a larger ESInet / NG9-1-1 deployment.

Once the legacy MSAG has been replaced with the GIS-based MSAG, the authoritative GIS source data will be used exclusively to drive changes to the GIS-based MSAG, removing the need to manually enter individual MSAG change requests in 911Net. This GIS-based MSAG is referred to as the geoMSAG.

GIS-Based MSAG Replacement Services ("geoMSAG Services") provide 9-1-1 and GIS Authorities with:

- One GIS RCL-to-ALI data match rate report
- Validations of the RCL layer with a corresponding critical errors report
- Creation of a geoMSAG load file from customer-provided GIS RCL data once an agreed upon RCL-to-ALI data match rate had been reached (NENA recommends a 98% or greater match rate)
- Replacement of the hosted tabular MSAG with the geoMSAG once the agreed upon match rate has been achieved

Replacing the MSAG with the geoMSAG follows the steps outlined below:

1. A Customer agreement is initiated between the end user and Intrado or the end user and the channel partner or OSP. Intrado, or the channel partner or OSP, will secure permission to extract ALI and MSAG data from the databases.
2. The end user is provided access to the EGDMS system for GIS data upload and GIS error detection. The end user will then resolve errors within the RCL layer until all critical errors have been resolved.
3. Intrado provides a one-time comparison of the end user's GIS dataset (RCL feature class) against the ALI database and provides a report identifying discrepancies. The GIS Authority or end customer will then resolve errors within its RCL layer or the OSP to correct ALI records.
4. Intrado will create the geoMSAG to support TN simulation. If geoMSAG build errors are encountered, the end user will resolve errors within its GIS data.
5. Intrado will perform a one-time TN simulation to identify discrepancies between the newly created geoMSAG and ALI TNs. Intrado will provide the discrepancies between the geoMSAG and ALI data to the end user. The end user will then update the GIS data and use 911NET (if applicable) to work with the OSP to resolve any ALI discrepancies.
6. After all comparison and simulation testing outputs result in either the recommended 98% or greater match rate between the ALI and geoMSAG or an agreed-to match rate is achieved, Intrado replaces the MSAG with the geoMSAG which is then used as the MSAG database of record. When the match rate is less than 98%, additional Intrado professional services fees may apply, to be quoted on a case-by-case basis.

Following the successful replacement of the MSAG with the new geoMSAG, the end user may continue to perform ongoing GIS to MSAG synchronization with Intrado's ongoing TDMS described below. From this point forward, the GIS data is used to drive the tabular MSAG and 911Net is no longer required or used.

If geoMSAG Services are provided as a one-time service project, billing is based on the population to be serviced by the GIS Authority. In the event Intrado is contracted to provide one-time geoMSAG Services to multiple GIS Authorities billed to a single entity, pricing is not based on the aggregate population of the entity to be billed but will be calculated for each individual GIS Authority based on the population serviced by each GIS Authority.

Replacement of the MSAG with the GIS-based MSAG (geoMSAG) is described below.

