Who is CORE Office Interiors?

CORE Office Interiors is an agile, responsive Furniture, Fixture and Technology solutions provider committed to accountability and service excellence. COREoi is a Texas-based, Service-Disabled, Veteran-Owned Small Business with over 35 years of experience that employs a diverse mix of talented specialists and seeks to engage other minority-owned business to uplift and empower the interiors industry. They are relentless in their pursuit to meet client needs, and consistently challenge themselves to disrupt the industry and work boldly. As a result of COREoi’s forward thinking vision, they offer their clients best in class solutions for their working and learning environments. In addition to space planning, design, procurement, and installation capabilities, they also provide office re-configuration, company relocation, asset management, A/V and acoustic consulting, and ongoing post-installation services as well.

COREoi has the experience with projects of all sizes, and have completed many successful, large-scale projects over the years with government, healthcare, and educational entities and companies ranging from one to multi-floor locations, to large corporations with several campuses around Texas, the US, and Globally. They intimately understand the need for functional, safe, durable furniture and A/V Integration of the highest quality. Their product and their designs are built to stand the test of time in high use environments.
