

**STATE OF OKLAHOMA STATEWIDE CONTRACT WITH LINEV SYSTEMS US,
INC.**

This State of Oklahoma Statewide Contract 0243 for Security Screening Equipment & Services ("Contract") is entered into between the State of Oklahoma by and through the Office of Management and Enterprise Services ("State") and Linev Systems US, INC. ("Supplier") and is effective as of the date of last signature to this Contract. The initial term of the Contract shall be for one year with four (4) one-year options to renew.

Purpose

The State is awarding this Contract to Supplier for the provision of security screening equipment & services to all Oklahoma state agencies and interlocal entities, as more particularly described in certain Contract Documents. Supplier submitted additional terms. This Contract memorializes the agreement of the parties with respect to the negotiated terms of the Contract that is being awarded to Supplier.

Now, therefore, in consideration of the foregoing and the mutual promises set forth herein, the receipt and sufficiency of which are hereby acknowledged the parties agree as follows:

1. The parties agree that Supplier has not yet begun performance of work under this Contract. Issuance of a purchase order is required prior to payment to a Supplier.
2. The following Contract Documents are attached hereto and incorporated herein:
 - 2.1. Solicitation, Attachment A;
 - 2.2. Non-negotiable terms, Attachment A-1
 - 2.3. General Terms, Attachment B;
 - 2.4. Statewide Contract Terms, Attachment C;
 - 2.5. Reserved, Attachment D;
 - 2.6. Requirements, Attachment E-1;
 - 2.7. Pricing, Attachment E-2;
 - 2.8. Value Add, Attachment E-3;
 - 2.9. Additional Terms, Attachment E-4.
3. The parties additionally agree:

- 3.1. Except for information deemed confidential by the State pursuant to applicable law, rule, regulation or policy, the parties agree Contract terms and information are not confidential and are disclosable without further approval of or notice to Supplier.
- 3.2. To the extent any term or condition in any Contract Document, including via a hyperlink or uniform resource locator, conflicts with an applicable Oklahoma and/or United States law or regulation, such term or condition is void and unenforceable. By executing any Contract Document which contains a conflicting term or condition, the State or Customer makes no representation or warranty regarding the enforceability of such term or condition and the State or Customer does not waive the applicable Oklahoma and/or United States law or regulation which conflicts with the term or condition
4. Any reference to a Contract Document refers to such Contract Document as it may have been amended. If and to the extent any provision is in multiple documents and addresses the same or substantially the same subject matter but does not create an actual conflict, the more recent provision is deemed to supersede earlier versions.

ATTACHMENT A

Security Screening Equipment & Services

Solicitation No. EV00000487

Statewide Contract No. SW0243

This Solicitation is a Contract Document and is a request for proposal in connection with the Contract awarded by the Office of Management and Enterprise Services as more particularly described below. Any defined term used herein but not defined herein shall have the meaning ascribed in the General Terms or other Contract document.

Award of the Contract to a bidder is not a guarantee of being selected to provide products and services. The Purchasing Entity will directly negotiate the terms of a Statement of Work with a Supplier when a project is needed. If awarded a contract, the Supplier is responsible for keeping the State informed of personnel contact changes and is not responsible if the Supplier does not receive an invitation to bid on a Statement of Work. If any of the products or services are coming to an end-of-life, please provide an end date.

PURPOSE

The Oklahoma Office of Management and Enterprise Services (OMES) Central Purchasing Division is seeking responses from potential Suppliers to provide a contract for the purchase to provide Security Screening Equipment & Services to all Oklahoma state agencies and interlocal entities. The Contract is awarded as a Non- Mandatory Statewide contract.

SCOPE

OMES wishes to contract for various types of Security Screening Equipment & Services, this includes products, supplies, equipment, services, maintenance, and inspections etc.to ensure Oklahoma remains in compliance with various state and federal requirements.

1. Contract Term and Renewal Options:

- 1.1. The initial Contract term, which begins on the effective date of the Contract, is one year and there are (4) one-year options to renew the Contract.
- 1.2. Statewide Contracts are moving to an annual auto-renewal format, instead of manual renewals. No annual renewal notices will be supplied by the State. This does not change any substantive terms and conditions of the executed Contract or any previously executed Amendments. Should either party decline to renew the Contract, a written termination notice shall be sent at least 30 days prior to the end of the Contract term.

ATTACHMENT A

2. Contract Specifications

- 2.1. Certain Contract requirements and terms are attached hereto as Exhibit 1 and incorporated herein.

3. Solicitation Criterion:

3.1. The Bid will be evaluated using a best value criterion, based on the following:

- i. Technical response (Exhibit#1)
- ii. Price (Exhibit#2)

ATTACHMENT A-1

STATE OF OKLAHOMA LOCKDOWN GENERAL TERMS

This State of Oklahoma Lockdown General Terms (“Lockdown General Terms”) is a Contract in connection with a Contract awarded by the Office of Management and Enterprise Services on behalf of the State of Oklahoma. The terms contained in this document are not negotiable.

In addition to other terms contained in an applicable Contract document, Supplier and State agree to the following General Terms:

1 Scope and Contract Renewal

- 1.1** Supplier may not add products or services to its offerings under the Contract without the State’s prior written approval. Such request may require a competitive bid of the additional products or services. If the need arises for goods or services outside the scope of the Contract, Supplier shall contact the State.
- 1.2** At no time during the performance of the Contract shall the Supplier have the authority to obligate any Customer for payment for any products or services (a) when a corresponding encumbering document is not signed or (b) over and above an awarded Contract amount. Likewise, Supplier is not entitled to compensation for a product or service provided by or on behalf of Supplier that is neither requested nor accepted as satisfactory.
- 1.3** If applicable, prior to any Contract renewal, the State shall subjectively consider the value of the Contract to the State, the Supplier’s performance under the Contract, and shall review certain other factors, including but not limited to the: a) terms and conditions of Contract documents to determine validity with current State and other applicable statutes and rules; b) current pricing and discounts offered by Supplier; and c) current products, services and support offered by Supplier. If the State determines changes to the Contract are required as a condition precedent to renewal, the State and Supplier will cooperate in good faith to evidence such required changes in an Amendment. Further, any request for a price increase in connection with a renewal or otherwise will be conditioned on the Supplier providing appropriate documentation supporting the request.
- 1.4** Upon mutual agreement, the Parties may extend the Contract for ninety (90) days beyond a final renewal term. The Parties may to the extent allowable by law, choose to exercise subsequent ninety (90) day extensions.

- 1.5 Supplier understands that supplier registration expires annually and, pursuant to OAC 260:115-3-3, Supplier shall maintain its supplier registration with the State as a precondition to a renewal of the Contract.

2 Contract Effectiveness

- 2.1 Unless specifically agreed in writing otherwise, the Contract is effective upon the date last signed by the parties. Supplier shall not commence work, commit funds, incur costs, or in any way act to obligate the State until a proper purchase order has been issued.
- 2.2 Any Contract document shall be legibly written in ink or typed. All Contract transactions, and any Contract document related thereto, may be conducted by electronic means pursuant to the Oklahoma Uniform Electronic Transactions Act.

3 Modification of Contract Terms and Contract documents

- 3.1 The Contract may only be modified, amended, or expanded by an Amendment. Any change to the Contract, including the addition of work or materials, the revision of payment terms, or the substitution of work or materials made unilaterally by the Supplier, is a material breach of the Contract. Unless otherwise specified by applicable law or rules, such changes, including without limitation, any unauthorized written Contract modification, shall be void and without effect and the Supplier shall not be entitled to any claim under the Contract based on those changes. No oral statement of any person shall modify or otherwise affect the terms, conditions, or specifications stated in the Contract.
- 3.2 Any additional terms on an ordering document provided by Supplier are of no effect and are void unless mutually executed. OMES bears no liability for performance, payment or failure thereof by the Supplier or by a Customer other than OMES in connection with an Acquisition.
- 3.3 Except for information deemed confidential by the State pursuant to applicable law, rule, regulation, or policy, the parties agree Contract terms are not confidential and are disclosable without further approval of or notice to Supplier.
- 3.4 Unless mutually agreed to in writing by the State of Oklahoma by and through the Office of Management and Enterprise Services, no Contract document or other terms and conditions or clauses, including via a hyperlink or uniform resource locator, shall supersede or conflict with the terms of this

Contract or expand the State's or Customer's liability or reduce the rights of Customer or the State.

- 3.5** To the extent any term or condition in any Contract document, including via a hyperlink or uniform resource locator, conflicts with an applicable Oklahoma and/or United States law or regulation, such term or condition is void and unenforceable. By executing any Contract document which contains a conflicting term or condition, the State or Customer makes no representation or warranty regarding the enforceability of such term or condition and the State or Customer does not waive the applicable Oklahoma and/or United States law or regulation which conflicts with the term or condition.

4 Pricing

- 4.1** Pursuant to 68 O.S. §§ 1352, 1356, and 1404, State agencies are exempt from the assessment of State sales, use, and excise taxes. Further, State agencies and political subdivisions of the State are exempt from Federal Excise Taxes pursuant to Title 26 of the United States Code. Any taxes of any nature whatsoever payable by the Supplier shall not be reimbursed.
- 4.2** Pursuant to 74 O.S. §85.40, all travel expenses of Supplier must be included in the total Acquisition price.
- 4.3** The price of a product offered under the Contract shall include and Supplier shall prepay all shipping, packaging, delivery and handling fees. All product deliveries will be free on board Customer's Destination. No additional fees shall be charged by Supplier for standard shipping and handling. If Customer requests expedited or special delivery, Customer may be responsible for any charges for expedited or special delivery
- 4.4** Any product to be delivered pursuant to the Contract shall be subject to final inspection and acceptance by the Customer at Destination. The Customer assumes no responsibility for a product until accepted by the Customer. Title and risk of loss or damage to a product shall be the responsibility of the Supplier until accepted. The Supplier shall be responsible for filing, processing, and collecting any and all damage claims accruing prior to acceptance
- 4.5** Pursuant to OAC 260:115-9-1, payment for an Acquisition does not constitute final acceptance of the Acquisition. If subsequent inspection affirms that the Acquisition does not meet or exceed the specifications of the order or that the Acquisition has a latent defect, the Supplier shall be notified as soon as is

reasonably practicable. The Supplier shall retrieve and replace the Acquisition at Supplier's expense or, if unable to replace, shall issue a refund to Customer. Refund under this section shall not be an exclusive remedy.

5 Invoices and Payments

5.1 Supplier shall be paid upon submission of a proper invoice(s) at the prices stipulated in the Contract in accordance with 74 O.S. §85.44B which requires that payment be made only after products have been provided and accepted or services rendered and accepted. This section shall not prohibit the payment of membership dues or payment for subscriptions to magazines, periodicals or books or for payment to vendors providing subscription services under 74 O.S. 85.44B.

The following terms additionally apply:

- A.** An invoice shall contain the purchase order number, description of products or services provided and the dates of such provision.
- B.** Failure to provide a timely and proper invoice may result in delay of processing the invoice for payment. Proper invoice is defined at OAC 260:10-1-2.
- C.** Payment of all fees under the Contract shall be due NET 30 days, but shall not be deemed late until 45 days. Payment and interest on late payments are governed by 62 O.S. §34.72. Such interest is the sole and exclusive remedy for late payments by a State agency and no other late fees are authorized to be assessed pursuant to Oklahoma law.
- D.** The date from which an applicable early payment discount time is calculated shall be from the receipt date of a proper invoice. There is no obligation, however, to utilize an early payment discount.
- E.** If an overpayment or underpayment has been made to Supplier any subsequent payments to Supplier under the Contract may be adjusted to correct the account. A written explanation of the adjustment will be issued to Supplier.
- F.** If the Supplier accepts payment by Purchase Card they shall do so according to Oklahoma law.

6 Oklahoma Open Records Act

Supplier acknowledges that all State agencies and certain other Customers are subject to the Oklahoma Open Records Act set forth at 51 O.S. §24A-1 et seq. Supplier also

acknowledges that compliance with the Oklahoma Open Records Act and all opinions of the Oklahoma Attorney General concerning the Act is required. Customer may be provided access to Supplier Confidential Information. State agencies are subject to the Oklahoma Open Records Act and Supplier acknowledges information marked confidential information will be disclosed to the extent permitted under the Open Records Act and in accordance with this section. Nothing herein is intended to waive the State Purchasing Director's authority under OAC 260:115-3-9 in connection with Bid information requested to be held confidential by a Bidder. Notwithstanding the foregoing, Supplier Confidential Information shall not include information that: (i) is or becomes generally known or available by public disclosure, commercial use or otherwise and is not in contravention of this Contract; (ii) is known and has been reduced to tangible form by the receiving party before the time of disclosure for the first time under this Contract and without other obligations of confidentiality; (iii) is independently developed without the use of any of Supplier Confidential Information; (iv) is lawfully obtained from a third party (without any confidentiality obligation) who has the right to make such disclosure or (v) pricing provided to the State. In addition, the obligations in this section shall not apply to the extent that the applicable law or regulation requires disclosure of Supplier Confidential Information, provided that the Customer provides reasonable written notice, pursuant to Contract notice provisions, to the Supplier so that the Supplier may promptly seek a protective order or other appropriate remedy.

7 Conflict of Interest

In addition to any requirement of law or of a professional code of ethics or conduct, the Supplier, its employees are required to disclose any outside activity or interest that conflicts or may conflict with the best interest of the State. Prompt disclosure is required under this section if the activity or interest is related, directly or indirectly, to any person or entity currently under contract with or seeking to do business with the State, its employees or any other third-party individual or entity awarded a contract with the State. Further, as long as the Supplier has an obligation under the Contract, any plan, preparation or engagement in any such activity or interest shall not occur without prior written approval of the State. Any conflict of interest shall, at the sole discretion of the State, be grounds for partial or whole termination of the Contract.

8 State Shall Not Indemnify

The State of Oklahoma cannot lawfully agree to indemnify a private contractor. The credit of the State shall not be given, pledged, or loaned to any individual, company, corporation, or association, municipality, or political subdivision of the State pursuant to Oklahoma Constitution article 10, Section 15, OAC 260:115-7-32(k)(3)(A) and Attorney General Opinion 2012-18.

9 Indemnification Coordination of Defense

9.1 In connection with indemnification obligations under the Contract, when a State agency is a named defendant in any filed or threatened lawsuit, the defense of the State agency shall be coordinated by the Attorney General of Oklahoma, or the Attorney General may authorize the Supplier to control the defense and any related settlement negotiations; provided, however, Supplier shall not agree to any settlement of claims against the State without obtaining advance written concurrence from the Attorney General. If the Attorney General does not authorize sole control of the defense and settlement negotiations to Supplier, Supplier shall have authorization to equally participate in any proceeding related to the indemnity obligation under the Contract and shall remain responsible to indemnify the applicable Indemnified Parties.