TDMS Turn-Up Process and Key Milestones

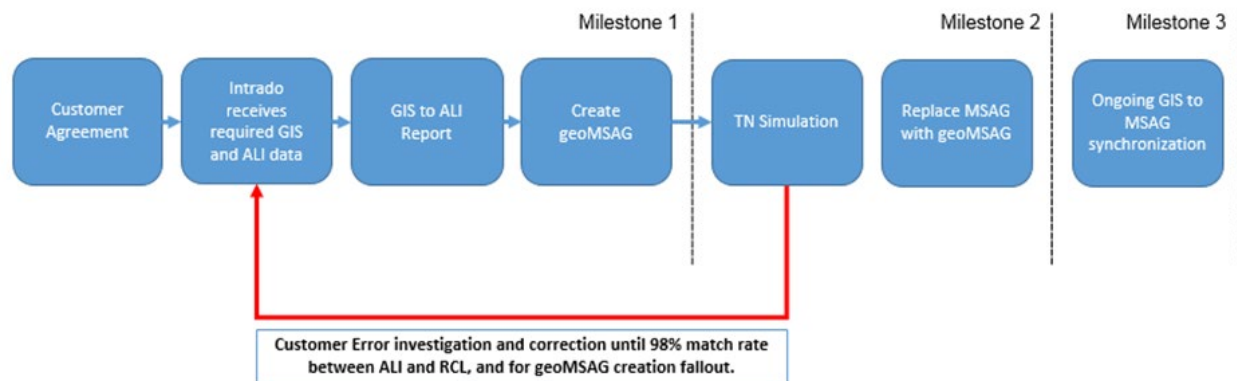

Figure 1: TDMS Turn-Up Process and Key Milestones

Ongoing TDMS

Following the completion of the one-time geoMSAG replacement, the RCL data becomes the authoritative dataset driving changes to the tabular MSAG. Ongoing TDMS provides the end user with access to purpose-built tools and portals to upload and validate RCL data and to identify and report GIS data discrepancies for error resolution. Ongoing GIS to MSAG synchronization will be performed using EGDMS. MSAG changes are derived from the RCL data and 911Net is no longer required or used.

Ongoing TDMS enables 9-1-1 address validation and management to be performed against the end user's geoMSAG, which can be updated as often as changes are made to the underlying RCL data.

Ongoing TDMS includes ongoing GIS validation services and ongoing geoMSAG processing services. Once TDMS is implemented, the end user will no longer use MSAG CRs for making MSAG updates and instead make updates to the geoMSAG by submitting RCL updates using Intrado's EGDMS. Ongoing TDMS includes Intrado's EGDMS and ongoing GIS support services, described in greater detail in this section below.

Ongoing TDMS billing is based on the population to be serviced by the GIS Authority. In the event Intrado is contracted to provide ongoing TDMS to multiple GIS Authorities billed to a single entity, pricing is not based on the aggregate population of the entity to be billed but will be calculated for each individual GIS Authority Intrado has engaged to deliver TDMS based on the population serviced by each GIS Authority.

Ongoing TDMS Overview

Figure 2: Ongoing GIS to MSAG Synchronization

Ongoing GIS data management using TDMS follows the steps outlined below.

1. End customer submits GIS data to EGDMS.
2. EGDMS performs validations on the end user-submitted GIS data.
3. EGDMS delivers critical error reports and GIS data representing errors; End customer corrects critical errors in GIS data file and resubmits to EGDMS.
4. RCL changes are submitted for the geoMSAG and ALI validation performed in Step 6.
5. geoMSAG and ALI validations are performed to identify errors within the geoMSAG or the OSP TN information.
6. geoMSAG referrals are communicated to the end user.
7. The end user reviews the geoMSAG referrals and either corrects the RCL data and resubmits it through EGDMS or shows a TN issue needs to be resolved by the OSP.
8. geoMSAG GIS changes pass validations apply to the production geoMSAG 9-1-1 database.

EGDMS

TDMS includes Intrado's NG9-1-1 Spatial Interface portal, the Enterprise Geospatial Database Management System ("EGDMS"). EGDMS enables the end user to upload GIS data, which initiates automated GIS data validations, notifications, and reporting on that data. EGDMS supports either Shapefile or File Geodatabase formats and allows the authoritative GIS data to be maintained using the end user's native data schemas. EGDMS detects changes between new GIS data and current data, and those changes are subsequently propagated to the geoMSAG unless a critical error is detected. In the case of an error condition, MSAG CRs are created and referred for error resolution. EGDMS training is provided with TDMS and includes system navigation, report generation, and report interpretation.

TDMS GIS Support Services

TDMS includes GIS support services provided to the primary / initial GIS authority and any subordinate GIS authorities or PSAPs contributing GIS data to the geoMSAG deployed to support the NG9-1-1 solution. These services support the implementation of NG9-1-1 geospatial location validation and call routing and are specifically tailored to deliver essential GIS data onboarding services and ongoing support for EGDMS and the end user's geoMSAG.

GIS support services are delivered in two stages, based on the go-live date of the end user's NG9-1-1 system. GIS onboarding provides the services, training, and support necessary to successfully deploy NG9-1-1 GIS data and EGDMS prior to the NG9-1-1 system going live. Ongoing GIS support services provide continued support of the NG9-1-1 GIS data (the geoMSAG) following deployment of NG9-1-1.

After NG9-1-1 GIS onboarding services to implement TDMS and deploy EGDMS have been completed, GIS support services maintain communication between the end user, Intrado, and the NG9-1-1 service provider following deployment of NG9-1-1. Intrado will continue to provide i3 GIS coaching services and support to the primary GIS authority and subordinate GIS authorities / PSAPs along with periodic solution refresher training services.

