Victim Services

The purpose of the Victim Services program is to appropriately address all requests from crime victims/survivors, their families, and the concerned public. Victim Services will serve as the central source of information to these parties. (4-4447)

For the purpose of this procedure, the term “offender” will apply to anyone under the authority, custody or care of a prison or a community-based facility operated by or contracted with the Oklahoma Department of Corrections (DOC).

I. Definitions

A. Victim Services Coordinator

The Victim Services coordinator is responsible to oversee the services and programs offered to victims, acts as the agency liaison to other victim advocacy groups, and coordinates offender programs or services that involve victims. (4-4447-1)

B. Facility Victim Liaisons

The facility victim liaison is the staff person who is the facility point of contact for victims. The facility liaison is appointed by the facility head and is responsible for providing information to victims and will assist in the coordination of programs such as the Victim Impact program for offenders.

C. Victim Information and Notification Everyday (VINE)

VINE is a 24-hour confidential, computer-assisted service that provides automated notification regarding current offender status to individuals who have registered with the automated system. Custody status changes covered in this service include offender transfer, escape, apprehension, release or death. (2-CO-4G-02, 4-4447, 4-ACRS-7F-06, 4-APPFS-1A-04)

D. Victim

The victim is a person who has been directly or indirectly affected or has been impacted by an act committed by an offender.

E. Victim/Offender Dialogue

Victim/offender dialogue is a process initiated by a victim of crime in which the victim requests to meet with the offender to discuss the impact the offender's crime had on the victim. This is a guided process for which all participating parties receive preparation assistance prior to the meeting.

F. Victim/Offender Mediation

Victim/offender mediation is a guided process that allows the victim of a crime (or a community advocate) and the offender to meet to discuss the impact the offender's crime has had on the victim and to explore restorative options that will give opportunity for the offender to take responsibility for their actions, help to restore the victim, and provide the offender the opportunity to give back to the community.

II. Services Provided to Victims

A. All information related to victims who are registered for VINE is strictly confidential. Any correspondence and communication from the Victim Services Unit (VSU) is confidential, unless stated otherwise. Offenders and/or offenders' families will not be given the name, address, telephone number or any other information on persons registered. Confidential notification is critical to the safety of victims of crime.

1. Notification is provided through "Victim Information and Notification Everyday (VINE)" This notification system is designed to notify victims when an offender's custody status changes, or in the event of escape, discharge, or death.

2. In order for victims to receive notification of movement or release of an offender, the victim must register with "Victim Information and Notification Everyday (VINE)" at www.vinelink.com or by calling 1-877-654-8463.

B. Communication and Support

1. Victims who need assistance regarding the status of an offender may contact the Victim Services or the victim facility liaison at the facility where the offender is assigned. Phone numbers for all facilities are available on the Department of Corrections website at www.doc.state.ok.us.
2. All employees who respond to victim calls or requests shall maintain positive interactions with the victim, the victim's family, advocates or related agencies and the general public and will provide interested parties with appropriate information and materials regarding departmental philosophy, operations and services available to the public. Victim calls may be referred to the VSU.

C. Cease and Desist Orders

When an offender is making unwanted or improper contact with a victim, the victim may request in writing that this contact be stopped. All such requests shall be made by contacting the facility victim liaison or the Victims Services Unit. If the request is received by the VSU, the Victim Services coordinator will communicate with the respective facility head to ensure the offender's contact with the victim is restricted.

D. Referrals

Referrals to the VSU may be made when a victim requires information related to resources available for support of victims in the community.

E. Victim/Offender Dialogue

This is a process in which the victim and offender meet to discuss the impact of the offender's crime on the victim. This process may be conducted over the phone for victims who are living out of state. Victim offender dialogue is a voluntary process and is initiated by the victim.

Contact can be made on behalf of the victim by the district attorney, the Attorney General's Office, a victim witness advocate, or other state agencies who may be providing services to a victim. The offender may also request dialogue, however if the victim has not expressed an interest, the

offenders request will be denied. The offender will be advised of the denial of the request by the VSU or the facility liaison.

2. If the offender agrees to the victim's request for dialogue, the process outlined in [Attachment A](#) entitled "Process for Victim-Offender Dialogue " (attached), will be completed and [DOC 090215A](#) entitled "Victims Services Unit-Offender Consent Form" (attached) and [DOC 090215B](#) entitled "Victims Services Unit-Victim Consent Form" (attached) are signed prior to beginning the process.

 - b. An evaluation will also be provided to the facility victim liaison for completion by the offender ("Offender Dialogue Evaluation Form," [DOC 090215C](#), attached).
 - c. The facility victim liaison may provide assistance to the offender in completing the evaluation. This evaluation will be used to determine the general outcome of the dialogue and to provide input from the participating parties in order to improve upon the process.
