

SCOTT MEACHAM  
OKLAHOMA STATE TREASURER

MONTHLY INVESTMENT  
PERFORMANCE REPORT

SEPTEMBER 2008

SCOTT MEACHAM  
OKLAHOMA STATE TREASURER

October 24, 2008

To the People of Oklahoma:

I am pleased to issue the September monthly investment performance report for the Office of the State Treasurer. I trust you will find it thorough and in keeping with my commitment to provide full and complete disclosure of all activities within my office. As always, my staff and I are available to answer any questions you might have.

Market Conditions

Yields on U.S. Treasuries fell during the month, except for a 10 basis points gain for the 10-year Treasury Note. The biggest change was a 77 basis point drop for the 3-month Treasury bill, taking the yield to .90% at month-end. Through-out the month markets reacted violently to economic news. The Dow Jones Industrial Average (DJIA) fell 504 points on September 15 in reaction to Lehman Brothers Holdings Inc.'s bankruptcy and declining commodities increased speculation that credit-market losses and the economic slowdown would worsen. After the House of Representatives rejected a \$700 billion plan to rescue the financial system the DJIA fell 778 points for its biggest point drop ever as \$1.2 trillion in market value was erased from American equities. The DJIA lost 6% in September and the Nasdaq fell 12%. The S&P 500 had its worst month since 2002 with a decline of 9.2%. On September 30, the London interbank offered rate, or LIBOR jumped 431 basis points to an all-time high of 6.88%. The Federal Open Market Committee (FOMC) held its target for the federal-funds rate at 2% when they met on June 25. "Downside risks to growth and upside risk to inflation are both of significant concern," the FOMC said in its statement.

Economic Developments

The Institute for Supply Management reported that its index of manufacturing activity declined in August for the first time in three months. The index fell to 49.9 in August from 50.0 in July. The unemployment rate climbed to a five-year high in August. The jobless rate jumped to 6.1% from 5.7% the prior month. Losses were concentrated in motor vehicles, wholesale and retail trade and employment services. US average hourly earnings rose 0.4% in August and were up 3.6% in the past 12 months. The producer price index (PPI) for finished goods declined 0.9% in August, seasonally adjusted. Leading the downturn, the index for energy goods fell 4.6% in August. The consumer price index (CPI) declined by 0.1% in August. The U.S. trade deficit widened to \$62.2 billion, the largest in 16 months. The Conference Board's consumer confidence index rose to 59.8 in September from 56.9 in August. The survey was taken prior to the credit crisis and plunge in stocks. The Commerce Department estimated in its final report that real Gross domestic product (GDP) grew 2.8% annualized in the third quarter of 2008.

Portfolio Commentary: Performance, Diversification, and Strategy

Yield on the Treasurer's portfolio was 4.05% in September and the weighted average maturity was 520 days. Turmoil in the securities markets resulted in temporary increases in Money Market mutual funds and overnight repurchase agreements. The year-to-date monthly average investable base increased by \$31 million, and reached a record-setting \$3.912 billion. Portfolio diversification continues to be sound. U.S. Treasuries represented 11% of holdings, and U.S. government sponsored enterprises accounted for approximately 37%. Mortgage-backed securities were 14% and Certificates of Deposit represented 6% of assets. Money market mutual funds were 11% and 14% was maintained in overnight repurchase agreements. Link deposits (at 1%), State Bond Issues (at 5%) and foreign bonds (at less than 1%) made up the balance of funds invested. In keeping with the State's statutory investment objectives, the portfolio strategy continues to seek safety, liquidity, and return on investment, in that order. Based on market conditions, portfolio strategy will consist of a combination of laddered maturities and market observation for investment opportunities.

Collateralization

All funds under the control of this office requiring collateralization were so secured at rates ranging from 102% to 110%, depending on the type of investment.

Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees, mutual fund operating expenses and fees charged by JPMorgan Chase for the Tri-Party Repurchase Agreement Program are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

Sincerely,

SCOTT MEACHAM, STATE TREASURER  
SECRETARY OF FINANCE AND REVENUE

# Explanation of Performance Comparison

## September 30, 2008

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at Northern Trust ("Northern").

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.