Data Requirements for Implementing TDMS

Implementation of TDMS, including geoMSAG replacement and ongoing TDMS, requires:

- ALI data must be managed by Intrado or a NG9-1-1 system provider partnered with Intrado
- Intrado must manage the MSAG for the area of interest
- A mutually agreed to ALI and RCL data match rate is to be achieved, prior to NG9-1-1 solution going live, as a condition of TDMS implementation
- Intrado requires that all EGDMS critical errors be resolved within the RCL feature class
- The end user's GIS data must contain the required data fields and attributes which are shown in Table 1, below
- The geographic area covered by the RCL data must be equal to or larger than the area covered by the MSAG

Road Centerline RCL) Fields Required for geoMSAG Replacement

The table below includes the required RCL fields for geoMSAG replacement and ongoing TDMS.

Please note this list includes only those fields required for implementing TDMS and the geoMSAG replacement; it does not include all i3/NG9-1-1 required fields.

DESCRIPTION OF STATEMENT OF WORK PRODUCTS AND SERVICES

Section Nine Pricing of Intrado's proposal in response to Solicitation # 0900000517 depicts pricing for Intrado's GIS Data Professional Services, described below.

GIS Data Professional Services: Analyze and Correct County GIS Data

This service provides a comprehensive analysis of a <jurisdiction's> GIS data combined with in-depth reports of errors found. Analysis will be performed on layers which impact 9-1-1, including:

- Street Centerlines
- Address Points
- Response Boundaries (ESN, Law, Fire, EMS)

Following the GIS data analysis, Intrado GIS professionals will make corrections to the <jurisdiction> GIS data. Intrado will start with a Validation on the data in order to identify errors and then correct the errors in the Street Centerlines and Address Point layers.

Please note, not all errors can be corrected without additional information; Intrado will correct as many errors as possible that do not require addition information.

Intrado will also edge match the Street Centerlines in <jurisdiction> to <adjacent jurisdictions>. Intrado recommends the <jurisdiction> provide aerial imagery, if available, to more accurately align the Street Centerlines at the <adjacent jurisdictions'> respective boundaries. If this is not available, Intrado can search for free aerial imagery sources to use, with the <jurisdiction's> approval.

Following completion of the project deliverables, Intrado will run a final Validation and provide the results to <jurisdiction>.

<Jurisdiction> Responsibilities

<Jurisdiction> will be required to provide Intrado with GIS and 9-1-1 data for Intrado to perform the quoted GIS data analysis. <Jurisdiction> will be required to provide Intrado with the data necessary to perform the quoted GIS professional services.

Intrado Responsibilities

Intrado will perform the data analysis and assessment and communicate our findings to <jurisdiction>. Intrado will request the most current GIS data and provide a secure location to upload it.

Intrado GIS professionals will run Validations on the data, correct errors discovered through the validations, and edge match <jurisdiction> data to >adjacent jurisdictions> Centerline data. Hours to complete this will vary by PSAP. Following completion of these tasks, Intrado will run a final Validation on the updated GIS data and provide final Validation Reports to the <jurisdiction>.

Whereas, Intrado Life & Safety, Inc. submitted a proposal which contained various other Contract Documents; and

Whereas, the State and Intrado Life & Safety, Inc. have negotiated the final terms under which Intrado Life & Safety, Inc. will perform the Services under the Contract.

Now, therefore, in consideration of the foregoing and the mutual promises set forth herein, the receipt and sufficiency of which are hereby acknowledged the parties agree as follows:

1. Addendum Purpose.

This Addendum memorializes the agreement of the parties with respect to negotiated terms of the Contract that is being awarded to Intrado Life & Safety, Inc. as of even date with execution of this Addendum. The parties agree that Supplier has not yet begun performance of work contemplated by the Solicitation.

4. Intrado took exception to the Solicitation requirements G.1.1, requiring a signed of copy of the Hosting Agreement, which was later amended pursuant to Amendment Number two (2) of the Solicitation. Intrado and the State agree a signed of copy of the Hosting Agreement is required and is incorporated as Attachment A of this Addendum.
5. Intrado took exception to the Solicitation requirements G.2.1, requiring a completed Hosted Security Questionnaire, which was later amended pursuant to Amendment Number two (2) of the Solicitation. STATE OF OKLAHOMA CONTRACT WITH INTRADO
RESULTING FROM STATE-WIDE NUMBER SW 1177**

HOSTING AGREEMENT

This Hosting Agreement (“Hosting Agreement”) is a Contract Document in connection with the Contract issued as a result of Solicitation No.0900000417 (the “Contract”) and entered into between Intrado Life & Safety, Inc (“Vendor”) and the State of Oklahoma by and through the Office of Management and Enterprise Services (“State” or “Customer”), the terms of which are incorporated herein. This Hosting Agreement is applicable to any Customer Data stored or hosted by Vendor in connection with the Contract. Unless otherwise indicated herein, capitalized terms used in this Hosting Agreement without definition shall have the respective meanings specified in the Contract.