10 Termination for Funding Insufficiency

10.1 Notwithstanding anything to the contrary in any Contract document, the State may terminate the Contract in whole or in part if funds sufficient to pay obligations under the Contract are not appropriated or received from an intended third-party funding source. In the event of such insufficiency, Supplier will be provided at least fifteen (15) calendar days' written notice of termination. Any partial termination of the Contract under this section shall not be construed as a waiver of, and shall not affect, the rights and obligations of any party regarding portions of the Contract that are not terminated. The determination by the State of insufficient funding shall be accepted by, and shall be final and binding on, the Supplier.

10.2 Upon receipt of notice of a termination, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to the effective date of termination, the termination does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract or for any damages or other amounts caused by or associated with such termination. Any amount paid to Supplier in the form of prepaid fees that are unused when the Contractor certain obligations are terminated shall be refunded.

10.3 The State's exercise of its right to terminate the Contract under this section shall not be considered a default or breach under the Contract or relieve the Supplier of any liability for claims arising under the Contract.

11 Suspension of Supplier

- 11.1** Supplier may be subject to Suspension without advance notice and may additionally be suspended from activities under the Contract if Supplier fails to comply with confidentiality, privacy, security, environmental or safety requirements applicable to Supplier's performance or obligations under the Contract.
- 11.2** Upon receipt of a notice pursuant to this section, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to receipt of notice by Supplier, the Suspension does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract during a period of Suspension or suspended activity or for any damages or other amounts caused by or associated with such Suspension or suspended activity. A right exercised under this section shall not be an exclusive remedy but shall be in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees attributable to a period of Suspension or suspended activity shall be refunded.
- 11.3** Such Suspension may be removed, or suspended activity may resume, at the earlier of such time as a formal notice is issued that authorizes the resumption of performance under the Contract or at such time as a purchase order or other appropriate encumbrance document is issued. This subsection is not intended to operate as an affirmative statement that such resumption will occur.

12 Certification Regarding Debarment, Suspension, and Other Responsibility Matters

The certification made by Supplier with respect to Debarment, Suspension, certain indictments, convictions, civil judgments and terminated public contracts is a material representation of fact upon which reliance was placed when entering into the Contract. A determination that Supplier knowingly rendered an erroneous certification, in

addition to other available remedies, may result in whole or partial termination of the Contract for Supplier's default. Additionally, Supplier shall promptly provide written notice to the State Purchasing Director if the certification becomes erroneous due to changed circumstances.

13 Certification Regarding State Employees Prohibition From Fulfilling Services

Pursuant to 74 O.S. § 85.42, the Supplier certifies that no person involved in any manner in development of the Contract employed by the State shall be employed to fulfill any services provided under the Contract.

14 Notices

All notices, approvals or requests allowed or required by the terms of any Contract shall be in writing, reference the Contract with specificity and deemed delivered upon receipt or upon refusal of the intended party to accept receipt of the notice. Notice information may be updated in writing to the other party as necessary.

In addition to other notice requirements in the Contract and the designated Supplier contact provided in a successful Bid, notices shall be sent to the State at the email address set forth below.

Notwithstanding any other provision of the Contract, confidentiality, breach and termination-related notices shall be delivered to the address below in addition to e-mail.

If sent to the State:

State Purchasing Director
2401 North Lincoln Blvd., Second Floor
Oklahoma City, Oklahoma 73105

With a copy, which shall not constitute notice, to:

Purchasing Division Deputy General Counsel
2401 North Lincoln Blvd., Second Floor
Oklahoma City, Oklahoma 73105

15 Miscellaneous

15.1 Choice of Law and Venue

Any claim, dispute, or litigation relating to the Contract documents, in the singular or in the aggregate, shall be governed by the laws of the State of Oklahoma without regard to application of choice of law principles. Pursuant to 74 O.S. §85.7(F), where Federal awards are involved, applicable federal laws, rules and regulations shall govern to the extent necessary to insure ensure compliance with the terms of the Federal award. Venue for any action, claim, dispute, or litigation relating in any way to the Contract documents, shall be in Oklahoma County, Oklahoma. The State expressly declines any terms that minimize its rights under Oklahoma Law, including but not limited to, Statutes of Limitations.

15.2 Employment Relationship

The Contract does not create an employment relationship. Individuals providing products or performing services pursuant to the Contract are not employees of the State or Customer and, accordingly are not eligible for any rights or benefits whatsoever accruing to such employees.

15.3 Failure to Enforce

Failure by the State or a Customer at any time to enforce a provision of, or exercise a right under, the Contract shall not be construed as a waiver of any such provision. Such failure to enforce or exercise shall not affect the validity of any Contract document, or any part thereof, or the right of the State or a Customer to enforce any provision of, or exercise any right under, the Contract at any time in accordance with its terms. Likewise, a waiver of a breach of any provision of a Contract document shall not affect or waive a subsequent breach of the same provision or a breach of any other provision in the Contract.

15.4 Invalid Term or Condition

To the extent any term or condition in the Contract conflicts with a compulsory applicable State or United States law or regulation, such Contract term or condition is void and unenforceable. By executing any Contract document which contains a conflicting term or condition, no representation or warranty is made regarding the enforceability of such term or condition. Likewise, any applicable State or federal law or regulation which conflicts with the Contract or any non-conflicting applicable State or federal law or regulation is not waived.

15.5 Severability

If any provision of a Contract document, or the application of any term or condition to any party or circumstances, is held invalid or unenforceable for any reason, the remaining provisions shall continue to be valid and enforceable and the application of such provision to other parties or circumstances shall remain valid and in full force and effect. If a court finds that any provision of this contract is invalid or unenforceable, but that by limiting such provision it would become valid and enforceable, then such provision shall be deemed to be written, construed, and enforced as so limited.

15.6 Section Headings

The headings used in any Contract document are for convenience only and do not constitute terms of the Contract.

15.7 Sovereign Immunity

Notwithstanding any provision in the Contract, the Contract is entered into subject to the State's Constitution, statutes, common law, regulations, and the doctrine of sovereign immunity, none of which are waived by the State nor any other right or defense available to the State; provided, however, that the parties hereby agree that the doctrine of sovereign immunity does not apply to actions grounded in contract and therefore does not prohibit Supplier from pursuing claims arising under the Contract against the State and Customers.

15.8 Survival

As applicable, performance under all license, subscription, service agreements, statements of work, transition plans and other similar Contract documents entered into between the parties under the terms of the Contract shall survive Contract expiration. Additionally, rights and obligations under the Contract which by their nature should survive including, without limitation, certain payment obligations invoiced prior to expiration or termination; confidentiality obligations; security incident and data breach obligations and indemnification obligations, remain in effect after expiration or termination of the Contract.

15.9 Gratuities

The Contract may be immediately terminated, in whole or in part, by written notice if it is determined that the Supplier, its authorized employee, agent, or another representative acting within the scope of their authority violated any federal, State or local law, rule or ordinance by offering or giving a gratuity to any State employee directly involved in the Contract. In addition, Suspension or Debarment of the Supplier may result from such a violation.

15.10 Import/Export Controls

Neither party will use, distribute, transfer or transmit any equipment, services, software or technical information provided under the Contract (even if incorporated into other products) except in compliance with all applicable import and export laws, conventions and regulations.

ATTACHMENT B

STATE OF OKLAHOMA GENERAL TERMS

This State of Oklahoma General Terms (“General Terms”) is a Contract document in connection with a Contract awarded by the Office of Management and Enterprise Services on behalf of the State of Oklahoma.

In addition to other terms contained in an applicable Contract document, Supplier and State agree to the following General Terms:

1 Contract Order of Priority

- 1.1** Contract documents shall be read to be consistent and complementary. Any conflict among the Contract documents shall be resolved by giving priority to Contract documents in the following order of precedence:
- A.** any Amendment;
 - B.** terms contained in this Contract document.
 - C.** any Contract-specific State terms contained in a Contract document including, without limitation, information technology terms and terms specific to a statewide Contract or a State agency Contract;
 - D.** any applicable Solicitation;
 - E.** any successful Bid as may be amended through negotiation and to the extent the Bid does not otherwise conflict with the Solicitation, Contract or applicable law;
 - F.** any statement of work, work order, or other mutually agreed Contract documents.
- 1.2** If there is a conflict between the terms contained in this Contract document or in Contract-specific terms and an agreement provided by or on behalf of Supplier including but not limited to linked or supplemental documents which alter or diminish the rights of Customer or the State, the conflicting terms provided by Supplier shall not take priority over this Contract document or Acquisition-specific terms. In no event will any linked document alter or override such referenced terms except as specifically agreed in an Amendment.

2 Definitions

In addition to any defined terms set forth elsewhere in the Contract, the Oklahoma Central Purchasing Act and the Oklahoma Administrative Code, Title 260, the parties agree that, when used in the Contract, the following terms are defined as set forth below and may be used in the singular or plural form:

- 2.1 **Acquisition** means items, products, materials, supplies, services and equipment acquired by purchase, lease purchase, lease with option to purchase, value provided or rental under the Contract.
- 2.2 **Amendment** means any mutually executed, written modification to a Contract document or a written change, addition, correction or revision to a Solicitation.
- 2.3 **Bid** means an offer a Bidder submits in response to the Solicitation.
- 2.4 **Bidder** means an individual or business entity that submits a Bid in response to the Solicitation.
- 2.5 **Contract** means the written, mutually agreed and binding legal relationship resulting from the Contract documents and an appropriate encumbering document as may be amended from time to time, which evidences the final agreement between the parties with respect to the subject matter of the Contract.
- 2.6 **Customer** means the entity receiving goods or services contemplated by the Contract.
- 2.7 **Debarment** means action taken by a debarring official under federal or state law or regulations to exclude any business entity from inclusion on the Supplier list; bidding; offering to bid; providing a quote; receiving an award of contract with the State and may also result in cancellation of existing contracts with the State.
- 2.8 **Destination** means delivered to the receiving dock or other point specified in the applicable Contract document.
- 2.9 **Federal award** means the Federal financial assistance that a recipient receives directly from a Federal awarding agency or indirectly from a pass-through entity
- 2.10 **Governmental Entity** means any governmental entity specified as a political subdivision of the State pursuant to the Governmental Tort Claim Act including any associated institution, instrumentality, board, commission, committee, department, or other entity designated to act on behalf of the state.

- 2.11 Indemnified Parties** means the State and Customer and/or its officers, directors, agents, employees, representatives, contractors, assignees and designees thereof.
- 2.12 Inspection** means examining and testing an Acquisition (including, when appropriate, raw materials, components, and intermediate assemblies) to determine whether the Acquisition meets Contract requirements.
- 2.13 Moral Rights** means any and all rights of paternity or integrity of the Work Product and the right to object to any modification, translation or use of the Work Product and any similar rights existing under the judicial or statutory law of any country in the world or under any treaty, regardless of whether or not such right is denominated or referred to as a moral right.
- 2.14 OAC** means the Oklahoma Administrative Code.
- 2.15 OMES** means the Office of Management and Enterprise Services.
- 2.16 Solicitation** means the document inviting Bids for the Acquisition referenced in the Contract and any amendments thereto.
- 2.17 State** means the government of the state of Oklahoma, its employees and authorized representatives, including without limitation any department, agency, or other unit of the government of the state of Oklahoma.
- 2.18 Supplier** means the Bidder with whom the State enters into the Contract awarded pursuant to the Solicitation or the business entity or individual that is a party to the Contract with the State.
- 2.19 Suspension** means action taken by a suspending official under federal or state law or regulations to suspend a Supplier from inclusion on the Supplier list; be eligible to submit Bids to State agencies and be awarded a contract by a State agency subject to the Central Purchasing Act.
- 2.20 Supplier Confidential Information** means certain confidential and proprietary information of Supplier that is clearly marked as confidential and agreed by the State Purchasing Director or Customer, as applicable, but does not include information excluded from confidentiality in provisions of the Contract or the Oklahoma Open Records Act.
- 2.21 Work Product** means any and all deliverables produced by Supplier under a statement of work or similar Contract document issued pursuant to this Contract, including any and all tangible or intangible items or things that have been or will be prepared, created, developed, invented or conceived at any time following the Contract effective date including but not limited to any (i) works

of authorship (such as manuals, instructions, printed material, graphics, artwork, images, illustrations, photographs, computer programs, computer software, scripts, object code, source code or other programming code, HTML code, flow charts, notes, outlines, lists, compilations, manuscripts, writings, pictorial materials, schematics, formulae, processes, algorithms, data, information, multimedia files, text web pages or web sites, other written or machine readable expression of such works fixed in any tangible media, and all other copyrightable works), (ii) trademarks, service marks, trade dress, trade names, logos, or other indicia of source or origin, (iii) ideas, designs, concepts, personality rights, methods, processes, techniques, apparatuses, inventions, formulas, discoveries, or improvements, including any patents, trade secrets and know-how, (iv) domain names, (v) any copies, and similar or derivative works to any of the foregoing, (vi) all documentation and materials related to any of the foregoing, (vii) all other goods, services or deliverables to be provided by or on behalf of Supplier under the Contract and (viii) all Intellectual Property Rights in any of the foregoing, and which are or were created, prepared, developed, invented or conceived for the use of benefit of Customer in connection with this Contract or with funds appropriated by or for Customer or Customer's benefit (a) by any Supplier personnel or Customer personnel or (b) any Customer personnel who then became personnel to Supplier or any of its affiliates or subcontractors, where, although creation or reduction-to-practice is completed while the person is affiliated with Supplier or its personnel, any portion of same was created, invented or conceived by such person while affiliated with Customer.

3 Additional Pricing

- 3.1** The price of a product offered under the Contract shall include and Supplier shall prepay all shipping, packaging, delivery and handling fees. All product deliveries will be free on board Customer's Destination. No additional fees shall be charged by Supplier for standard shipping and handling. If Customer requests expedited or special delivery, Customer may be responsible for any charges for expedited or special delivery.
- 3.2** Supplier shall have no right of setoff.
- 3.3** Because funds are typically dedicated to a particular fiscal year, an invoice will be paid only when timely submitted, which shall in no instance be later than six (6) months after the end of the fiscal year in which the goods are provided or services performed.

4 Ordering, Inspection, and Acceptance

- 4.1** Any product or service furnished under the Contract shall be ordered by issuance of a valid purchase order or other appropriate payment mechanism, including a pre-encumbrance, or by use of a valid Purchase Card. All orders and transactions are governed by the terms and conditions of the Contract. Any purchase order or other applicable payment mechanism dated prior to termination or expiration of the Contract shall be performed unless mutually agreed in writing otherwise.
- 4.2** Services will be performed in accordance with industry best practices and are subject to acceptance by the Customer. Notwithstanding any other provision in the Contract, deemed acceptance of a service or associated deliverable shall not apply automatically upon receipt of a deliverable or upon provision of a service.

