Description of Amendment:

- a. The following questions were asked. Answers are indicated next to each question
 - What size are the 4 two-color logos? Are they all the same size? An example of the logo is an 8" wide by 18" tall rectangle. One logo will have a black background and take up the majority of one side of the van from behind the driver and passenger doors to the rear of the van (2 logos total that will be the same size). The same, resized logo with black background will appear on the rear of the van and span the width of the door opening. The same, resized logo with a white background and reversed color scheme will appear on the front of the van above the windshield and occupy most of the space below the running lights. Final sizing and placement of the logos will be decided based upon input from the selected vendor.
 - What size are the 3 one-color logos? Are they all the same size? The logos on the driver and passenger doors will be the same logo and size. They will occupy the majority of the door below the window to the bottom of the door. The third logo will be placed on the lower portion of one of the 50/50 rear barn doors and above the door hinge. Final sizing and placement of the logos will be decided based upon input from the selected vendor.
 - Are the logos and lettering to be reflective? Please provide one price for all non-reflective and a separate price for 2 lines of reflective text (16 characters each) with the balance non-reflective.