I. Definitions

- a. “Customer Data” shall mean all data supplied by or on behalf of Customer in connection with the Contract, excluding any confidential information of Vendor.
- b. “Data Breach” shall mean the unauthorized access by an unauthorized person that results in the access, use, disclosure or theft of Customer Data.
- c. “Non-Public Data” shall mean Customer Data, other than Personal Data, that is not subject to distribution to the public as public information. It is deemed to be sensitive and confidential by Customer because it contains information that is exempt by statute, ordinance or administrative rule from access by the general public as public information. Non-Public Data includes any data deemed confidential pursuant to the Contract, otherwise identified by Customer as Non-Public Data, or that a reasonable person would deem confidential.
- d. “Personal Data” shall mean Customer Data that contains 1) any combination of an individual’s name, social security numbers, driver’s license, state/federal identification number, account number, credit or debit card number and/or 2) contains electronic protected health information that is subject to the Health Insurance Portability and Accountability Act of 1996, as amended.
- e. “Security Incident” shall mean the attempted or successful unauthorized access, use, disclosure, modification, or destruction of information or interference with the hosted environment used to perform the services.

II. Customer Data

- a. Customer will be responsible for the accuracy and completeness of all Customer Data provided to Vendor by Customer. Customer shall retain exclusive ownership of all Customer Data. Non-Public Data and Personal Data shall be deemed to be Customer's confidential information. Vendor shall restrict access to Customer Data to their employees with a need to know (and advise such employees of the confidentiality and non-disclosure obligations assumed herein).
- b. Vendor shall promptly notify the Customer upon receipt of any requests from unauthorized third parties which in any way might reasonably require access to Customer Data or Customer's use of the hosted environment. Vendor shall notify the Customer by the fastest means available and also in writing pursuant to Contract notice provisions and the notice provision herein. Except to the extent required by law, Vendor shall not respond to subpoenas, service or process, FOIA requests, and other legal request related to Customer without first notifying the Customer and obtaining the Customer's prior approval, which shall not be unreasonably withheld, of Vendor's proposed responses. Vendor agrees to provide its completed responses to the Customer with adequate time for Customer review, revision and approval.
- c. Vendor will use commercially reasonable efforts to prevent the loss of or damage to Customer Data in its possession and will maintain commercially reasonable back-up procedures and copies to facilitate the reconstruction of any Customer Data that may be lost or damaged by Vendor. Vendor will promptly notify Customer of any loss, damage to, or unauthorized access of Customer Data. Vendor will use commercially reasonable efforts to reconstruct any Customer Data that has been lost or damaged by Vendor as a result of its negligence or willful misconduct. If Customer Data is lost or damaged for reasons other than as a result of Vendor's negligence or willful misconduct, Vendor, at the Customer's expense, will, at the request of the State, use commercially reasonable efforts to reconstruct any Customer Data lost or damaged.

III. Data Security

- a. Vendor will use commercially reasonable efforts, consistent with industry standards, to provide security for the hosted environment and Customer Data and to protect against both unauthorized access to the hosting environment, and unauthorized communications between the hosting environment and the Customer's browser. Vendor shall implement and maintain appropriate administrative, technical and organizational security measures to safeguard against unauthorized access, disclosure or theft of Personal Data and Non-Public Data. Such security measures shall be in accordance with recognized industry practice

and not less stringent than the measures the Vendor applies to its own personal data and non-public data of similar kind.