Supplier warrants and represents that a product or deliverable furnished by or through the Supplier shall individually, and where specified by Supplier to perform as a system, be substantially uninterrupted and error-free in operation and guaranteed against faulty material and workmanship for a warranty period of the greater of ninety (90) days from the date of acceptance or the maximum allowed by the manufacturer. A defect in a product or deliverable furnished by or through the Supplier shall be repaired or replaced by Supplier at no additional cost or expense to the Customer if such defect occurs during the warranty period.

Any product to be delivered pursuant to the Contract shall be subject to final inspection and acceptance by the Customer at Destination. The Customer assumes no responsibility for a product until accepted by the Customer. Title and risk of loss or damage to a product shall be the responsibility of the Supplier until accepted. The Supplier shall be responsible for filing, processing, and collecting any and all damage claims accruing prior to acceptance.

Pursuant to OAC 260:115-9-1, payment for an Acquisition does not constitute final acceptance of the Acquisition. If subsequent inspection affirms that the Acquisition does not meet or exceed the specifications of the order or that the Acquisition has a latent defect, the Supplier shall be notified as soon as is reasonably practicable. The Supplier shall retrieve and replace the Acquisition at Supplier's expense or, if unable to replace, shall issue a refund to Customer. Refund under this section shall not be an exclusive remedy.

- 4.3 Supplier shall deliver products and services on or before the required date specified in a Contract document. Failure to deliver timely may result in liquidated damages as set forth in the applicable Contract document. Deviations, substitutions, or changes in a product or service, including changes of personnel directly providing services, shall not be made unless expressly authorized in writing by the Customer. Any substitution of personnel directly providing services shall be a person of comparable or greater skills, education and experience for performing the services as the person being replaced. Additionally, Supplier shall provide staff sufficiently experienced and able to perform with respect to any transitional services provided by Supplier in connection with termination or expiration of the Contract.
- 4.4 Product warranty and return policies and terms provided under any Contract document will not be more restrictive or more costly than warranty and return policies and terms for other similarly situated customers for a like product.

5 Maintenance of Insurance, Payment of Taxes, and Workers' Compensation

- 5.1 As a condition of this Contract, Supplier shall procure at its own expense, and provide proof of, insurance coverage with the applicable liability limits set forth below and any approved subcontractor of Supplier shall procure and provide proof of the same coverage. The required insurance shall be underwritten by an insurance carrier with an A.M. Best rating of A- or better.

Such proof of coverage shall additionally be provided to the Customer if services will be provided by any of Supplier's employees, agents or subcontractors at any Customer premises and/or employer vehicles will be used in connection with performance of Supplier's obligations under the Contract. Supplier may not commence performance hereunder until such proof has been provided. Additionally, Supplier shall ensure each insurance policy includes a notice of cancellation and includes the State and its agencies as certificate holder and shall promptly provide proof to the State of any renewals, additions, or changes to such insurance coverage. Supplier's obligation to maintain insurance coverage under the Contract is a continuing obligation until Supplier has no further obligation under the Contract. Any combination of primary and excess or umbrella insurance may be used to satisfy the limits of coverage for Commercial General Liability, Auto Liability and Employers' Liability. Unless agreed between the parties and approved by the State Purchasing Director, the minimum acceptable insurance limits of liability are as follows:

- A. Workers' Compensation and Employer's Liability Insurance in accordance with and to the extent required by applicable law;

- B.** Commercial General Liability Insurance covering the risks of personal injury, bodily injury (including death) and property damage, including coverage for contractual liability, with a limit of liability of not less than \$2,000,000 per occurrence;
- C.** Automobile Liability Insurance with limits of liability of not less than \$2,000,000 combined single limit each accident;
- D.** If the Supplier will access, process, or store state data, then Security and Privacy Liability insurance, including coverage for failure to protect confidential information and failure of the security of Supplier's computer systems that results in unauthorized access to Customer data with limits \$5,000,000 per occurrence; and
- E.** Additional coverage required in writing in connection with a particular Acquisition.

5.2 Supplier shall be entirely responsible during the existence of the Contract for the liability and payment of taxes payable by or assessed to Supplier or its employees, agents and subcontractors of whatever kind, in connection with the Contract. Supplier further agrees to comply with all state and federal laws applicable to any such persons, including laws regarding wages, taxes, insurance, and Workers' Compensation. Neither Customer nor the State shall be liable to the Supplier, its employees, agents, or others for the payment of taxes or the provision of unemployment insurance and/or Workers' Compensation or any benefit available to a State or Customer employee.

5.3 Supplier agrees to indemnify Customer, the State, and its employees, agents, representatives, contractors, and assignees for any and all liability, actions, claims, demands, or suits, and all related costs and expenses (including without limitation reasonable attorneys' fees and costs required to establish the right to indemnification) relating to tax liability, unemployment insurance and/or Workers' Compensation in connection with its performance under the Contract.

6 Compliance with Applicable Laws

6.1 As long as Supplier has an obligation under the terms of the Contract and in connection with performance of its obligations, the Supplier represents its present compliance, and shall have an ongoing obligation to comply, with all applicable federal, State, and local laws, rules, regulations, ordinances, and orders, as amended, including but not limited to the following:

- A.** Drug-Free Workplace Act of 1988 set forth at 41 U.S.C. §81.

- B.** Section 306 of the Clean Air Act, Section 508 of the Clean Water Act, Executive Order 11738, and Environmental Protection Agency Regulations which prohibit the use of facilities included on the EPA List of Violating Facilities under nonexempt federal contracts, grants or loans;
- C.** Prospective participant requirements set at 45 C.F.R. part 76 in connection with Debarment, Suspension and other responsibility matters;
- D.** 1964 Civil Rights Act, Title IX of the Education Amendment of 1972, Section 504 of the Rehabilitation Act of 1973, Americans with Disabilities Act of 1990, and Executive Orders 11246 and 11375;
- E.** Anti-Lobbying Law set forth at 31 U.S.C. §1325 and as implemented at 45 C.F.R. part 93;
- F.** Requirements of Internal Revenue Service Publication 1075 regarding use, access and disclosure of Federal Tax Information (as defined therein);
- G.** Obtaining certified independent audits conducted in accordance with Government Auditing Standards and Office of Management and Budget Uniform Guidance, 2 CFR 200 Subpart F §200.500 et seq. with approval and work paper examination rights of the applicable procuring entity;
- H.** Requirements of the Oklahoma Taxpayer and Citizen Protection Act of 2007, 25 O.S. §1312 and applicable federal immigration laws and regulations and be registered and participate in the Status Verification System. The Status Verification System is defined at 25 O.S. §1312, includes but is not limited to the free Employment Verification Program (E-Verify) through the Department of Homeland Security, and is available at www.dhs.gov/E-Verify;
- I.** Requirements of the Health Insurance Portability and Accountability Act of 1996; Health Information Technology for Economic and Clinical Health Act; Payment Card Industry Security Standards; Criminal Justice Information System Security Policy and Security Addendum; and Family Educational Rights and Privacy Act; and
- J.** Be registered as a business entity licensed to do business in the State, have obtained a sales tax permit, and be current on franchise tax payments to the State, as applicable.

- 6.2** The Supplier's employees, agents and subcontractors shall adhere to applicable Customer policies including, but not limited to acceptable use of Internet and electronic mail, facility and data security, press releases, and public relations. As applicable, the Supplier shall adhere to the State Information Security Policy, Procedures, Guidelines set forth at <http://www.dhs.gov/E-Verify>. Supplier is responsible for reviewing and relaying such policies covering the above to the Supplier's employees, agents and subcontractors.
- 6.3** At no additional cost to Customer, the Supplier shall maintain all applicable licenses and permits required in association with its obligations under the Contract.
- 6.4** In addition to compliance under subsection 6.1 above, Supplier shall have a continuing obligation to comply with applicable Customer-specific mandatory contract provisions required in connection with the receipt of federal funds or other funding source.
- 6.5** The Supplier is responsible to review and inform its employees, agents, and subcontractors who provide a product or perform a service under the Contract of the Supplier's obligations under the Contract and Supplier certifies that its employees and each such subcontractor shall comply with minimum requirements and applicable provisions of the Contract. At the request of the State, Supplier shall promptly provide adequate evidence that such persons are its employees, agents or approved subcontractors and have been informed of their obligations under the Contract.
- 6.6** As applicable, Supplier agrees to comply with the Governor's Executive Orders related to the use of any tobacco product, electronic cigarette or vaping device on any and all properties owned, leased, or contracted for use by the State, including but not limited to all buildings, land and vehicles owned, leased, or contracted for use by agencies or instrumentalities of the State.
- 6.7** The execution, delivery and performance of the Contract and any ancillary documents by Supplier will not, to the best of Supplier's knowledge, violate, conflict with, or result in a breach of any provision of, or constitute a default (or an event which, with notice or lapse of time or both, would constitute a default) under, or result in the termination of, any written contract or other instrument between Supplier and any third party.
- 6.8** Supplier represents that it has the ability to pay its debts when due and it does not anticipate the filing of a voluntary or involuntary bankruptcy petition or appointment of a receiver, liquidator or trustee.

- 6.9** Supplier represents that, to the best of its knowledge, any litigation or claim or any threat thereof involving Supplier has been disclosed in writing to the State and Supplier is not aware of any other litigation, claim or threat thereof.
- 6.10** If services provided by Supplier include delivery of an electronic communication, Supplier shall ensure such communication and any associated support documents are compliant with Section 508 of the Federal Rehabilitation Act and with State standards regarding accessibility. Should any communication or associated support documents be non-compliant, Supplier shall correct and re-deliver such communication immediately upon discovery or notice, at no additional cost to the State. Additionally, as part of compliance with accessibility requirements where documents are only provided in non-electronic format, Supplier shall promptly provide such communication and any associated support documents in an alternate format usable by individuals with disabilities upon request and at no additional cost, which may originate from an intended recipient or from the State.

7 Audits and Records Clause

- 7.1** As used in this clause and pursuant to 67 O.S. §203, “record” includes a document, book, paper, photograph, microfilm, computer tape, disk, record, sound recording, film recording, video record, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form.
- 7.2** Supplier agrees any pertinent federal or State agency or governing entity of a Customer shall have the right to examine and audit, at no additional cost to a Customer, all records relevant to the execution and performance of the Contract except, unless otherwise agreed, costs of Supplier that comprise pricing under the Contract.
- 7.3** The Supplier is required to retain records relative to the Contract for the duration of the Contract and for a period of seven (7) years following completion or termination of an Acquisition unless otherwise indicated in the Contract terms. If a claim, audit, litigation or other action involving such records is started before the end of the seven-year period, the records are required to be maintained for two (2) years from the date that all issues arising out of the action are resolved, or until the end of the seven (7) year retention period, whichever is later.
- 7.4** Pursuant to 74 O.S. §85.41, if professional services are provided hereunder, all items of the Supplier that relate to the professional services are subject to examination by the State agency, State Auditor and Inspector and the State Purchasing Director.

8 Confidentiality

- 8.1** The Supplier shall maintain strict security of all State and citizen data and records entrusted to it or to which the Supplier gains access, in accordance with and subject to applicable federal and State laws, rules, regulations, and policies and shall use any such data and records only as necessary for Supplier to perform its obligations under the Contract. The Supplier further agrees to evidence such confidentiality obligation in a separate writing if required under such applicable federal or State laws, rules and regulations. The Supplier warrants and represents that such information shall not be sold, assigned, conveyed, provided, released, disseminated or otherwise disclosed by Supplier, its employees, officers, directors, subsidiaries, affiliates, agents, representatives, assigns, subcontractors, independent contractors, successor or any other persons or entities without Customer's prior express written permission. Supplier shall instruct all such persons and entities that the confidential information shall not be disclosed or used without the Customer's prior express written approval except as necessary for Supplier to render services under the Contract. The Supplier further warrants that it has a tested and proven system in effect designed to protect all confidential information.
- 8.2** Supplier shall establish, maintain and enforce agreements with all such persons and entities that have access to State and citizen data and records to fulfill Supplier's duties and obligations under the Contract and to specifically prohibit any sale, assignment, conveyance, provision, release, dissemination or other disclosure of any State or citizen data or records except as required by law or allowed by written prior approval of the Customer.
- 8.3** Supplier shall immediately report to the Customer any and all unauthorized use, appropriation, sale, assignment, conveyance, provision, release, access, acquisition, disclosure or other dissemination of any State or citizen data or records of which it or its parent company, subsidiaries, affiliates, employees, officers, directors, assignees, agents, representatives, independent contractors, and subcontractors is aware or have knowledge or reasonable should have knowledge. The Supplier shall also promptly furnish to Customer full details of the unauthorized use, appropriation, sale, assignment, conveyance, provision, release, access, acquisition, disclosure or other dissemination, or attempt thereof, and use its best efforts to assist the Customer in investigating or preventing the reoccurrence of such event in the future. The Supplier shall cooperate with the Customer in connection with any litigation and investigation deemed necessary by the Customer to protect any State or citizen data and records and shall bear all costs associated with the investigation, response and recovery in connection with any breach of State or citizen data or records including but not limited to credit monitoring services with a term of

at least three (3) years, all notice-related costs and toll free telephone call center services.

- 8.4** Supplier further agrees to promptly prevent a reoccurrence of any unauthorized use, appropriation, sale, assignment, conveyance, provision, release, access, acquisition, disclosure or other dissemination of State or citizen data and records.
- 8.5** Supplier acknowledges that any improper use, appropriation, sale, assignment, conveyance, provision, release, access, acquisition, disclosure or other dissemination of any State data or records to others may cause immediate and irreparable harm to the Customer and certain beneficiaries and may violate state or federal laws and regulations. If the Supplier or its affiliates, parent company, subsidiaries, employees, officers, directors, assignees, agents, representatives, independent contractors, and subcontractors improperly use, appropriate, sell, assign, convey, provide, release, access, acquire, disclose or otherwise disseminate such confidential information to any person or entity in violation of the Contract, the Customer will immediately be entitled to injunctive relief and/or any other rights or remedies available under this Contract, at equity or pursuant to applicable statutory, regulatory, and common law without a cure period.
- 8.6** The Supplier shall immediately forward to the State Purchasing Director, and any other applicable person listed in the Notices section(s) of the Contract, any request by a third party for data or records in the possession of the Supplier or any subcontractor or to which the Supplier or subcontractor has access and Supplier shall fully cooperate with all efforts to protect the security and confidentiality of such data or records in response to a third party request.

