

**Certification Examinations for Oklahoma Educators (CEOE)
Framework Development Correlation Table**

The Framework Development Correlation Table provides information about possible alignment of some of the knowledge and skills contained within the CEOE framework for a test field with other conceptualizations of the knowledge and skills of a field. It was produced using Oklahoma and educator association standards documents that were publicly available at the time of framework development. In the preparation of the Correlation Table, the alignment of a CEOE test competency with standards documents was indicated if the content of a standard was covered, in whole or in part, by the CEOE test competency. For some CEOE test competencies, multiple standards from Oklahoma, or other documents were aligned with the content of a CEOE test competency. An indication of alignment in the Correlation Table does not necessarily imply complete congruence of the content of a CEOE test competency with the standard.

Matrix Showing Match between Full Subject Matter Competencies for Driver/Safety Education and CEOE Test Objectives

Oklahoma Subject Matter Competencies	CEOE Test Objectives
1. Applies, models, and teaches appropriate learning strategies for the safe operation of motor vehicles.	0004 Understand the IPDE process and its application in operating a motor vehicle.
	0006 Apply the rule of "right of way" and the doctrine of "last clear chance" in given traffic situations.
	0008 Interpret standard roadway signs, pavement markings, and traffic signals.
	0010 Understand the rights and responsibilities of drivers and pedestrians in traffic situations.
	0011 Understand issues and practices related to safety in specified settings and situations.
	0012 Understand accident-avoidance maneuvers and driver liability in specific situations.
	0013 Understand causes of and responsibilities related to traffic accidents.
	0014 Understand automobile safety devices.
	0016 Understand preoperative, starting, and parking procedures.
0017 Understand procedures related to
