RE: Request to update pricing for SW0081 (Asphalt)

To Whom It May Concern:

This is a request to increase our unit pricing for asphalt (SW0081) by \$6.10 per ton effective January 1, 2025. Since this contract was awarded (April 12, 2023), we have had two significant price increases from our aggregate supplier, Dolese (Richards Spur Quarry). Dolese increased their pricing on January 1, 2024 and January 1, 2025. The notices (for price increases) from Dolese are attached. We use 3/8" Chips, 5/8" Chips, Stone Sand, and Screenings to manufacture our asphalt. 3/8" Chips and 5/8" Chips have both increased by \$7.00 per ton since this contract was issued. Stone Sand has increased by \$6.00 per ton since this contract was issued. Screenings have increased by \$2.50 per ton since this contract was issued. We respectfully ask to update our unit prices for asphalt effective 01/01/2025 from the current contract price of \$66.95 per ton to \$73.05 per ton for Asphaltic Concrete Superpave Type S3 (PG-64-22-OK), Asphaltic Concrete Superpave Type S4 (PG-64-22-OK), and Asphaltic Concrete Superpave Type S5 (PG-64-22-OK).

Please respond at your earliest convenience so we know if our request for updated pricing will be accepted (or not).

Respectfully,

James H. Jenkins, President