9 Assignment and Permitted Subcontractors

- 9.1** Supplier's obligations under the Contract may not be assigned or transferred to any other person or entity without the prior written consent of the State which may be withheld at the State's sole discretion. Should Supplier assign its rights to payment, in whole or in part, under the Contract, Supplier shall provide the State and all affected Customers with written notice of the assignment. Such written notice shall be delivered timely and contain details sufficient for affected Customers to perform payment obligations without any delay caused by the assignment.
- 9.2** Notwithstanding the foregoing, the Contract may be assigned by Supplier to any corporation or other entity in connection with a merger, consolidation, sale of all equity interests of the Supplier, or a sale of all or substantially all of the assets of the Supplier to which the Contract relates. In any such case, said

corporation or other entity shall by operation of law or expressly in writing assume all obligations of the Supplier as fully as if it had been originally made a party to the Contract. Supplier shall give the State and all affected Customers prior written notice of said assignment. Any assignment or delegation in violation of this subsection shall be void.

- 9.3** If the Supplier is permitted to utilize subcontractors in support of the Contract, the Supplier shall remain solely responsible for its obligations under the terms of the Contract, for its actions and omissions and those of its agents, employees and subcontractors and for payments to such persons or entities. Prior to a subcontractor being utilized by the Supplier, the Supplier shall obtain written approval of the State of such subcontractor and each employee, as applicable to a particular Acquisition, of such subcontractor proposed for use by the Supplier. Such approval is within the sole discretion of the State. Any proposed subcontractor shall be identified by entity name, and by employee name, if required by the particular Acquisition, in the applicable proposal and shall include the nature of the services to be performed. As part of the approval request, the Supplier shall provide a copy of a written agreement executed by the Supplier and subcontractor setting forth that such subcontractor is bound by and agrees, as applicable, to perform the same covenants and be subject to the same conditions and make identical certifications to the same facts and criteria, as the Supplier under the terms of all applicable Contract documents. Supplier agrees that maintaining such agreement with any subcontractor and obtaining prior written approval by the State of any subcontractor and associated employees shall be a continuing obligation. The State further reserves the right to revoke approval of a subcontractor or an employee thereof in instances of poor performance, misconduct or for other similar reasons.
- 9.4** All payments under the Contract shall be made directly to the Supplier, except as provided in subsection A above regarding the Supplier's assignment of payment. No payment shall be made to the Supplier for performance by unapproved or disapproved employees of the Supplier or a subcontractor.
- 9.5** Rights and obligations of the State or a Customer under the terms of this Contract may be assigned or transferred, at no additional cost, to other Customer entities.

10 Background Checks and Criminal History Investigations

Prior to the commencement of any services, performance of background checks and criminal history investigations of the Supplier's employees and subcontractors who will be providing services may be required. If required, the Supplier agree to provide the State with a description of the background check process to include any vendor's

used to gather information. Supplier will further attest that each employee and subcontractor providing services has passed the back ground check. Supplier's access to facilities, data and information may be withheld prior to completion of background verification acceptable to the State. The costs of additional background checks beyond Supplier's normal hiring practices shall be the responsibility of the Customer unless such additional background checks are required solely because Supplier will not provide verification of results of its otherwise acceptable normal background checks; in such an instance, Supplier shall pay for the additional background checks. Supplier will coordinate with the State and its employees to complete the necessary background checks and criminal history investigations. Should any employee or subcontractor of the Supplier who will be providing services under the Contract not be acceptable as a result of the background check or criminal history investigation, the Customer may require replacement of the employee or subcontractor in question and, if no suitable replacement is made within a reasonable time, terminate the purchase order or other payment mechanism associated with the project or services.

11 Patents and Copyrights

Without exception, a product or deliverable price shall include all royalties or costs owed by the Supplier to any third party arising from the use of a patent, intellectual property, copyright or other property right held by such third party. Should any third party threaten or make a claim that any portion of a product or service provided by Supplier under the Contract infringes that party's patent, intellectual property, copyright or other property right, Supplier shall enable each affected Customer to legally continue to use, or modify for use, the portion of the product or service at issue or replace such potentially infringing product, or re-perform or redeliver in the case of a service, with at least a functional non-infringing equivalent. Supplier's duty under this section shall extend to include any other product or service rendered materially unusable as intended due to replacement or modification of the product or service at issue. If the Supplier determines that none of these alternatives are reasonably available, the State shall return such portion of the product or deliverable at issue to the Supplier, upon written request, in exchange for a refund of the price paid for such returned goods as well as a refund or reimbursement, if applicable, of the cost of any other product or deliverable rendered materially unusable as intended due to removal of the portion of product or deliverable at issue. Any remedy provided under this section is not an exclusive remedy and is not intended to operate as a waiver of legal or equitable remedies because of acceptance of relief provided by Supplier.

12 Indemnification

12.1 Acts or Omissions

- A.** Supplier shall defend and indemnify the Indemnified Parties, as applicable, for any and all liability, claims, damages, losses, costs, expenses, demands, suits and actions of third parties (including without limitation reasonable attorneys' fees and costs required to establish the right to indemnification) arising out of, or resulting from any action or claim for bodily injury, death, or property damage brought against any of the Indemnified parties to the extent arising from any negligent act or omission or willful misconduct of the Supplier or its agents, employees, or subcontractors in the execution or performance of the Contract.
- B.** To the extent Supplier is found liable for loss, damage, or destruction of any property of Customer due to negligence, misconduct, wrongful act, or omission on the part of the Supplier, its employees, agents, representatives, or subcontractors, the Supplier and Customer shall use best efforts to mutually negotiate an equitable settlement amount to repair or replace the property unless such loss, damage or destruction is of such a magnitude that repair or replacement is not a reasonable option. Such amount shall be invoiced to, and is payable by, Supplier sixty (60) calendar days after the date of Supplier's receipt of an invoice for the negotiated settlement amount.

12.2 Infringement

Supplier shall indemnify the Indemnified Parties, as applicable, for all liability, claims, damages, losses, costs, expenses, demands, suits and actions of third parties (including without limitation reasonable attorneys' fees and costs required to establish the right to indemnification) arising from or in connection with Supplier's breach of its representations and warranties in the Contract or alleged infringement of any patent, intellectual property, copyright or other property right in connection with a product or service provided under the Contract. Supplier's duty under this section is reduced to the extent a claimed infringement results from: (a) a Customer's or user's content; (b) modifications by Customer or third party to a product delivered under the Contract or combinations of the product with any non-Supplier-provided services or products unless Supplier recommended or participated in such modification or combination; (c) use of a product or service by Customer in violation of the Contract unless done so at the direction of Supplier, or (d) a non-Supplier product that has not been provided to the State by, through or on behalf of Supplier as opposed to its combination with products Supplier provides to or develops for the State or a Customer as a system.

12.3 Notice and Cooperation

In connection with indemnification obligations under the Contract, the parties agree to furnish prompt written notice to each other of any third-party claim. Any Customer affected by the claim will reasonably cooperate with Supplier and defense of the claim to the extent its interests are aligned with Supplier. Supplier shall use counsel reasonably experienced in the subject matter at issue and will not settle a claim without the written consent of the party being defended and where applicable the Attorney General of Oklahoma, which consent will not be unreasonably withheld or delayed, except that no consent will be required to settle a claim against Indemnified Parties that are not a State agency, where relief against the Indemnified Parties is limited to monetary damages that are paid by the defending party under indemnification provisions of the Contract.

12.4 Limitation of Liability

- A.** With respect to any claim or cause of action arising under or related to the Contract, neither the State nor any Customer shall be liable to Supplier for lost profits, lost sales or business expenditures, investments, or commitments in connection with any business, loss of any goodwill, or for any other indirect, incidental, punitive, special or consequential damages, even if advised of the possibility of such damages.
- B.** Notwithstanding anything to the contrary in the Contract, no provision shall limit damages, expenses, costs, actions, claims, and liabilities arising from or related to property damage, bodily injury or death caused by Supplier or its employees, agents or subcontractors; indemnity, security or confidentiality obligations under the Contract; the bad faith, negligence, intentional misconduct or other acts for which applicable law does not allow exemption from liability of Supplier or its employees, agents or subcontractors.
- C.** The limitation of liability and disclaimers set forth in the Contract will apply regardless of whether Customer has accepted a product or service. The parties agree that Supplier has set its fees and entered into the Contract in reliance on the disclaimers and limitations set forth herein, that the same reflect an allocation of risk between the parties and form an essential basis of the bargain between the parties. These limitations shall apply notwithstanding any failure of essential purpose of any limited remedy.

13 Termination for Cause

- 13.1** Supplier may terminate the Contract if (i) it has provided the State with written notice of material breach and (ii) the State fails to cure such material breach within thirty (30) days of receipt of written notice. If there is more than one Customer, material breach by a Customer does not give rise to a claim of material breach as grounds for termination by Supplier of the Contract as a whole. The State may terminate the Contract in whole or in part if (i) it has provided Supplier with written notice of material breach, and (ii) Supplier fails to cure such material breach within thirty (30) days of receipt of written notice. Any partial termination of the Contract under this section shall not be construed as a waiver of, and shall not affect, the rights and obligations of any party regarding portions of the Contract that are not terminated.
- 13.2** The State may terminate the Contract in whole or in part immediately without a thirty (30) day written notice to Supplier if (i) Supplier fails to comply with confidentiality, privacy, security, environmental or safety requirements applicable to Supplier's performance or obligations under the Contract; (ii) Supplier's material breach is reasonably determined to be an impediment to the function of the State and detrimental to the State or to cause a condition precluding the thirty (30) day notice or (iii) when the State determines that an administrative error in connection with award of the Contract occurred prior to Contract performance.
- 13.3** Upon receipt of notice of a termination, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to the effective date of termination, the termination does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract or for any damages or other amounts caused by or associated with such termination. Such termination is not an exclusive remedy but is in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees that are unused when the Contract or certain obligations are terminated shall be refunded. Termination of the Contract under this section, in whole or in part, shall not relieve the Supplier of liability for claims arising under the Contract.
- 13.4** The Supplier's repeated failure to provide an acceptable product or service; Supplier's unilateral revision of linked or supplemental terms that have a materially adverse impact on a Customer's rights or obligations under the Contract (except as required by a governmental authority); actual or anticipated failure of Supplier to perform its obligations under the Contract; Supplier's inability to pay its debts when due; assignment for the benefit of Supplier's

creditors; or voluntary or involuntary appointment of a receiver or filing of bankruptcy of Supplier shall constitute a material breach of the Supplier's obligations, which may result in partial or whole termination of the Contract. This subsection is not intended as an exhaustive list of material breach conditions. Termination may also result from other instances of failure to adhere to the Contract provisions and for other reasons provided for by applicable law, rules or regulations; without limitation, OAC 260:115-9-1 is an example.

14 Termination for Convenience

- 14.1** The State may terminate the Contract, in whole or in part, for convenience if it is determined that termination is in the State's best interest. In the event of a termination for convenience, Supplier will be provided at least thirty (30) days' written notice of termination. Any partial termination of the Contract shall not be construed as a waiver of, and shall not affect, the rights and obligations of any party regarding portions of the Contract that remain in effect.
- 14.2** Upon receipt of notice of such termination, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to the effective date of termination, the termination does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract or for any damages or other amounts caused by or associated with such termination. Such termination shall not be an exclusive remedy but shall be in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees that are unused when the Contract or certain obligations are terminated shall be refunded. Termination of the Contract under this section, in whole or in part, shall not relieve the Supplier of liability for claims arising under the Contract.

15 Suspension of Supplier

- 15.1** Supplier may be subject to Suspension without advance notice and may additionally be suspended from activities under the Contract if Supplier fails to comply with confidentiality, privacy, security, environmental or safety requirements applicable to Supplier's performance or obligations under the Contract.
- 15.2** Upon receipt of a notice pursuant to this section, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the

incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to receipt of notice by Supplier, the Suspension does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract during a period of Suspension or suspended activity or for any damages or other amounts caused by or associated with such Suspension or suspended activity. A right exercised under this section shall not be an exclusive remedy but shall be in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees attributable to a period of Suspension or suspended activity shall be refunded.

- 15.3** Such Suspension may be removed, or suspended activity may resume, at the earlier of such time as a formal notice is issued that authorizes the resumption of performance under the Contract or at such time as a purchase order or other appropriate encumbrance document is issued. This subsection is not intended to operate as an affirmative statement that such resumption will occur.

16 Certification Regarding State Employees Prohibition From Fulfilling Services

Pursuant to 74 O.S. § 85.42, the Supplier certifies that no person involved in any manner in development of the Contract employed by the State shall be employed to fulfill any services provided under the Contract.

17 Force Majeure

- 17.1** Either party shall be temporarily excused from performance to the extent delayed as a result of unforeseen causes beyond its reasonable control including fire or other similar casualty, act of God, strike or labor dispute, war or other violence, or any law, order or requirement of any governmental agency or authority provided the party experiencing the force majeure event has prudently and promptly acted to take any and all steps within the party's control to ensure continued performance and to shorten duration of the event. If a party's performance of its obligations is materially hindered as a result of a force majeure event, such party shall promptly notify the other party of its best reasonable assessment of the nature and duration of the force majeure event and steps it is taking, and plans to take, to mitigate the effects of the force majeure event. The party shall use commercially reasonable best efforts to continue performance to the extent possible during such event and resume full performance as soon as reasonably practicable.

- 17.2** Subject to the conditions set forth above, non-performance as a result of a force majeure event shall not be deemed a default. However, a purchase order or other payment mechanism may be terminated if Supplier cannot cause delivery

of a product or service in a timely manner to meet the business needs of Customer. Supplier is not entitled to payment for products or services not received and, therefore, amounts payable to Supplier during the force majeure event shall be equitably adjusted downward.

- 17.3** Notwithstanding the foregoing or any other provision in the Contract, (i) the following are not a force majeure event under the Contract: (a) shutdowns, disruptions or malfunctions in Supplier's system or any of Supplier's telecommunication or internet services other than as a result of general and widespread internet or telecommunications failures that are not limited to Supplier's systems or (b) the delay or failure of Supplier or subcontractor personnel to perform any obligation of Supplier hereunder unless such delay or failure to perform is itself by reason of a force majeure event and (ii) no force majeure event modifies or excuses Supplier's obligations related to confidentiality, indemnification, data security or breach notification obligations set forth herein.

18 Security of Property and Personnel

In connection with Supplier's performance under the Contract, Supplier may have access to Customer personnel, premises, data, records, equipment and other property. Supplier shall use commercially reasonable best efforts to preserve the safety and security of such personnel, premises, data, records, equipment, and other property of Customer. Supplier shall be responsible for damage to such property to the extent such damage is caused by its employees or subcontractors and shall be responsible for loss of Customer property in its possession, regardless of cause. If Supplier fails to comply with Customer's security requirements, Supplier is subject to immediate suspension of work as well as termination of the associated purchase order or other payment mechanism.