- b. All Personal Data and Non-public Data shall be encrypted at rest and in transit with controlled access. Unless otherwise stipulated, the Vendor is responsible for encryption of Personal Data.
- c. Vendor represents and warrants to the Customer that the hosting equipment will be routinely checked with a commercially available, industry standard software application with up-to-date virus definitions. Vendor will regularly update the virus definitions to ensure that the definitions are as up-to-date as is commercially reasonable. Vendor will promptly purge all viruses discovered during virus checks. If there is a reasonable basis to believe that a virus may have been transmitted to Customer by Vendor, Vendor will promptly notify Customer of such possibility in a writing that states the nature of the virus, the date on which transmission may have occurred, and the means Vendor has used to remediate the virus. Should the virus propagate to Customer's IT infrastructure, Vendor is responsible for costs incurred by Customer for Customer to remediate the virus.
- d. Vendor shall provide its services to Customer and its users solely from data centers in the U.S. Storage of Customer Data at rest shall be located solely in data centers in the U.S. Vendor shall not allow its personnel or contractors to store Customer Data on portable devices, including personal computers, except for devices that are used and kept only at its U.S. data centers. Vendor shall permit its personnel and contractors to access Customer Data remotely only as required to fulfill Vendor's obligations under the Contract.
- e. Vendor shall allow the Customer to audit conformance to the Contract terms. The Customer may perform this audit or contract with a third party at its discretion and at Customer's expense.
- f. Vendor shall perform an independent audit of its data centers at least annually at its expense, and provide a redacted version of the audit report upon request. Vendor may remove its proprietary information from the redacted version. A Service Organization Control (SOC) 2 audit report or approved equivalent sets the minimum level of a third-party audit.

IV. Security Assessment

- a. The State requires any entity or third-party vendor hosting Oklahoma Customer Data to submit to a State Certification and Accreditation Review process to assess initial security risk. Vendor submitted to the review and met the State's minimum security standards at time the Contract was executed. Failure to maintain the State's minimum security standards during the term of the Contract, including renewals, constitutes a material breach.
- b. To the extent Vendor requests a different sub-contractor than the third-party hosting vendor already approved by the State, the different sub-contractor is subject to the State's approval. Vendor agrees not to migrate State's data or otherwise utilize a different third-party hosting vendor in connection with key business functions that are Vendor's obligations under the Contract until the State approves the third-party hosting vendor's State Certification and Accreditation Review, which approval shall not be unreasonably withheld or delayed. In the event the third-party hosting vendor does not meet the State's requirements under the State Certification and Accreditation Review, Vendor acknowledges and agrees it may not utilize such third-party vendor in connection with key business functions that are Vendor's obligations under the Contract, until such third party meets such requirements.

V. Security Incident Notification and Responsibilities: Vendor shall inform Customer of any Security Incident or Data Breach

- a. Vendor may need to communicate with outside parties regarding a Security Incident, which may include contacting law enforcement, fielding media inquiries and seeking external expertise as mutually agreed upon, defined by law or contained in the Contract. If a Security Incident involves Customer Data, Vendor will coordinate with Customer prior to making any such communication.
- b. Vendor shall report a Security Incident to the Customer identified contact set forth herein within five (5) days of discovery of the Security Incident or within a shorter notice period required by applicable law or regulation (i.e. HIPAA requires notice to be provided within 24 hours).
- c. Vendor shall: (i) maintain processes and procedures to identify, respond to and analyze Security Incidents; (ii) make summary information regarding such procedures available to Customer at Customer's request, (iii) mitigate, to the extent practicable, harmful effects of Security Incidents that are known to Vendor; and (iv) documents all Security Incidents and their outcomes.

VI. Data Breach Notification and Responsibilities: This section only applies when a Data Breach occurs with respect to Personal Data or Non-Public Data within the possession or control of Vendor.

- a. Vendor, unless stipulated otherwise, shall promptly notify the Customer identified contact within 2 hours or sooner, unless shorter time is required by applicable law, if it confirms that there is, or reasonably believes that there has been a Data Breach. Vendor shall (1) cooperate with Customer as reasonably requested by Customer to investigate and resolve the Data Breach, (2) promptly implement necessary remedial measures, if necessary, and (3) document responsive actions taken related to the Data Breach, including any post-incident review of events and actions taken to make changes in business practices in providing the services, if necessary.
- b. Unless otherwise stipulated, if a Data Breach is a direct result of Vendor's breach of its obligation to encrypt Personal Data and Non-Public Data or otherwise prevent its release, Vendor shall bear the costs associated with (1) the investigation and resolution of the Data Breach; (2) notifications to individuals, regulators or others required by state law; (3) credit monitoring services required by state or federal law; (4) a website or toll-free numbers and call center for affected individuals required by state law – (2), (3) and (4) not to exceed the agency per record per person cost calculated for data breaches in the United States on the most recent Cost of Data Breach Study: Global Analysis published by the Ponemon Institute at the time of the Data Breach; and (5) complete all corrective actions as reasonably determined by Vendor based on root cause.
- c. If a Data Breach is a direct result of Vendor's breach of its obligations to encrypt Personal Data and Non-Public Data or otherwise prevent its release, Vendor shall indemnify and hold harmless the Customer against all penalties assessed to Indemnified Parties by governmental authorities in connection with the Data Breach.

