OUBCC - Class Outline
2015 International Plumbing Code® (IPC®, 2015)
Design, Installation and Inspection Principles

CLASS OBJECTIVE:

Participants will be better able to understand and apply the critical concepts required to safely and efficiently design, install and inspect plumbing installations in accordance with the 2015 *International Plumbing Code*® (IPC®). Participants will benefit from understanding the core principles needed to correctly interpret and apply the code.

During this training, participants will be listening to lecture and viewing examples, as well as discussing sections of the IPC® that pertain to plumbing system.