19 Miscellaneous

19.1 Transition Services

If transition services are needed at the time of Contract expiration or termination, Supplier shall provide such services on a month-to-month basis, at the contract rate or other mutually agreed rate. Supplier shall provide a proposed transition plan, upon request, and cooperate with any successor supplier and with establishing a mutually agreeable transition plan. Failure to cooperate may be documented as poor performance of Supplier.

19.2 Publicity

The existence of the Contract or any Acquisition is in no way an endorsement of Supplier, the products or services and shall not be so construed by Supplier in any advertising or publicity materials. Supplier agrees to submit to the State all advertising, sales, promotion, and other publicity matters relating to the Contract wherein the name of the State or any Customer is mentioned or language used from which, in the State's judgment, an endorsement may be inferred or implied. Supplier further agrees not to publish or use such advertising, sales promotion, or publicity matter or release any informational pamphlets, notices, press releases, research reports, or similar public notices concerning the Contract or any Acquisition hereunder without obtaining the prior written approval of the State.

19.3 Mutual Responsibilities

- A.** No party to the Contract grants the other the right to use any trademarks, trade names, other designations in any promotion or publication without the express written consent by the other party.
- B.** The Contract is a non-exclusive contract and each party is free to enter into similar agreements with others.
- C.** The Customer and Supplier each grant the other only the licenses and rights specified in the Contract and all other rights and interests are expressly reserved.
- D.** The Customer and Supplier shall reasonably cooperate with each other and any Supplier to which the provision of a product and/or service under the Contract may be transitioned after termination or expiration of the Contract.
- E.** Except as otherwise set forth herein, where approval, acceptance, consent, or similar action by a party is required under the Contract, such action shall not be unreasonably delayed or withheld.

19.4 Entire Agreement

The Contract documents taken together as a whole constitute the entire agreement between the parties. The Contract documents include this Contract, any Amendments to this Contract, applicable Solicitation, and any successful bid as may be amended or limited through negotiation. No statement, promise, condition, understanding, inducement or representation, oral or written, expressed or implied, which is not contained in a Contract document shall be binding or valid. The Supplier's certifications, including any completed electronically, are incorporated by reference into the Contract.

ATTACHMENT C

OKLAHOMA STATEWIDE CONTRACT TERMS

1. Statewide Contract Type

- 1.1** The Contract is a non-mandatory statewide contract for use by State agencies. Additionally, the Contract may be used by any governmental entity specified as a political subdivision of the State pursuant to the Governmental Tort Claims Act including any associated institution, instrumentality, board, commission, committee, department or other entity designated to act on behalf of the political subdivision; a state, county or local governmental entity in its state of origin; and entities authorized to utilize contracts by the State via a multistate or multigovernmental contract.
- 1.2** The Contract is a firm, fixed price contract for indefinite delivery and quantity for the Acquisitions available under the Contract.

2. Orders and Amendments

- 2.1** Unless mutually agreed in writing otherwise, orders shall be placed directly with the Supplier by issuance of written purchase orders or by Purchase Card by state agencies and other authorized entities. All orders are subject to the Contract terms and any order dated prior to Contract expiration shall be performed. Delivery to multiple destinations may be required.
- 2.2** Any ordering document shall be effective between Supplier and the Customer only and shall not be an Amendment to the Contract in its entirety or apply to any Acquisition by another Customer.
- 2.3** Additional terms added to a Contract Document by a Customer shall be effective if the additional terms do not conflict with the General Terms and are acceptable to Supplier. However, an Amendment to the Contract shall be signed by the State Purchasing Director or designee. Regarding information technology and telecommunications contracts, pursuant to 62 O.S., §34.11.1, the Chief Information Officer acts as the Information Technology and Telecommunications Purchasing Director.

3. Termination

All terms in this Contract relating to termination flow through to the Customer. A customer may terminate for funding insufficiency, cause or convenience any order or agreement made pursuant to this Contract. The termination must be done according to terms set forth in this Contract.

4. No Guarantee of Products or Services Required

The State shall not guarantee any minimum or maximum amount of Supplier products or services required under the Contract.

5. Contract Management Fee and Usage Report

5.1 Pursuant to 74 O.S. § 85.33A, the State assesses a contract management fee on all transactions under a statewide contract. The payment of such fee will be calculated for all transactions, net of returns and the Supplier has no right of setoff against such fee regardless of the payment status of any Customer or any aggregate accounts receivable percentage. Supplier acknowledges and agrees that all prices quoted under any statewide contract shall include the contract management fee and the contract management fee shall not be reflected as a separate line item in Supplier's billing. The State reserves the right to change this fee upward or downward upon sixty (60) calendar days' written notice to Supplier without further requirement for an Amendment.

5.2 While Supplier is the awardee of a statewide contract, transactions that occur under the terms of the statewide contract are subject to a one percent (1%) contract management fee to be paid by Supplier. Supplier shall submit a Contract Usage Report on a quarterly basis for each contract using a form provided by the State and such report shall include applicable information for each transaction. Reports shall include usage of the statewide contract by every Customer during the applicable quarter. A singular report provided late will not be considered a breach of the statewide contract; provided, however, repeated failure to submit accurate quarterly usage reports and submit timely payments may result in suspension or termination, in whole or in part, of the Contract.

5.3 All Contract Usage Reports shall meet the following criteria:

- i. Electronic submission in Microsoft Excel format to strategic.sourcing@omes.ok.gov;

- ii. Quarterly submission regardless of whether there were transactions under the Contract during the applicable quarterly reporting period;
- iii. Submission no later than forty-five (45) days following the end of each calendar quarter;
- iv. Contract quarterly reporting periods shall be as follows:
 - a. January 01 through March 31;
 - b. April 01 through June 30;
 - c. July 01 through September 30; and
 - d. October 01 through December 31.
 - e. Reports must include the following information:
 - f. Procuring entity;
 - g. Order date;
 - h. Purchase Order number or note that the transaction was paid by Purchase Card;
 - i. City in which products or services were received or specific office or subdivision title;
 - j. Product manufacturer or type of service;
 - k. Manufacturer item number, if applicable;
 - l. Product description;
 - m. General product category, if applicable;
 - n. Quantity;
 - o. Unit list price or MSRP, as applicable;
 - p. Unit price charged to the purchasing entity; and
 - q. Other Contract usage information requested by the State.

- 5.4** Payment of the contract management fee shall be delivered to the address below, or by setting up ACH. Payments must be received within forty-five (45) calendar days after the end of each quarterly reporting period.

Office of Management and Enterprise Services
P.O. Box 248984
Oklahoma City, Oklahoma 73124-8984

To ensure payment is properly accounted for, Supplier shall provide the following information with payment: (i) reference to the applicable Contract Usage Report and quarterly reporting period and (ii) the applicable statewide contract number(s) and the amount of the contract management fee being paid for each contract number.

ATTACHMENT D

Technical Proposal

BV 160180DV-200

X-RAY DUAL-VIEW BAGGAGE INSPECTION SYSTEM

Document Index: 186-200-1221-1EN

* In connection with the continuous development of products, LINEV Systems reserves the right to make changes to the design and specifications at any time and without prior notice.

TABLE OF CONTENTS

1. INTENDED USE	20
2. KEY FEATURES	20
3. GENERAL SPECIFICATIONS	23
4. FUNCTIONS	25
5. OPTIONS	27
6. ACCESSORIES	27
7. CERTIFICATES AND STANDARDS	28
8. RADIATION SAFETY	29

1. INTENDED USE

The **BV 160180DV-200** is a high-resolution, dual view X-ray baggage inspection system with the ability to automatically detect prohibited objects and threats.

The dual-view system means that the operator can simultaneously view two separate images (in perpendicular orientation), thus giving a more complete view of the object being scanned and reducing the need for repositioning and rescanning. This enables rapid, accurate and comprehensive threat detection.

The tunnel with a width of 1625 mm and a height of 1820 mm is optimal for inspection of oversize baggage, cargo and other items. The System may be used at inspection points of critical infrastructure facilities, airports, customs, border guards, and other places where reliable and uninterrupted operation of inspection systems is required.

The **BV 160180DV-200** enables the identification of weapons, explosives, drugs and any other dangerous or prohibited items. Unique color palettes and touch control provide an exceptional level of operator efficiency.

2. KEY FEATURES

Dual-view technology	The operator gets two X-ray images of a scanned object, which helps with threat detection and means there is no need to reposition the screened object or to carry out secondary screening.
Large tunnel	The size of the BV 180180DV 's tunnel means that it can scan air transport containers and cargo within pallets.
Increased load capacity	The robust chain-driven rollers mean that the conveyor can take a spread load of 3000 kg.
The automatic identification of suspicious objects (drugs, explosives)	Algorithms used in the software enable the automatic highlighting of objects such as weapons (turquoise frame), explosives (red frame) and narcotics (green frame), as well as opaque areas (yellow frame) where dangerous objects could be concealed. These functions improve operating efficiency.

Sample Images with Suspicious Objects Highlighting.

Availability of 7, 3 color and infinite color palettes of images

The operator always has a choice: to use the usual 3-color layout (organic / inorganic / metals) or a more detailed 7-color layout, which makes it possible to identify materials more accurately by their effective atomic number. The new colours maintain the operator's attention without overwhelming the operator for extended periods of time.

This improves the quality of operators' work and the throughput of security checkpoints.

Infinite palette - Improved colorscheme for various materials on X-ray images. Clear, previously unattainable visibility and recognition of objects, even with complex overlays and varying thicknesses of objects, using gradients and without color noise.

The fault-tolerant configuration of the acquisition/analysis workstation

The special configuration of the operator's workstation makes its software resistant to viruses and other harmful interference.

Quick start-up and shutdown

The System requires not more than 60 seconds to be ready for operation. System shutdown occurs instantly and is absolutely safe for equipment and data.

Real-time self-diagnostics

The status of all important units and components is monitored in real time, which allows maintaining the System operability and promptly informing the operator about changes.

Description of image color palettes

Material	Eff. at. No.	3 colours	7 colours	Infinite palette	Example	Potential threats
Light organic	1-6	Bronze	Red		Polyethylene, light hydrocarbons	Natural gas, Gasoline
Organic	6-8	Bronze	Bronze		Timber, oil	Explosives
Low Density Organic	8-10	Bronze	Olive		Paper, Alcohol	Drugs
Mixed materials	10-12	Green	Lime		Glass	Jewelry, precious stones
Light metals	12-18	Green	Green		Aluminum, Silicon	Gunpowder, detonators
Heavy metals	18-30	Blue	Blue		Steel	Weapons, ammunition, knives
Dense Metals	30+	Blue	Purple		Gold, Silver	Contraband
Impermeable materials	–	Black	Black		Lead	Masking of hazardous objects

Samples of X-ray Images

3. GENERAL SPECIFICATIONS

DIMENSIONS

<p>Tunnel dimensions</p> <ul style="list-style-type: none"> - Width - Height 	<p>1625 mm [63.9 in]</p> <p>1820 mm [71.6 in]</p>
<p>Overall dimensions (maximum)</p>	

- Width	3000 mm [118.1 in]
- Height	3000 mm [118.1 in]
- Length	7500 mm [295.2 in]

CONVEYOR

Maximum distributed load on the conveyor	3000 kg [6614 lbs]
Conveyor height	350 mm [13.7 in]
Conveyor speed	0.22±0.03 m/s [43.3 ft/min]
Noise level no more	< 75 dB(A)

X-RAY SOURCE

Anode voltage	200 kV
Beam direction	Diagonally downward and diagonally sideward
Cooling system	Sealed oil bath with forced air

X-RAY DETECTOR

Type	2x L-shaped array
Grey levels	65 536
*Wire detectability (minimum diameter of copper wire)	34 AWG
*Steel penetration	45 mm typical
Visible contrast levels (minimum)	24

* To obtain the best image, the test object kit LINEV LINEV must be placed in an optimal location and the image enhancement function must be used.

OPERATOR'S AWS PARAMETERS

Processor	At least 2.5 GHz, 4 cores, 8 MB L3
Storage device	Failsafe SSD 240 GB or higher
RAM	DDR4, 16 GB or higher

Display and control	2x LCD monitors not less than 23.6" (1920 x 1080) with Control Panel or 2x LCD touchscreen monitors 23.8" (1920 x 1080) with Control Box.
Operating system	MS Windows 10 IoT, the fault-tolerant configuration

POWER SUPPLY

Circuit type	Single-phase with ground
Line voltage	230 VAC \pm 10%
Line frequency	50/60 Hz
Power consumption	Up to 7.5 kVA

ENVIRONMENTAL REQUIREMENTS

For operation:	
- ambient temperature	0 °C to +40 °C
- atmospheric pressure, kPa (mm Hg)	84.0 - 106.7 (630–800)
- relative humidity (at + 20 °C)	up to 90%, non-condensing
For transportation:	
- ambient temperature	-20 °C to +50 °C
For storage:	
- ambient temperature	-10 °C to +50 °C
- relative humidity (at + 35 °C)	up to 98%, non-condensing

4. FUNCTIONS

4.1. Control functions:

- Automatic selection of suspicious objects (such as explosives, drugs, Impenetrable areas) using Z_{eff} and optical density
- Secure login
- Multi-level user access with the ability to administer users, roles and access level
- Viewing X-ray images from a previous session

- Quick view of the last 10 images (configurable parameter)
- Bi-directional scanning
- Modes of operation: scanning with a stop of the conveyor after each object or with the possibility of returning the object after scanning
- Automatic diagnostics of the System and individual units performance
- Automatic warming up of the X-ray generator during prolonged idle time (no warming up is required during daily operation of the System)
- Automatic storage of X-ray images in the archive
- Baggage counter
- Display of date and time, unit serial number and operator ID
- Multilingual interface
- Possibility of choice by the operator of 3, 7-color or infinite color palette
- Display of software version and serial number of the System
- Display of user login time and duration of the current session
- Display of the total operating time of the System
- Display of connection status, current temperature and total operating time of the X-ray source
- Visualization of safety interlocks operation
- Display of the status of optical sensors
- Formation of service reports of the System
- Three programmable keys (as part of the Control Panel KHTP)

4.2. X-ray Images:

- Inversion of colours
- Black and white display mode
- Edge enhancement
- Display only organics and inorganics
- Display only metals, inorganics and metals
- Adjustable gamma correction
- Adjustable brightness
- Contrast optimization
- Display organic objects with atomic numbers Z7, Z8, Z9
- Display of substances with atomic numbers from the selected range
- Display of substances in accordance with the selected range of optical density
- Zooming in on images up to 96x
- View archive images
- Ability to save images to external media (flash drives) in proprietary format or JPEG
- Ability to print X-ray images

4.3. Network functionality and integration:

- Ability to convert X-ray images to .png format via a local network.
- Possibility to link passport and other data of inspected persons to X-ray images:
 - Software support for working with passport readers;
 - Automatic data recognition and auto-filling of the registration window fields;
 - Link several X-ray images of baggage to one inspected person in the database;
 - View and analyze images and registration data from the database.
- Monitoring of events and the status of X-ray Systems via the local network using the BAGVISION Monitor software:
 - Display of a list of Systems and their current status (offline, online);
 - Display of the current operator, the number of scans and the log of operations;
 - Display of System actions at the current time (warming up, scanning, waiting, error);
 - Display of the last acquired image.