- a. The product and services provided under this Hosting Agreement do not infringe a third party's patent or copyright or other intellectual property rights.
- b. Vendor will protect Customer's Non-Public Data and Personal Data from unauthorized dissemination and use with the same degree of care that each such party uses to protect its own confidential information and, in any event, will use no less than a reasonable degree of care in protecting such confidential information.
- c. The execution, delivery and performance of the Contract, the Hosting Agreement and any ancillary documents and the consummation of the transactions contemplated by the Contract or any ancillary documents by Vendor will not violate, conflict with, or result in a breach of any provision of, or constitute a default (or an event which, with notice or lapse of time or both, would constitute a default) under, or result in the termination of, any written contract or other instrument between Vendor and any third parties retained or utilized by Vendor to provide goods or services for the benefit of the Customer.
- d. Vendor shall not knowingly upload, store, post, e-mail or otherwise transmit, distribute, publish or disseminate to or through the Hosting Environment any material that contains software viruses, malware or other surreptitious code designed to interrupt, destroy or limit the functionality of any computer software or hardware or telecommunications equipment or circumvent any "copy-protected" devices, or any other harmful or disruptive program.

IX. Indemnity

- a. Vendor's Duty of Indemnification. Vendor agrees to indemnify and shall hold the State of Oklahoma and State, its officers, directors, employees, and agents harmless from all liabilities, claims, damages, losses, costs, expenses, demands, suits and

actions of third parties (including without limitation reasonable attorneys' fees) (collectively "Damages") (other than Damages that are the fault of Customer) arising from or in connection with Vendor's breach of its express representations and warranties or other obligations in this Hosting Agreement and the Contract. If a third party claims that any portion of the products or services provided by Vendor under the terms of the Contract or this Hosting Agreement infringes that party's patent or copyright, Vendor shall defend and indemnify the State of Oklahoma and Customer against the claim at Vendor's expense and pay all related costs, damages, and attorney's fees incurred by or assessed to, the State of Oklahoma and/or Customer. The State of Oklahoma and/or Customer shall promptly notify Vendor of any third party claims and to the extent authorized by the Attorney General of the State, allow Vendor to control the defense and any related settlement negotiations. If the Attorney General of the State of Oklahoma does not authorize sole control of the defense and settlement negotiations to Vendor, Vendor shall be granted authorization to equally participate in any proceeding related to this section but Vendor shall remain responsible to indemnify Customer and the State of Oklahoma for all associated costs, damages and fees incurred by or assessed to the State of Oklahoma and/or Customer. Should the software become, or in Vendor's opinion, be likely to become the subject of a claim or an injunction preventing its use as contemplated under this Hosting Agreement, Vendor may, at its option (i) procure for the State the right to continue using the software or (ii) replace or modify the software with a like or similar product so that it becomes non-infringing.

X. Termination and Suspension of Service:

- a. In the event of a termination of the Contract, Vendor shall implement an orderly return of Customer Data in a mutually agreeable format at a time agreed to by the parties and the subsequent secure disposal of Customer Data.
- b. During any period of service suspension, Vendor shall not take any action to intentionally erase any Customer Data.
- c. In the event of termination of any services or agreement in entirety, Vendor shall not take any action to intentionally erase any Customer Data for a period of:
 - i. 10 days after the effective date of termination, if the termination is in accordance with the contract period
 - ii. 30 days after the effective date of termination, if the termination is for convenience
 - iii. 60 days after the effective date of termination, if the termination is for cause

After such period, Vendor shall have no obligation to maintain or provide any Customer Data and shall thereafter, unless legally prohibited or otherwise stipulated, delete all Customer Data in its systems or otherwise in its possession or under its control.

- d. The State shall be entitled to any post termination assistance generally made available with respect to the services.
- e. Vendor shall securely dispose of all requested data in all of its forms, such as disk, CD/DVD, backup tape and paper, when requested by the Customer.