5. OPTIONS

- Touchscreen operation functionality
- Ability to connect to a local network
- Remote operator position (up to 25 m)

6. ACCESSORIES

- Operator's desk with chair
- Operator's workstation stand
- Test objects kit

7. CERTIFICATES AND STANDARDS

ISO 9001:2015 certified

8. RADIATION SAFETY

The design of the system provides radiation leakage attenuation limited to 1.0 $\mu\text{Sv/hr}$ (0.1 mR/hr) or lower at any accessible point at the distance of 0.1 m from the external surface of the system. The dose rate intensity at the workstations of the personnel does not exceed 1.0 $\mu\text{Sv/hr}$.

To comply with X-ray safety requirements, the System must be placed on a horizontal surface. The slope should not exceed 3°.

TECHNICAL PROPOSAL

BV 6045DV

X-RAY DUAL-VIEW BAGGAGE INSPECTION SYSTEM

Document Index: 140-0918-1EN

7. RADIATION SAFETY
8. WARRANTY TERMS
9. TRAINING COURSE
10. GENERAL LAYOUT

1. INTENDED USE

The **BV 6045DV** is intended for the visual inspection of various objects (handheld baggage, luggage and other items) without opening them.

Dual-energy imaging allows for the automatic colour-coding of materials with different atomic numbers so that, within any parcel, screening staff can easily identify dangerous objects, objects that are prohibited for importing or exporting, or objects that have not been declared.

The dual-view system means that the operator can simultaneously view two separate images (in perpendicular orientation), thus giving a more complete view of the object being scanned and reducing the need for repositioning and rescanning. This enables rapid, accurate and comprehensive threat detection.

The **BV 6045DV** enables the identification of weapons, explosives, drugs and any other dangerous or prohibited items.

2. KEY FEATURES

- Dual-view technology	The operator gets two X-ray images of a scanned object, which helps with threat detection and means there is no need to reposition the screened object or to carry out secondary screening.
- The automatic identification of suspicious objects (drugs, explosives) and The highlighting of optically dense objects	Algorithms used in the software enable the automatic highlighting of objects such as weapons, explosives and narcotics, as well as opaque areas where dangerous objects could be concealed. These functions improve operating efficiency.
- The availability of three-colour and seven-colour imaging	The operator is free to choose whether to use three-colour imaging (organics/inorganics/metals), which will likely be familiar to them, or seven-colour imaging, which is more detailed and enables more precise material discrimination of effective atomic numbers. Additional colours help the operator to stay attentive and help him/her not to become overloaded when working across a long period of time. This improves the attentiveness of the operator and therefore minimises the need for manual searches of bags, which improves the checkpoint's efficiency.
- The fault-tolerant configuration of the	The special configuration of the operator's workstation makes its software resistant to viruses and other

acquisition/analysis workstation	harmful interference. System shutdown is immediate and is safe for the equipment and data.
- Quick start-up and shutdown	Due to the new configuration of hardware, the system becomes ready for operation within 30 seconds. The instant shutdown of the system is now also possible.
- User-friendly interface	The set of self-intuitive tools and settings makes it possible for the operator to master the control of the system quickly and easily, making his/her daily work more efficient.
- Real-time self-diagnostics	The status of all the important assemblies and components is controlled in the online mode, allowing the system to be kept operational and the operator to be informed about any changes in good time.
- Adaptive cooling system	The use of adaptive cooling technology significantly reduces the noise of the equipment during operation (up to its complete elimination).

A description of the colour palettes of the images

Material Type	Atomic Number	Three Colours	Seven Colours	Examples	Possible Threats
Light organic	1–6	Bronze	Red	Polyethylene, light hydrocarbons	Natural gas, gasoline
Organic	6–8	Bronze	Bronze	Timber, oil	Explosives
Low-density organic	8–10	Bronze	Olive	Paper, alcohol	Narcotics
Mixed	10–12	Green	Lime	Glass	Jewellery, gems
Light metals	12–18	Green	Green	Aluminium, silicon	Powder, detonators
Heavy metals	18–30	Blue	Blue	Iron, steel	Weapons, ammunition, knives
Dense metals	30+	Blue	Purple	Gold, silver	Contraband
Impenetrable	–	Black	Black	Lead	Masked dangerous objects

TECHNICAL SPECIFICATIONS OF THE OPERATOR'S WORKSTATION**

Processor	At least 2.7/3.3 GHz, 6 MB L3
Storage device	Failsafe SSD 480 GB
RAM	DDR3, 8 GB
Graphics	2 GB
Display and control	2x LCD 19.5" (1920 x 1080) with specialised keyboard; or 2x LCD 21.5" (1920 x 1080) with specialised keyboard; or 2x LCD 21.5" (1920 x 1080) touchscreen with operator console.
Operating system	MS Windows EMB 8.1 Industrial, the fault-tolerant configuration
Image archiving	50,000 Images

**Specifications can be changed on request.

POWER SUPPLY

Circuit type	Single-phase, general purpose
Line voltage	230 VAC \pm 10%/120 VAC \pm 5%
Line frequency	50/60 Hz
Power consumption	A maximum of 1.2 kVA

ENVIRONMENTAL REQUIREMENTS

***Operation:	
- Ambient temperature	0 °C to +40 °C
- Atmospheric pressure, kPa (mm Hg)	84.0 to 106.7 (630–800)
- Maximum relative humidity (at +20 °C)	Up to 90%, non-condensing
Transportation:	
- Ambient temperature	-20 °C to +50 °C
Storage:	
- Air temperature	-10 °C to +50 °C
- Maximum relative humidity (at +35 °C)	Up to 98%, non-condensing

***Operating temperature can be increased up to +50 °C (option).

4. FUNCTIONS

To increase the efficiency of operators, the system supports the following functions:

- Bi-directional scanning
- The ability to move the unit through a doorway with a width of 900 mm
- The ability to stop scanning after each object
- The ability to return an object after scanning
- Continuous scanning
- The ability to show images of the previous session
- Password-protected login
- Automatic diagnostics of the operation of the system and discrete components
- The ability to display status messages
- Automatic X-ray generator warming-up procedure
- Automatic determination of the need for warming up the X-ray generator during long idle periods
- Colouring according to calculated values of atomic numbers
- Use of three-colour and seven-colour panels
- Automatic selection of optically dense objects
- The ability to invert images
- Edge enhancement
- The ability to filter to colour organic materials
- The ability to filter to colour inorganic materials
- Gamma-correction of images
- Optimising the overall contrast
- Colouring substances with atomic numbers from a selected range
- Pseudo colouring objects with the option to select various palettes
- Displaying organic objects with atomic numbers equal to 7, 8 and 9
- Displaying substances according to a selected range of signal strength
- Zooming in on images up to 96x
- Automatically saving X-ray images in the archive
- Saving X-ray images in original or JPEG format
- Browsing the image archive
- Copying images onto external storage media (USBs)
- Preparing service reports
- Counting inspected baggage items
- Printing X-ray images
- Multi-language interface support

5. OPTIONS

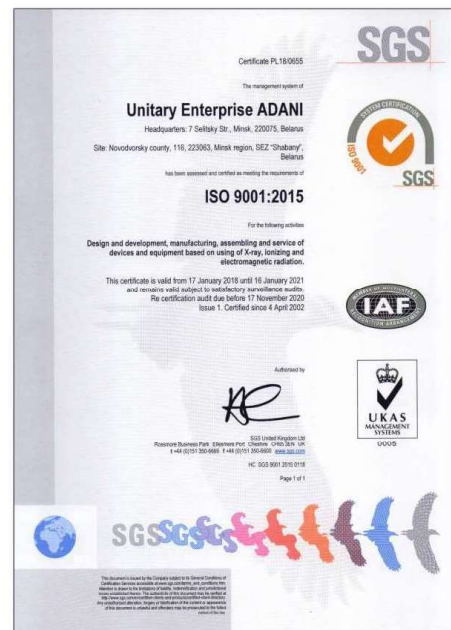

- Length of entrance and exit roller tables (in multiples of 0.5 m)
- Operator desk with chair
- Stand for monitors and dedicated keyboards
- Set of test objects
- Touchscreen operation functionality
- External uninterruptible power supply
- The ability to use non-standard colours for panels
- Two-monitor functionality
- The ability to connect to a local network (external storage, remote diagnostics)
- Colour laser printer
- Increased image storage capacity
- Remote workstation (10 m, 25 m and more)
- Extended warranty period
- Trays for the inspection of small objects

6. CERTIFICATES AND STANDARDS

6.1 ISO 9001:2015 certified

6.2 The product is compliant with the requirements for cabinet X-ray systems – US FDA, Center for Devices and Radiological Health, 21-CFR 1020.40

Accession number of 1810631-000

www.linevsystems.us

TECHNICAL PROPOSAL: BV 6045DV

p.8

7. RADIATION SAFETY

The design of the system provides radiation leakage attenuation limited to $1.0 \mu\text{Sv/hr}$ (0.1 mR/hr) or lower at any accessible point at the distance of 0.1 m from the external surface of the system. The dose rate intensity at the workstations of the personnel does not exceed $1.0 \mu\text{Sv/hr}$.

8. WARRANTY TERMS

Twelve (12) months from the delivery date (parts only). Replacement parts (FCA Minsk) are at ADANI's expense. Shipment and labour costs are at the buyer's expense.

9. TRAINING COURSE

The training of operators and service specialists is carried out in agreement with the customer.

STANDARD WARRANTY TERMS AND CONDITIONS

GENERAL TERMS AND CONDITIONS

- 1.1. LINEV Systems US Inc. (hereinafter referred to as "LINEV") shall handle warranty related claims regarding equipment manufactured by LINEV.
- 1.2. The products have been manufactured to the highest quality standards and are warranted to the original purchaser only. This warranty is not transferable.
- 1.3. The products are covered by the warranty for a duration of 12 (twelve) months from the date of acceptance by the Customer. The products are guaranteed to be free from defects in workmanship and parts during the warranty period. The defects that occur within the warranty period under normal use and care will be repaired or the defective parts or products will be replaced at LINEV's sole discretion.
- 1.4. LINEV reserves the right to replace the product or relevant part with the same or equivalent product or part rather than repair it. Where a replacement is provided the product or part replaced becomes the property of LINEV. LINEV may replace parts with refurbished parts. Replacement of a product or a part does not extend or restart the warranty period.

2. SERVICE OR REPLACEMENT PROCEDURE AND COST SHARING

- 2.1. The defective product or part shall be sent back to LINEV or a third party indicated by LINEV at LINEV's sole choice and instruction.
- 2.2. The sender shall ensure that the product is properly packaged to ensure that no damage occurs to the product during transit. An explanation of the problem shall be included. The contract number and the product's serial number shall be expressly stated when making a claim under this warranty.
- 2.3. LINEV shall provide the replacement parts or products or repair the defective parts or products free of charge.
- 2.4. LINEV will provide standard shipping and insurance of the replacement and defective parts or products to and from LINEV or a third party as indicated by LINEV. Express shipping may be provided at extra cost.
- 2.5. LINEV will provide warranty-related labor costs as well as the travel-related costs if repairs are deemed the result of equipment failure or defects in workmanship. All other repairs will be billable. Cost estimates for non-warranty repairs will be provided in advance.

3. EXCLUSIONS AND EXCEPTIONS

- 3.1. If no identical product is available for replacement, LINEV reserves the right to replace the product with a device of equal capacity or offer the customer the choice of a product upgrade which may incur an extra cost.
- 3.2. This warranty is limited to defects in workmanship or parts. All defective products or parts will be repaired or replaced. This warranty does not extend to accessories, manuals, packaging, batteries or any other consumable item.
- 3.3. The warranty will not apply if the factory-applied serial number has been altered or removed from the product.
- 3.4. This warranty does not cover damage, malfunction or failure which resulted from alterations, accident, misuse, abuse, fire, liquid spillage, maladjustment of customer controls, use of an incorrect voltage, power surges and dips, thunderstorm activity, acts of God, voltage supply problems, tampering or unauthorized repairs by any person, use of defective or incompatible accessories, exposure to abnormally corrosive conditions or entry by any insect, vermin or foreign object in the Product.
- 3.5. This warranty does not cover damage arising during relocation. Relocation costs are not included in standard warranty.
- 3.6. LINEV will not be liable for any loss, damage or alterations to (1) third party equipment, furniture, hardware or software; or (2) programs, data or information stored on any media or any part of the product, no matter how occurring; or for any loss or damage arising from loss of use, loss of profits or revenue, or for any resulting indirect or consequential loss or damage.
- 3.7. This warranty does not cover normal wear and tear of the product or parts.
- 3.8. LINEV excludes all other warranties, conditions, terms, representations and undertakings whether express or implied.
- 3.9. The terms and conditions related to the validity period and cost sharing arrangements set forward in part. 1.3., 2.4., and 2.5. of this document, can be superseded by related terms and conditions of sales contracts.

🌐 www.linevsystems.com

The equipment and services we provide our corrections partners are mission critical to their day-to-day operations. We have established an industry-leading service level agreement that defines, categorizes, and prioritizes service support incidences based upon the overall impact to the customer's organization - the higher the impact, the higher the priority, the quicker the response time. The charts below represent the mechanics of the agreement:

Priority Levels

Level	Name	Description	Type	Operating hours
P1	Scheduled Task	Scheduled maintenance or mutually agreed upon date/time for work to occur. (example: Preventative Maintenance, Installation, Training)	Task	8 am to 6 pm
P2	Low	Low priority where productivity and overall impact to the organization is not affected (example: Light Bulb, Configuration, Software Update)	Problem	8 am to 6 pm
P3	Normal	Medium priority where productivity is impacted for a single user and considered a nuisance (example: Log On, Reporting, Printing, Image Storage/Export)	Problem	8 am to 6 pm
P4	High	High priority where productivity is impacted for multiple/many users and is considered detrimental to the operations of the customer (example: Full features not functioning, intermittent errors, need to reboot the system)	Problem	24x7
P5	URGENT	CRITICAL / OUTAGE where all systems/services are unavailable for all users/offices. No workaround available. (example: Hard error message and the unit will not function/scan, Unit does not power on)	Incident	24x7

Escalation Matrix:

Level	2 Hours	4 Hours	8 Hours	24 Hours	48 Hours	72 Hours
P1	Email Support at support@linevsystems.com or LINEV Systems Service Line 844-989-6789					Service Supervisor
P2	Email Support at support@linevsystems.com or LINEV Systems Service Line 844-989-6789		Service Supervisor	Service Manager	RSM	
P3	Email Support at support@linevsystems.com or LINEV Systems Service Line 844-989-6789		Service Supervisor	Service Manager	RSM	Director
P4	LINEV 844-989-6789	Service Supervisor	Service Manager	RSM	Director	Vice President
P5	LINEV 844-989-6789	Service Supervisor	Service Manager	RSM	Director	Vice President

There are two ways to open a Service Ticket in our system, by calling 844-989-6789 OR by emailing support@linevsystems.com . Reporting a Service Ticket both ways will slow the response times.

TRAINING

Training is up to 8 hours of radiation safety, theoretical and practical for LINEV Systems Full Body Scanner system. The End User must provide a room with adequate seating and AV equipment to facilitate the presentation of some training material. LINEV Systems, Inc. partners with RCE Consulting for **State specific** radiation safety training and Radiation Protection Programs as an optional feature. These are online and compliant to State requirements. We provide even more value by assisting the End User with State registrations etc.

A sample training outline follows:

Overview and Features:

High-level overview of how LINEV Systems Full Body Scanner works:

LINEV Systems Full Body Scanner is a full body contraband detection system based on Transmission X-ray technology. LINEV Systems Full Body Scanner uses a 160Kv X-ray generator and a set of high-resolution X-ray detector boards to image any items that may have been swallowed or otherwise concealed in the body cavities of the subject individual being screened.

Transmission X-ray is what is used in medical and dental X-ray imaging except in significantly reduced radiation doses. To perform a scan the individual to be screened steps onto the platform. LINEV Systems Full Body Scanner operator initiates the scan by pushing a button on the control panel. The person to be screened remains stationary and a thin micro-dose, fan X-ray beam passes over them. The image data is gathered and displayed on one 27" monitor for the operator to analyze the image.

Highlights of LINEV Systems Full Body Scanner, its features, and advantages:

LINEV Systems Full Body Scanner has been designed to stand up to the rigors of a correctional environment. The system is constructed with a steel frame that is mounted to the floor. LINEV Systems Full Body Scanner operating software, EASYDATA, is intuitive to use and provides many image enhancements features to aid the operator in contraband detection. These features include, but are not limited to, black and white display, reverse black and white, digital zoom, contrast enhancement and mark and annotate suspicious images.

Identifying external components of LINEV Systems Full Body Scanner:

- Pass Through Imaging Portal
- X-ray Generator(s)
- X-ray Detector set(s)
- Operator Control Panel
- Emergency Stop Buttons
- X-ray on indicators
- Monitor(s)
- Lead Wall with Window and casters (if installed)
- Optional RFID or Bar Code Reader (if installed)
- Radiation exposure associated with LINEV Systems Full Body Scanner
- Safety considerations while using LINEV Systems Full Body Scanner

There is a 2 hour Radiation Safety Course that is part of the training curriculum. A digital copy will be provided to the County on completion of training.

SCANNER OPERATIONS

- Start Up & Shut Down:
- Checks to be performed before starting up LINEV
- How to start up
- How to perform the Functional Test
- When and how to shut down
- How to start after an emergency stop
- How to direct persons to be scanned
- How to start scanning
- How to stop scanning
- Enhancing X-ray Images
- Features and examples of the enhancement filters
- Storing, retrieving, printing images

INDUSTRY EXCLUSIVE TABLET BASED IMAGE INTERPRETATION TRAINING

- LINEV Systems is positioned above all other manufacturers as the market leader to provide more in-depth training and analysis based on the largest combined deployment of body scanners leading to millions of anonymous images in our library.
- Two (2) hour training session includes Industry Exclusive Image Interpretation Training
- Operators are provided Microsoft Tablets with a version of LINEV Systems Full Body Scanner operating software.
- Image review, marking, and interpretation instruction is provided.
- LINEV's 1000+ installations world-wide has allowed us to compile the industry's largest library of contraband images. This hands-on training is unique in its unparalleled ability to show real-world contraband to new operators.
- This interactive portion of training allows attendees to experience and familiarize themselves with the tools necessary to be well-equipped to identify contraband before it enters the facility.

SECTION EIGHT: PRICING

Section	Mandatory Specifications for Equipment (HI-SCAN 6040-2is)	Cost (list price) MSRP	Qty	Discount/Percent of list	Total Amount	Description

X-RAY INSPECTION SYSTEM

BV 5030

SMALL AND ADVANCED X-RAY INSPECTION SYSTEM FOR QUICK AND EFFECTIVE CONTACT-FREE INSPECTION OF SMALL BAGS, BRIEFCASES AND BACKPACKS

KEY FEATURES

Artificial Intelligence software system for automated detection of firearms, knives and ammunition

The automatic identification of suspicious objects (drugs, explosives)

Availability of 7, 3 colour and infinite colour palettes of images

The fault-tolerant configuration of the acquisition/analysis workstation

Quick start-up and shutdown

Real-time self-diagnostics

The BV 5030 is a high-resolution, single view X-ray baggage inspection system with the ability to automatically detect prohibited objects and threats.

The tunnel with a width of 520 mm and a height of 320 mm is optimal for inspection of baggage, bags, hand luggage and parcels. The System may be used at inspection points of critical infrastructure facilities, law enforcement and security agencies, customs, border guards, hotels, event centers, educational institutions, sports arenas, and other places where reliable and uninterrupted operation of inspection systems is required.

The BV 5030 enables the identification of weapons, explosives, drugs and any other dangerous or prohibited items. Unique colour palettes and touch control provide an exceptional level of operator efficiency.

It may not be used, reproduced, disclosed, or exported without the written approval of LINEV Systems. With continual development of our products LINEV Systems reserves the right to make changes to the design and specifications at any moment and without notice.

BV 5030

OPTIONS

- Artificial Intelligence software system for automated detection of firearms, knives and ammunition
- Additional (2nd) monitor
- Touchscreen operation functionality
- Ability to connect to a local network
- Remote operator position (up to 25 m)
- Monitor top position
- Rigid type packaging
- Roller tables with a length that is multiples of 0.5 m
- Operator's Workstation Stand
- Test objects kit

GENERAL SPECIFICATIONS

DIMENSIONS

TUNNEL DIMENSIONS

width	520 mm [20.5 in]
height	320 mm [12.6 in]

OVERALL DIMENSIONS (MAX)

width	750 mm [29.5 in]
height	1200 mm [47.2 in]
length	1240 mm [48.8 in]

WEIGHT (MAXIMUM)	360 kg [794 lbs]
------------------	------------------

CONVEYOR BELT

Maximum distributed load on the conveyor belt	160 kg [353 lbs]
Conveyor height	700 mm [27.5 in]
Conveyor speed	0.22±0.03 m/s [43.3 ft/min]

X-RAY SOURCE

Anode voltage	160 kV
Beam direction	Diagonally sideward

X-RAY DETECTOR

Detective ability for copper wire	0.08 mm (40 AWG)
Penetration on steel	36 mm guaranteed 37 mm typical
Spatial resolution, line pairs per mm	1.0 in the direction of scanning 1.0 along the detector

POWER SUPPLY

Line voltage	220 VAC ± 10%/120 VAC ± 5%
Line frequency	50/60 Hz
Power consumption	Max 0.9 kVA

ENVIRONMENTAL REQUIREMENTS

Operation:	
- Ambient temperature	0 °C to +40 °C
- Maximum relative humidity	Up to 90% non-condensing

X-RAY INSPECTION SYSTEM

BV 6045

A QUANTUM STEP FORWARD IN SYSTEM
AVAILABILITY AND INNOVATION

KEY FEATURES

- Modular Architecture
- Colour Solutions
- Telemetry (predictive analytics)
- Artificial Intelligence software system for automated detection of firearms, knives and ammunition
- Automatic identification of suspicious objects (drugs, explosives)
- Availability of 7, 3 colour and infinite colour palettes of images

BV 6045 is a high-resolution, single view X-ray baggage inspection system with the ability to automatically detect prohibited objects and threats.

The tunnel with a width of 610 mm and a height of 450 mm is optimal for inspection of baggage, bags, hand luggage and parcels. The System may be used at inspection points of critical infrastructure facilities, law enforcement and security agencies, customs, border guards, hotels, event centers, educational institutions, sports arenas, and other places where reliable and uninterrupted operation of inspection systems is required.

BV 6045 enables the identification of weapons, explosives, drugs and any other dangerous or prohibited items. Unique colour palettes and touch control provide an exceptional level of operator efficiency.

BV 6045

OPTIONS

- Automatic selection of suspicious objects (such as explosives, drugs, impenetrable areas) using Zeff and optical density
- TIP software for monitoring operator vigilance
- Secure login
- Multi-level user access with the ability to administer users, roles and access level
- Viewing X-ray images from a previous session
- Quick view of the last 10 images (configurable parameter)
- Bi-directional scanning
- Modes of operation: scanning with a stop of the conveyor after each object or without stopping, with the possibility of returning the object after scanning
- Automatic diagnostics of the System and individual units performance
- Automatic warming up of the X-ray generator during prolonged idle time (no warming up is required during daily operation of the System)
- Automatic storage of X-ray images in the archive
- Baggage counter
- Display of date and time, unit serial number and operator ID Multilingual interface
- Possibility of choice by the operator of 3, 7-colour or infinite colour palette
- Display of software version and serial number of the System
- Display of user login time and duration of the current session

SOFTWARE SOLUTIONS

NEXT GENERATION OF AI FOR AUTOMATIC X-RAY THREAT DETECTION

Our proprietary software A-EYE is an Artificial Intelligence system intended for the automated identification of firearms, firearm components, ammunition, grenades, knives, and brass knuckles. The detection algorithm is an embedded part of our baggage inspection systems.

The automatic detection solution is built using real threat objects that could be expected at events and locations such as theme parks, concerts, sporting events, schools, or other venues which may require security checkpoints.

© LINEV Systems. All rights reserved. The information in this document is proprietary to LINEV Systems. It may not be used, reproduced, disclosed, or exported without the written approval of LINEV Systems. With continual development of our products LINEV Systems reserves the right to make changes to the design and specifications at any moment and without notice.

LINEV's proprietary software A-EYE is an Artificial Intelligence system intended for the automated identification of firearms, firearm components, ammunition, grenades, knives, and brass knuckles. The detection algorithm is an embedded part of our baggage inspection systems.

The automatic detection solution is built using real threat objects that could be expected at events and locations such as theme parks, concerts, sporting events, schools, or other venues which may require security checkpoints. The A-EYE algorithm considers diverse visual backgrounds in baggage consisting of variously dense-packed items in any bag type.

The A-EYE algorithm increases threat detection capabilities for operators with any level of experience. Threats are visually highlighted on the screen by colored boxes with category identification, the software allows the system to automatically stop the conveyor when a threat is detected. A scanner equipped with the A-EYE algorithm ensures increased throughput and social distancing due to minimizing crowded lines at security checkpoints.

KNIVES	HANDGUNS	AMMUNITION	KNUCKLES	GRENADES
Combi knives, paper knife, Jack-knives folded/ unfolded/ partially folded, Swiss army knife, Lexan's knife, multi-tools, kitchen knives from 2.36"	Assembled or disassembled handguns, revolvers, shotguns and submachine guns	Empty or loaded clips and magazines for automatic guns and revolvers, ammo of various calibers single and in bulk	The most commonly used forms, palm grips, and materials were taken into account	Most widespread grenade types like MK2, M26, M67, F1, RGD-5, RG-42, AN-M14, M7A3 CS, and others

CUSTOM AI SOLUTIONS

Our new powerful AI became more flexible and can be adapted for your needs. We identify the list of target items for automatic detection, retrain our algorithms to recognize the objects of interest in required conditions and deliver them to any model of our scanners that meets your requirements.

Common tasks our AI solutions help to complete:

- Prevent theft in various industries
- Recognize foreign objects in products
- Detect threats specific for your domain
- Additional layer for automatic quality control

X-RAY INSPECTION SYSTEM

BV 100100TB

ESPECIALLY DESIGNED FOR QUICK,
ACCURATE AND HANDSFREE
INSPECTION OF BAGGAGE
AND SMALL CARGO

KEY FEATURES

- The automatic identification of suspicious objects (drugs, explosives)
- Availability of 7, 3 colour and infinite colour palettes of images
- The fault-tolerant configuration of the acquisition/analysis workstation
- Quick start-up and shutdown
- Real-time self-diagnostics

The BV 100100TB is a high-resolution, single view X-ray baggage inspection system with the ability to automatically detect prohibited objects and threats.

The tunnel with a width of 1010 mm and a height of 1010 mm is optimal for inspection of baggage, luggage, small cargo and other items. The System may be used at inspection points of critical infrastructure facilities, law enforcement and security agencies, customs, border guards, sports arenas, and other places where reliable and uninterrupted operation of inspection systems is required.

The BV 100100TB enables the identification of weapons, explosives, drugs and any other dangerous or prohibited items. Unique colour palettes and touch control provide an exceptional level of operator efficiency.

BV 100100TB

OPTIONS

- Additional (2nd) monitor
- Touchscreen operation functionality
- Ability to connect to a local network
- Remote operator position (up to 25 m)
- Rigid type packaging

ACCESORIES

- Roller tables with a length that is multiples of 0.5 m.
- Operator's desk with chair
- Operator's Workstation Stand
- Test objects kit
- Ramp

Examples of Images with Automatic Threat Detection by the AI Software System

GENERAL SPECIFICATIONS

DIMENSIONS

TUNNEL DIMENSIONS	
width	1010 mm [39.8 in]
height	1010 mm [39.8 in]
OVERALL DIMENSIONS (MAX)	
width	1280 mm [50.4 in]
height	1825 mm [71.9 in]
length	3550 mm [139.8 in]
WEIGHT (MAXIMUM)	980 kg [2161 lbs]

CONVEYOR BELT

Maximum distributed load on the conveyor belt	200 kg [441 lbs]
Conveyor height	320 mm [12.8 in]
Conveyor speed	0.22±0.03 m/s [43.3 ft/min]

X-RAY SOURCE

Anode voltage	160 kV
Beam direction	Diagonally downward

X-RAY DETECTOR

Detective ability for copper wire	0.08 mm (38 AWG)
Penetration on steel	34 mm guaranteed 36 mm typical
Spatial resolution, line pairs per mm	1.5 in the direction of scanning 1.0 along the detector

POWER SUPPLY

Line voltage	230 VAC ± 10%/120 VAC ± 5%
Line frequency	50/60 Hz
Power consumption	Max 1.0 kVA

ENVIRONMENTAL REQUIREMENTS

Operation:	
- Ambient temperature	0 °C to +40 °C
- Maximum relative humidity	Up to 90%, non-condensing

X-RAY INSPECTION SYSTEM

BV 100100DV

ESPECIALLY DESIGNED FOR QUICK,
ACCURATE AND HANDSFREE
INSPECTION OF BAGGAGE
AND SMALL CARGO

KEY FEATURES

Dual-view technology

The automatic identification of
suspicious objects (drugs, explosives)

Availability of 7, 3 colour and infinite
colour palettes of images

The fault-tolerant configuration of the
acquisition/analysis workstation

Quick start-up and shutdown

The BV 100100DV a high-resolution, dual view X-ray baggage inspection system with the ability to automatically detect prohibited objects and threats.

The dual-view system means that the operator can simultaneously view two separate images (in perpendicular orientation), thus giving a more complete view of the object being scanned and reducing the need for repositioning and rescanning. This enables rapid, accurate and comprehensive threat detection.

The tunnel with a width of 1010 mm and a height of 1010 mm is optimal for inspection of baggage, luggage, small cargo and other items. The System may be used at inspection points of critical infrastructure facilities, law enforcement and security agencies, customs, border guards, event centers, sports arenas, and other places where reliable and uninterrupted operation of inspection systems is required.

The BV 100100DV enables the identification of weapons, explosives, drugs and any other dangerous or prohibited items. Unique colour palettes and touch control provide an exceptional level of operator efficiency.

X-RAY SECURITY SCREENING SYSTEM

CLEARPASS C.I.

COMPACT PARTIAL BODY SCANNING SYSTEM

KEY FEATURES

- Superior high quality images
- Fastest scan acquisition time in the industry
- Patented advanced contraband detection software
- Automatic dose selection based on BMI
- Mobile through standard doorway
- Small footprint (9.4 sf. / 0.85m²)
- Easy, one person plug & play set up
- Advanced operator usage data reporting software
- ANSI/HPS N43.17-2009 Class B – partial body scanner

CLEARPASS C.I. the most compact, mobile body scanner on the market. Specifically designed to detect contraband and produce a high resolution image to identify threats within the human body, focusing specifically on the torso area.

CLEARPASS C.I. builds on LINEV Systems legacy of industry leading image quality and resolution delivering the most effective solution for the detection of internally concealed drugs, weapons, metal objects, and electronic devices.

CLEARPASS C.I.

-  **NARCOTICS
IN BODY CAVITIES**
-  **WEAPONS**
-  **EXPLOSIVES AND
AMMUNITION**
-  **CERAMIC AND
PLASTIC BLADES**
-  **ELECTRONICS AND
MINIATURE PHONES**

OPTIONS

- Software Upgrade
- Fingerprint Scanner
- Bar code Reader
- Passport Reader
- Facial Recognition Camera
- Intercom System
- Touchscreen Panels
- Laser Printer
- Multi-Operator Function
- Network Integration

GENERAL SPECIFICATIONS

Scanner Dimensions	52" L x 26" W x 67" H
Scan Area	19.7"H x 14.2" W
Weight Capacity	Max 660 lbs
Power Requirements	120VAC/20amp
Select-able Scan Settings	0.25 - 1.0 μ Sv
Scan and Image Time	2 - 4 seconds
Consumption	Max 1 kVA
Minimum Throughput	240 scans per hour
Wire Detectability	Up to 40 AWG
Dose Per Scan	0.27 - 10 μ Sv

Meets/Exceeds IEEE N42.47-2010 ANSI for measuring the imaging performance of X-ray and Gamma-ray Systems for Security Screening of Humans

X-RAY SECURITY SCREENING SYSTEM

CLEARPASS

HIGH THROUGHPUT X-RAY
INSPECTION SYSTEM WITH
AI ASSISTANT AND
EXTRAORDINARY
DETECTION CAPABILITY

Optional workstation shown.
Standard workstation included.

KEY FEATURES

- Superior high quality images
- Fastest scan time in the industry
- Contraband detection software
- Static screening
- ANSI/HPS N43.17-2009 compliant
- Wheelchair friendly

CLEARPASS Full Body X-ray Scanner from LINEV Systems answers the calls and demands of Corrections, Transportation and Customs and Border Protection professionals for a compact scanning technology with advanced, high-resolution imaging performance and advanced detection capabilities.

The inspected person in CLEARPASS remains stationary and the bodyscanner provides industrie's fastest image aquisition time of 3 seconds.

This new revolutionary X-ray inspection system is rugged, fast, and non-contact! The unique pass-through design and prison-proven LINEV Systems exclusive automatic threat detection algorithms facilitate the rapid, non-intrusive inspection of people attempting to conceal contraband items on or inside their bodies.

CLEARPASS

OPTIONS

- Sanitization
- FDA approved thermometer
- Networking
- JMS Integration
- DruGuard
- A-EYE

FEATURES

- Low radiation dose (from 0.25 μ Sv), allowing multiple inspections of one person within a year
- Use of A-EYE software - artificial intelligence system for automatic detection and classification of
- Objects located inside and on the human body
- High quality and information content of the image
- High detection capacity
- High throughput
- Integration into existing infrastructure, integration with access control systems and databases
- A wide range of image processing algorithms (tools)
- Easy storage and transfer of the received information
- Modular design for quick installation on site

A-EYE

Automatic detection and indication of all threats on the human body

- elements of clothes
- electronic devices (PCB inside)
- dangerous items (weapons, drugs)
- other items not belonging to the human body

CLEARPASS DMS

- CLEARPASS DMS can unite X-ray body scanners from distant locations into one network keeping track of the total X-ray exposure dose for each inspected person even when the person undergoes a security screening in different locations.
- CLEARPASS DMS synchronizes the information: inspected people's accounts, inspection scan records, and X-ray images between all connected devices.
- CLEARPASS DMS is a set of applications used to run X-ray people screening systems. The system allows operators to inspect people and view their accounts, perform a security screening, and view the obtained X-ray images
- CLEARPASS DMS includes at least three levels of controlled access with the following:
 - An "Operator" level for making scan, creating and filling reports and saving images as required.
 - A "Supervisor" level for supervisory staff to update subject information, create / update operators, review images and file data and monitor all operators' activity and data collected
 - An "Administrator" level to create/update/delete user group members with different levels of access, view audit logs, view images, save images to external drives and generate reports

SOFTWARE SOLUTIONS

DRUGGUARD®

KEY FEATURES

- Up to 99% probability
- Optimization of drug searching process
- Elimination of the human factor
- Operator can easily make a decision
- Color outlining
- Concealed narcotics localization
- Less image analysis time
- Storage of all images with outlined zones

DruGuard® is the first of its kind and the only available automatic detection software for Transmission X-ray Full Body Security Scanners.

DruGuard® is unique in its algorithm processing ability to detect internally concealed narcotics. DruGuard® is designed to keep the operator engaged in the image analysis process while providing specific tools such as the probability of detection and location of detected narcotics or drugs.

Simply by using the software, operators are assisting in increasing the sensitivity and decreasing false alarms.

DRUG DETECTION ASSISTANCE SOFTWARE

DRUGGUARD® is an automated narcotics detection assistance software based on state-of-the-art neural network algorithms and knowledge of human body physiology, specially developed to provide the operator with a tool for automated marking of illegal swallowed or smuggled inside body cavities substances as well as visualization of the suspicious areas with indication of appropriate drugs presence probability.

In the matter of seconds this intelligent software analyzes the images and outlines the suspicious areas where the drugs may be concealed.

Extensive reporting features of DruGuard® allow supervisors to review operator performance as compared to that of the software. DruGuard® requires operators to mark suspicious images, and DruGuard® overlays separate detection boxes to distinguish between automated and manual detection. DruGuard® features data input ability which allows it to "learn."

FULL BODY SCANNER SOFTWARE SOLUTIONS

A-EYE AUTOMATED DETECTION

* Human Operator Required At All Times

**LINEV'S INDUSTRY LEADING IMAGING NOW PRODUCES
ENHANCED RESULTS WITH LESS OPPORTUNITY
FOR AN OPERATOR TO MISS CONTRABAND**

KEY FEATURES

A-EYE takes the guesswork out of image analysis and reinforces operator decision making

- Automated detection of a wide range of threats
- High detection probability, low false alarm rate
- Developed using real threat objects
- Compatible with current and previous models
- High speed automated security checkpoint screening

A-EYE is a sophisticated set of algorithms which leverage the processing power of artificial intelligence to identify and classify all objects on or inside of the human body.

A-EYE is unique to LINEV Systems' line of full body security scanners and provides a level of operator assistance and accountability never before offered on body scanners using X-ray technology.

A-EYE AUTOMATED DETECTION

SPECIFICATIONS

A-EYE uses machine learning which automates data analysis and analytical model building to not only highlight foreign objects on or in the body, but also classify them into one of four categories.

Green = Clothing and Accessories

Orange = Foreign Object

Blue = Electronics

Red = Threats

ENHANCED DECISION SUPPORT TOOL FOR SECURITY OPERATORS CONTACTLESS SCREENING

A-EYE Software

The Artificial Intelligence system for Automated Identification of firearms, firearms components, ammunition, and knives.

The Algorithm

Built using real threat objects that could be expected at events and locations such as theme parks, concerts, sporting events, schools, or other venues which may require security checkpoints.

The A-EYE algorithm considers diverse visual backgrounds in baggage consisting of variously dense packed items in any bag type.

Threats are visually highlighted on the screen by colored boxes with category identification. Optionally, the software allows the system to automatically stop the conveyor when a threat is detected.

The A-EYE algorithm increases threat detection capabilities for operators with any level of experience. Ensures increased throughput and social distancing due to minimizing crowded lines at security checkpoints.

X-RAY SECURITY SCREENING SYSTEM

COMPASS SMART DV

REAL DUAL VIEW ADVANCED SECURITY
SOLUTION WITH ENHANCED DETECTION
CAPABILITIES FOR FAST, SAFE
AND PRECISE SCREENING

KEY FEATURES

- Superior high quality images
- Fast scan acquisition time
- Contraband detection software
- Real Dual View
- ANSI/HPS N43.17-2009 compliant
- Modular design

The COMPASS SMART DV System is designed to obtain projection two X-ray images of a person.

COMPASS SMART DV is most effective when searching for weakly contrast swallowed objects, as well as objects hidden in the natural cavities of the body.

It is the only available patented TRUE DUAL VIEW X-ray Screening System configured with two independent X-ray generators and detector arrays.

COMPASS SMART DV is intended for use at airports and border checkpoints, in the territories of production sites and mining and processing enterprises, prisons, administrative buildings and other places where a detailed examination of the human body is required, and increased security measures are in place.

SECTION TEN: BUSINESS REFERENCES

~~STANDARD WARRANTY TERMS AND CONDITIONS~~ Attachment E-4 Additional Terms

GENERAL TERMS AND CONDITIONS

- 1.1. LINEV Systems US, Inc. (hereinafter referred to as "LINEV") shall handle warranty related claims regarding equipment manufactured by LINEV.
- 1.2. The products have been manufactured to the highest quality standards and are warranted to the original purchaser only. This warranty is not transferable.
- 1.3. The products are covered by the warranty during 12 (twelve) months from the date of acceptance by CUSTOMER. The products are guaranteed to be free from defects in workmanship and parts during the warranty period. The defects that occur within the warranty period under normal use and care will be repaired or the defective parts or products will be replaced at LINEV's sole discretion.
- 1.4. LINEV reserves the right to replace the product or relevant part with the same or equivalent product or part rather than repair it. Where a replacement is provided the product or part replaced becomes the property of LINEV. LINEV may replace parts with refurbished parts. Replacement of a product or a part does not extend or restart the warranty period.

2. SERVICE OR REPLACEMENT PROCEDURE AND COST SHARING

- 2.1. The defective product or part shall be sent back to LINEV or a third party indicated by LINEV at LINEV's sole choice and instruction.
- 2.2. The sender shall ensure that the product is properly packaged to ensure that no damage occurs to the product during transit. An explanation of the problem shall be included. The contract number and the product's serial number shall be expressly stated when making a claim under this warranty.
- 2.3. LINEV shall provide the replacement parts or products or repair the defective parts or products free of charge.
- 2.4. LINEV will provide standard shipping and insurance of the replacement and defective parts or products to and from LINEV or a third party as indicated by LINEV. Express shipping may be provided at extra cost.
- 2.5. LINEV will provide warranty-related labor costs as well as the travel-related costs if repairs are deemed the result of equipment failure or defects in workmanship. All other repairs will be billable. Cost estimates for non-warranty repairs will be provided in advance.

3. EXCLUSIONS AND EXCEPTIONS

~~3.1. If no identical product is available for replacement, LINEV reserves the right to replace the product with a device of equal capacity, or offer the customer the choice of a product upgrade which may incur an extra cost.~~

3.2. This warranty is limited to defects in workmanship or parts. All defective products or parts will be repaired or replaced. This warranty does not extend to accessories, manuals, packaging, batteries or any other consumable item.

3.3. The warranty will not apply if the factory-applied serial number has been altered or removed from the product.

3.4. This warranty does not cover damage, malfunction or failure which resulted from alterations, accident, misuse, abuse, fire, liquid spillage, maladjustment of customer controls, use of an incorrect voltage, power surges and dips, thunderstorm activity, acts of God, voltage supply problems, tampering or unauthorized repairs

by any person, use of defective or incompatible accessories, exposure to abnormally corrosive conditions or entry by any insect, vermin or foreign object in the Product.

3.5. This warranty does not cover damage arising during relocation. Relocation costs are not included in standard warranty.

3.6. LINEV will not be liable for any loss, damage or alterations to (1) third party equipment, furniture, hardware or software; or (2) programs, data or information stored on any media or any part of the product, no matter how occurring; or for any loss or damage arising from loss of use, loss of profits or revenue, or for any resulting indirect or consequential loss or damage.

3.7. This warranty does not cover normal wear and tear of the product or parts.

3.8. LINEV excludes all other warranties, conditions, terms, representations, and undertakings whether express or implied.

3.9. The terms and conditions related to the validity period and cost sharing arrangements set forward in part. 1.3., 2.4., and 2.5. of this document, can be superseded by related terms and conditions of sales contracts.
